Robson the Cream of the KOOTENAY

Dr. McDiarmid, Principal of
Brandon College, Writes:

Brandon, Man., Aug. 31, 1906
Messrs. McDermid & McHardy,
Nelson, B.C.

Gentlemen,—After spending a day in examining your Kootenay-Columbia fruit lands at Robson I am pleased to express the most favorable impressions of these lands. I am expressing that judgment by the purchase of three lots for myself and friends. The reasons of my selection of these lots are:

(1) The evidence of the suitable quality of the soil for raising fruits.

(2) The lay of the land—long, level stretches, first on the lower river flat and then on the bench 400 feet above.

(3) The increased rainfall that makes artificial irrigation as a rule unnecessary, while yet there are ample possibilities for irrigation if it should ever be found necessary.

(4) The beauty of the scenery. From every part of the lands the scenery is beautiful, but from the upper bench it is superb. The winding river and railway lines in the valley, with greenclad mountains all around, make a scene of indescribable beauty.

(5) The extended area. Those who buy lots here will not find themselves isolated. There will be afforded in the hundreds of lots, joining each other without a break, advantages of a social, religious and educational character that are invaluable.

(6) It is in the main line of travel to the East, via the Crow's Nest route, and to the West, via Arrow Lakes to Revelstoke. The facilities for getting fruit quickly to the market are unsurpassed.

Yours very truly,
(Signed) A. P. McDIARMID,
Principal Brandon College.

Put them on with no tools but a hammer and tinner's shears,—can't go wrong. They lock on all four sides, are self-draining and water-shedding on any roof with three or more inches pitch to the foot. Make buildings fire-proof, weatherproof and proof against lightning. Cost least in the long run. Made of 28-gauge toughened sheet steel—only one quality used and that the best—best cold and double-galvanized. Last longer with no painting than any other metal shingles heavily-

Painted. Guaranteed in every way until 1932. Ought to last a century. Cheap as wood shingles in first cost; far cheaper in the long run. "Oshawa" Galvanized Steel Shingles cost only \$4.50 a square, 10 ft. x 10 ft. Tell us the area of any roof and hear our tempting offer for covering it with the cheapest roof you can really afford to buy. Let us send you FREE booklet about this roofing question—tells some things you may not know.

FAIRBANKS-MORSE Oil Cooled Gasolene Engines

DON'T FREEZE! In exceedingly cold climates where it is impossible to use water for cooling Gasolene Engines, FAIRBANKS-MORSE Oil Cooling device solves the problem.

Fairbanks-Morse Oil Cooled Engines cannot freeze up in the coldest weather.

The Oil Cooling attachment takes up less space than a water tank and blows away with water altogether. Write us today for full particulars.

Fairbanks-Morse Engines are made in Canada and shipped by the Canadian Government. There are more of our engines in use than any other make.

Get our full advertisement and send it to:

The Canadian Fairbanks Company, Limited, 12-14 Arthur St., Winnipeg

I enclose a check for \$100.00 for the purchase of one of your engines.
