It soon
earns
its cost

In any soil, on any farm, the CLIMAX
earns money for you every minute you use it

Very Strong

You can rip sod land with the CLIMAX and a 3-horse team—so it MUST be built strong! Yet the teeth won't smash if they strike a stone—their joints unlock and fly back to pass over unharmed.

Manitoba College used a CLIMAX on land rank with wild mustard; got rid of that bad weed; and grew oats 71 inches in the straw without a weed in the whole crop! The CLIMAX certainly does destroy weeds!

Easy Handled

Each pole has a tilting lever; and these, with the pressure lever—all in easy reach of operator—exactly regulate depth of cut. Teeth go right for the roots of the weeds, and rip them out of the soil.

This is the stiff-tooth cultivator that gets the weeds OUT of the soil—not merely cuts off their tops or just tickles the roots a little. On dirty land you surely need the

Frost & Wood Climax Cultivator

You can have your choice of points—2, 4, 7 or 10 inch. You ought to learn all the merits of this money-making weed-banisher. May we send you Catalogue F 65?

Shingles are responsible for 75 per cent. of the fires that destroy farm buildings.

NEPONSET Paroid Roofing

has saved valuable property from destruction in a great many cases. Where shingles would have served as kindling, NEPONSET Paroid Roofing withstood sparks and saved the building. That is one reason why the great railway systems of Canada use so much NEPONSET Paroid Roofing.

Write for Book of Plans of Farm and Poultry Buildings

There are different NEPONSET Roofings for different types of Buildings. NEPONSET Proslate Roofing: For residences and all other buildings requiring artistic roofing and siding. NEPONSET Paroid Roofing: For roofs and sides of barns, poultry houses, silos, etc. For poultry buildings, sheds and temporary structures, NEPONSET Red Rope Roofing is unequalled.

NEPONSET Roofings are made in Canada
