

WHEN driving a binder it's aggravating to have to stop because "the twine went wrong."

Sometimes the trouble is a bad spot in the twine—sometimes a tangled ball.

Such delays are the real price you pay for cheap twine.

PLYMOUTH TWINE

speeds up the work—cuts down the costs.

Plymouth is stronger and ties more bundles than any other brand. The quality never varies and the balls *don't fall down*.

If you want an easy and economical harvest, get your twine from us. And take our advice, order Plymouth **EARLY**.

WEST HUNTINGDON

Second Crop of Raspberries

Mr. Dan. Doyle, Dunbar street has handed in at The Ontario office a spray of red raspberry bush showing a number of berries fully ripe. The leaves were still green and the berries as fresh as in July, showing that the effects of frost are as yet almost nil in his part of the city. Second crops of raspberries, strawberries and even apple blossoms have been singularly numerous and abundant this year.

CHILDREN'S CLOTHING NEEDED

The Dorcas Branch of the W.C.A. has begun the usual winter's work of sewing for the poor. Many cases are reported of children unable to attend school for want of clothing. Donations of second hand clothing or boots for children from 6 to 14 years will be gratefully received and may be sent to Mrs. J. R. Bell, 68 Queen Street.

Trouble Over Nets

Arthur Hart of Shannonville when out fishing on the 15th of October lost some of his nets and other articles of fishing gear on Hedges Key's Point which he found unoccupied. When he returned he found the shanty and his things gone. Mr. Jas. H. McDonald who owned the shanty had, in the meantime, sent his men to the shore to get a boat and to bring the shanty home which they did. The men say there were only a few cooking utensils in the shanty when they went for it, the door being wide open, and they brought the cooking utensils home thinking they belonged to Mr. McDonald. The men say there were no nets in the shanty when they got there.

Hart laid a complaint against the men which came before Wm. J. Maynard, J. P. Shannonville, Monday, when after hearing the evidence for the prosecution, he sent the men up for trial as he had no power to receive the men's evidence and try the case.

Wm. Curnew appeared for the crown, and W. C. Mikel, K.C. for the accused men.

For the first time this season, snow fell on Monday afternoon at three o'clock and at five.

Reserve N.C.O.'s Class

The N.C.O.'s training class for the reserve militia opened last evening at the armouries in charge of Captain Cook. The attendance was fairly satisfactory for the opening meeting and more are expected to attend as the course proceeds.

The ease with which Corns and Warts can be removed by Holloway's Corn Cure is its strongest recommendation. It seldom fails.

From the above it will be seen that no less than seven responsible firms including some of the biggest shipbuilding concerns in Canada, were willing to undertake the building of a Canadian Navy, with Canadian workmen, in Canada, and that they were willing to guarantee delivery when wanted for manning a fighting Canadian Navy at the present time.

That the thing could be done, despite carping criticism of Tory newspapers seeking to please the Anti-Naval Nationalists, has been proved beyond question. It is an interesting fact that a Canadian shipbuilding yard completing contracts for an American firm which was not allowed to do the work in its own country, has built and sent to sea a number of ships, and that it is an order secured the past few months. Press reports tell that four of these submarines travelled under their own power to the Dardanelles and are to-day a part of the glorious Allied fleet.
