

**A GOOD APPETITE  
A GREAT BLESSING**

The Occasional Use of a Tonic Will Ensure a Good Appetite and good Health.

Loss of appetite during the summer months is a common trouble, and indicates that the digestive system is out of order. Lacking a healthy appetite many people—especially women go too long without food, or eat sparingly because food seems to distress them, and it is no wonder they complain of being constantly tired and unable to stand the hot weather. All this simply means that the digestive system is not doing its proper work and that the nutriment that should come from the food is not being distributed to the various organs of the body. In other words the blood is growing thin and watery. In such a case what is needed is a summer tonic, and among all medicines there is no tonic can equal Dr. Williams' Pink Pills. Take a short treatment with these pills and notice how promptly your appetite returns and your power to digest food improves. Your food will then do you good, your strength will return and you will no longer complain that the hot weather tires you out. Mrs. M. Kelley, Windsor, Ont., says:—"I suffered from indigestion for several years, and although I was constantly taking doctor's prescriptions they did not cure me, and the result was that I was greatly run down, and always feeling poorly. Finally I was advised to try Dr. Williams' Pink Pills, and as I soon found they were helping me I continued their use until I was fully cured, and am now able to properly digest any food I take. As a tonic and blood-builder I know of no medicine to equal Dr. Williams' Pink Pills, and I recommend them to all in need of a medicine."

The best time to begin taking Dr. Williams' Pink Pills is the moment you feel the least bit out of sorts. The sooner you do so the sooner you will regain your old energy. you can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

**PAPER CANDLES FOR SOLDIERS**

A torch for use by soldiers in the trenches and in their dugouts a torch so simple that any child can make it, is the invention of Mrs Edward Gushee, wife of a New York physician. Mrs Gushee and a staff of girls and boys are now making these torches by the hundreds, and intend to send them in large quantities to the front, according to the Seattle "Post-Intelligencer".

To make one of these torches take a newspaper and with a ruler tear it into strips two columns wide. Place six of these strips, one on top of other, or tear six newspapers at once if you find this easier, roll them up leaving a small hole through the centre; tie the roll with a cotton string, winding it the whole length; boil in paraffin for twenty minutes, and let it cool.

This makes a candle which can be lighted with a match and will burn without smoke for three quarters of an hour. It gives better light than an ordinary candle, quite enough light for a soldier to read write or sew by. Brooklyn Eagle

**The Road to Aldershot**

They've left Cape Breton far behind, And some they left, with tears were blind. When called, they all were bound to find The Road that leads to Aldershot. To Kentville, now so bright and gay They come from many a different way. And more are marching every day, Along the Road to Aldershot.

From Salmon River's intervals, From Richmond County's hills and dales, And from the "Fundy's" summer gales They're coming in to Aldershot.

They're leaving dear old Sydney's streets, They've gone from where the Mira meets, The wild Atlantic's age-old beats, And all are bound to Aldershot.

The game their fathers played of yore, Those lads are playing now, and more, They're longing for that bloody shore, That lies beyond old Aldershot.
