The details of the combination have not yet ben worked out, but it probably will be based on the principle of the German trust, involving

the regulation of prices, adjustment of the output to the demand and equal distribution of orders. The other firms included in the combination are Cammel, Laird Co., the North Eastern Steel Company, the For New Ontario-Site Chosen Weardale Steel and Coal Co., the Dorman & Long Company, Guest, Keen and Nettlefolds, the Baldwin Company and Stewart, Lloyd & Co. It is pointed out that it is ex. dfficult to complete such combination in England, as it is necessary to make public all deals with reference to them to the shareholders of the various companies.

of Agriculture in Saskatchewan in the carrying out of the contagious diseases in animals act. This work is controlled from Ottawa by Veterinary Inspector Dr. J. G. Rutherford. In most provinces the department has had special representatives, but in Saskatchewan and Alberta the work has hitherto been done by officers of the R.N.W.M.P. under the supervision of Inspector Burnett at Regina. The appointment of Dr. Hilton is

thus a departure from the hitherto prevailing practice. It is, however, probable that most of the veterinarians on the staff of the R.N.W.M.P. will be employed under the contagious diseases in animals act as heretofore and the appointment of Staff Sergeant Ayres seems to confirm this view.
