Wise Teachers Know the Value of Pictures

You add the interest and fascination of stories to your lessons in Geography, Science and History if you illustrate them with pictures projected by the Balopticon. The

BAUSCH & LOMB BALOPTICON

is the perfect stereopticon, projecting vivid brilliant pictures. Portable and convenient—simple to operate—made to last a life-time. Accurate mechanically and optically. Operates with ordinary lantern slide and can be arranged also for colored post cards, photos and other opaque objects direct.
