MCKENZIE'S SEEDS

For the West

If you would enjoy the real pleasure of Gardening and Agriculture see that the Seeds you sow are McKENZIE'S, grown for the West, they are really essential to safe and sure returns.

INHERITED PEDIGREED SEED GRAINS

Many of our customers who were late in sending in their orders last year for our Pedigreed Seed Grain, and who were so keenly disappointed, have since commended us for returning their money instead of buying and supplying inferior seed. Our Inherited Seed Grains are so handled by judicious selection, cultivation and environment, that the constitutional vigor and high germinating power thus retained make them a superior type. Unless we can supply such seed we prefer to refund the money.

1067 NEW SUBSCRIBERS IN TWO WEEKS

The above is not a publisher's dream. The names of 1,067 new subscribers were added to THE GRAIN GROWERS' GUIDE mailing list from January 10th to 24th, inclusive, a fact which can be verified by our subscription books, which are open to all advertisers.

There is a reason for this rapid progress. It is because THE GUIDE is the liveliest publication in Western Canada today, and is being recognized as such by the farmers of the country, in whose interests, and by whom, it is being published.

The wisdom of securing space in these columns should be apparent to every manufacturer and business man. Others are getting results, why not you?

Contracts made now on the basis of our present circulation will double in value before the end of 1910.

That means one hundred per cent. on your advertising investment and by the time you are called on to pay, the results will be apparent in your Sales Department.

THE GRAIN GROWERS' GUIDE will bring you big returns for every dollar you spend in it right NOW.

Every month these returns will become greater.

Every month your advertising space will increase in value.

Every succeeding month you will reap the cumulative returns of the preceding months' advertising. The philosophy of the thing is: GET IN NOW.

Write for advertising rates and further particulars regarding the paper.
