

This Wife and Mother Wishes to tell you FREE How She Stopped Her Husband's Drinking

By all Means Write to Her
and Learn how She did it.

For over 20 years James Anderson of 105 Elm Ave., Hillburn, N. Y., was a very hard drinker. His case seemed a hopeless one,

but 10 years ago his wife in their own little home, gave him a simple remedy which much to her delight stopped his drinking entirely.

To make sure that the remedy was responsible for this happy result she also tried it on her brother and several of her neighbors. It was successful in every case. None of them has touched a drop of intoxicating liquor since.

She now wishes everyone who has drunkenness in their homes to try this simple remedy for she feels sure that it will do as much for others as it has for her. It can be given secretly if desired, and without cost she will gladly and willingly tell you what it is. All you have to do is write her a letter asking her how she cured her husband of drinking and she will reply by return mail in a sealed envelope. As she has nothing to sell do not send her money. Simply send a letter with all confidence to Mrs. Margaret Anderson at the address given above, taking care to write your name and full address plainly.

Every reader who wishes to cure a dear one of drunkenness should take advantage of this lady's sincere offer at once.

Special offering for sixty days of 40 superior yearling Oxford Down ewes, bred to our champion ram. Long-distance phone in the house; ask Guelph for 152, two rings.

Henry Arkell & Son, Arkell, Ontario

GOSSIP.

John Hawthorne, of Simcoe, Norfolk County, Ont., the well-known and enterprising importer and breeder of high-class Percheron stallions and mares, in his advertisement in this issue, calls attention to the character of the fine stock of horses in his stables at present. Mr. Hawthorne, with his long experience in selecting superior horses of this popular breed of draft horses, is well qualified for the business, and has brought out many first-prize winners at leading Canadian fairs in recent years. Parties interested may do well to write him, or better, visit his stables and see for themselves.

A. A. Colwill, of Newcastle, Ont., the well- and widely-known breeder of high-class Tamworth hogs, whose advertisement runs in this paper, writes: I have an unusually large assortment of Tamworths to offer. I have a dozen choice boars ready for service, and fit to head any herd, all sired by Imp. Cholderton Golden Secret No. 5483, and out of sows by Colwill's Choice, that old king of Tamworths so many years the champion prize boar at Toronto and elsewhere. I am offering these boars, together with a lot of sows, bred, and ready to breed, at very reasonable prices, in order to make room for my spring litters. In fact, I can supply pigs at nearly any age desired. I have also one or two nice registered Clydesdale fillies I could spare.

THE RESIDUAL EFFECTS OF FERTILIZERS.

(Extract from "A Farmer's Field Tests," by B. Leslie Emslie, C.D.A., P.A.S.I., F.C.S.)

The residual effects of fertilizers seem to be rarely taken into consideration by experimenters, and yet how important they are, as we shall endeavor to prove. How frequently we find the efficacy of a fertilizer measured only by the results produced in the season of its application, whereas if means were taken to ascertain its after-effects, it would be found effective for at least three subsequent seasons. This is certainly true of the mineral fertilizers, although not in the case of nitrogen, which gets leached out of the top soil.

Now, the Agricultural Holdings (Scotland) Act, which provides compensation for unexhausted improvements being paid to an outgoing tenant of a farm, assumes in its scale of compensation that fertilizer materials are exhausted at the following rate:—

Fertilizer Applied.	Rate of Exhaustion.
Nitrate of Soda.	(On arable land, entirely exhausted by first crop.)
Sulphate of Ammonia.	(On arable land, half exhausted by first crop, and quarter of remainder by each succeeding crop.)
Acid Phosphate, and all Potash fertilizers.	(On arable land, one-third exhausted by first crop, and quarter of remainder by succeeding crop.)
Basic Slag.	(On arable land, one-third exhausted by first crop, and quarter of remainder by succeeding crop.)
Dissolved Bones.	(On arable land, one-third exhausted by first crop, and quarter of remainder by succeeding crop.)

From this table can be seen the estimated period of efficacy of some of the more popular fertilizer materials in a moister climate than ours, so we would naturally assume that in this country the effects would be even more prolonged.

Free copies of this and other bulletins treating of the important subject of fertilizing may be had on application to The German Potash Syndicate, 1102-1106 Temple Building, Toronto, Ont. Advt.

The Canadian Logging Tool Company, Sault Ste. Marie, Canada, in their new advertisement in this paper call attention to the merits of their improved, modern logging tools, and their Standard Earth Auger, important time-saving devices, the claims of which for preference are set forth at length in their illustrated catalogue, which will be mailed free on application.

WHY THEY INHERIT IT.

And yet the meek, if we understand them aright, are precisely the people who don't want the earth

NINE MILLION ACRES OF PASTURE

The Bovril herds of cattle range over 438,082 acres of the finest pasture land in Argentina, and 9,261,400 acres in Australia.

BOVRIL

Come to Canada! SASKATCHEWAN THE GOLDEN

"The Land That Pays for Itself in a Single Season"
—Prof. THOMAS SHAW.

THOUSANDS of Eastern Canadians—some, your own former neighbors—are now in Golden Saskatchewan. They were struggling along five years ago, "back home"—just like you are to-day. Many were renters—didn't own a square foot of land. To-day they could buy out the richest farmer in your county. Not because these men are smarter or work harder than you, but because they now live where an industrious man has a fair chance.

Saskatchewan Land Maps Free

Last Mountain Valley

Saskatchewan farmers in Last Mountain Valley grow 40 bushels of wheat on \$30 land. Result: "Land cleared in one year." They are making money hand over fist. Crop failures? We don't have 'em here! Seven great railroads form a veritable network over this district. You're right in civilization.

And whoever saw a finer place to live! Good neighbors, fine climate, phones, railroads, churches, schools, rural mail, s ores, good roads, fishing, hunting, etc.

Two Big Land Openings— New Settlers Pouring in by Thousands

Last year 351,593 settlers came to Canada—and fortune. This year will see 500,000 follow them. The bulk of them are bound for the Prairie Provinces. And they'll never go back! They'll never leave this land of health, happiness, sunshine and fortune.

We are putting on two gigantic new land openings—one at Raymore, in Last Mountain Valley, on the main line of new Grand Trunk Pacific—finest wheat land in the world.

East of Last Mountain Valley lies the rich Touchwood Hills Country. Also to be opened up. Great land for mixed farming—stock raising—and wheat, oats, flax, barley, grasses, etc.

Lowest Prices

We have land bargains such as were never before known. Our prices are positively lowest. No other colonization company can ever hope to meet our terms and prices, because none can buy land now in such enormous tracts.

Land Books Free

Don't wait! Don't let this opportunity slip by. Saskatchewan land prices are doubling fast. Buy now—make a killing. Chances are if you lay this paper aside now, without further investigating this offer, you may overlook it entirely—may never make the big success that every real man deserves to win. So—act now—on the impulse—send in a postal that says: "I want to know about the land openings." You will receive by return mail the most complete and authoritative land information ever published—free—all about the big Land Openings—full reports on Crops, Climate, Soil, School, Churches, towns, Maps, Description of land, etc. Our special list of land bargains will be included. Address your postal to our Minneapolis office, not our Canadian office. Write
