Better Make those Repairs of Concrete

EVERY fall finds some of the farm buildings needing repairs, or alterations, suggested by your experience of the preceding season. Would it not be wise, now when you are putting in new supports to the barn, repairing places where the action of the weather has rotted the wood, or putting your walks or fences in order, to do so with a material that

will never again cause you any trouble? If you use concrete for making your repairs you are done with the job once and for all. The simple convenience of concrete is fast commending itself to farmers who wish to keep their places in good order, and when you figure on its everlasting durability, no other material can approach it for economy. Concrete made with

CANADA CEMENT

THE CANADIAN STANDARD

is the cheapest, most durable and best material for farm construction of any kind. CANADA CEMENT is the greatest help the farmer could have for a uniform standard of purity is what CANADA CEMENT guarantees its users.

Especial emphasis is placed on purity, because purity is of prime importance. A difference of one per cent. variation below standard will make a whole world of difference in the setting—in the strength of your finished structure. CANADA CEMENT is always PURE.

In each of our ten mills it is made up to a certain specific standard and kept there. It is subject to constant tests by expert chemists. Prove it yourself. Take a handful of CANADA CEMENT and run it through your fingers. Notice its fine smoothness—utter absence of grit—feels like flour, you'll find. That means cohesiveness—perfect blending—close, solid setting of sand, aggregates and cement—a concrete structure of staunch, imperishable strength, absolutely impervious to wear, weather and years.

You Should Have this Book "What the Farmer Can Do with Concrete."

It tells how to build Barns, Dairies, Fence Posts, Feeding Floors, Root Cellars, Silos, Stables, Troughs, Walks, Well Curbs, and so forth. Each piece of construction is explained in detail, and full instructions and plans are given, making it a simple matter for you to do much of the work yourself.

There is nothing technical about this book in any part of its contents. It tells everything in plain, clear language, easily understood. Write to-night. Simply say on the back of a post card, "Please send me my copy of your book, 'What the Farmer Can Do with Concrete.'" Sign it. That's all. Now turn it over and address it to the
