Parts of Corner Attachments.

PATENT
Corner Attachments
FOR
Connecting Springs.

Showing Corner Complete.

No. (1) Section of Side Spring ; (2) Concave Clip Bar ; (3) Leather or Rubber Packing ;
(4) Zinc Plate ; (5) Rubber Packing ; (6) Countersunk Pin.

We have, after careful and expensive experimenting, succeeded in attaching springs in such a way that there is absolutely no noise, cringe or rattle, while the formation and adjustment of the spring makes the gear the easiest and most pleasant rider that is made.

Be sure to buy none but the Genuine McLaughlin Gears.
