

Compare the "BISSELL" with other disks

Thousands of Farmers have tested the "Bissell" Disk Harrow in the same field with other makes and found that the "Bissell" HAS THE GREATEST CAPACITY.

The plates are the correct shape. They cut, turn and pulverize the soil where others

only scrape the ground and set it on edge.

The "Bissell" Scrapers meet the plates chisel fashion and keep the plates clean. Movable Clod Irons—an exclusive feature—keep the space between the plates clear.

The "Bissell" stays RIGHT

DOWN TO ITS WORK. It won't bind, buckle or hump in the centre no matter how stiff or hard the soil may be. It is built to stand hard usage. The simple method of balancing the driver's weight removes neck weight. It is, the Harrow you should know more about.

AUTOMATIC SEED GRAIN PICKLER

For the Prevention of Smut Germs, etc.

(Patented Jan. 17th, 1911)

The fastest and most economical Grain Pickler on the market. This Seed Grain Pickler is a self-operating machine, supplying its own power by the force of the grain as it leaves the hopper, falling on the turbine situated in the lower hopper, causing a quick revolution of the turbine.

Cut No. 1 is the complete machine. Cut No. 2 is the turbine and sprayer and lower hopper.

The pipe, which is shown in the centre of the hopper in cut No. 2, delivers the liquid to the interior of the turbine, and it is then forced by gravity to pass through openings in the bottom outer edge, spraying the grain.

Full capacity: Wheat, 135 bushels per hour; peas, 115 bushels per hour; barley, 100 bushels per hour; oats, 90 bushels per hour, and other grain accordingly; but can be regulated to lessen the capacity as required. The machine can also be used for mixing grain.

We guarantee this machine to give perfect satisfaction or money refunded. Prices on application.

Directions for using.—Use 16 ozs. of liquid formaldehyde to 30 gals. of water, and thoroughly moisten the grain with the solution. Oats, barley and millet will require more water than wheat or peas. The best method is to apply it at night. Throw the grain in a heap, cover with a blanket, and bag in the morning. This method gives the grain a chance to penetrate the grain. Manufactured by

"Wheel the Scale to what you want to Weigh"

The RENFREW Handy Two-Wheel Truck Scale

SAVES MONEY FOR FARMERS AND DAIRYMEN

Thousands of farmers are losing money yearly through the inaccuracy of their scales.

It was to protect farmers against these losses that the Renfrew Truck Scale was designed and built.

And it does protect them—by being absolutely accurate.

Gives the farmer all his profits on everything he sells by weight.

Saves for him time and labor—simply wheel the scale to what you want to weigh.

Weighs anything from one pound to 2,000 lbs.—and weighs it right.

To verify these statements, mail coupon now for our Free Booklet

"The Profit in the Last Ounce." It tells in an interesting way about the business side of farming—and how money is saved with a "RENFREW" Handy Two-Wheel Truck Scale.
