Farmers Organize at Florenceville

There was organized at Florenceville on March 2 a branch of the United Farmers of N. B. and the following officers were elected: T. W. Caldwell, president; C. W. Boyer, vice president; E. L. Hume, sec. trea.

A second meeting was held at Florenceville on March 9 at which there was a large attendance of farmers from Centreville, Summerfield, and Wicklow as well as from the immediate vicinity of Florenceville, and it seemed to be the unanimous opinion of the farmers there assembled that this organization would fill a long felt want. C. L. Smith of Woodstock was present and addressed the meeting at some length, setting forth in a very clear and forcible manner

the advantages this organization would be to all if properly carried out.

There was arranged meetings for Centreville on Friday, March 15, at 2 p.m., Summerfield Friday, March 15, at 7 p.m., and Bath, Saturday March 16, at 2 p.m. C. L. Smith was invited to address those meetings by the farmers from the different sections who were at the Florenceville meeting with a view of having branches organized in different sections.

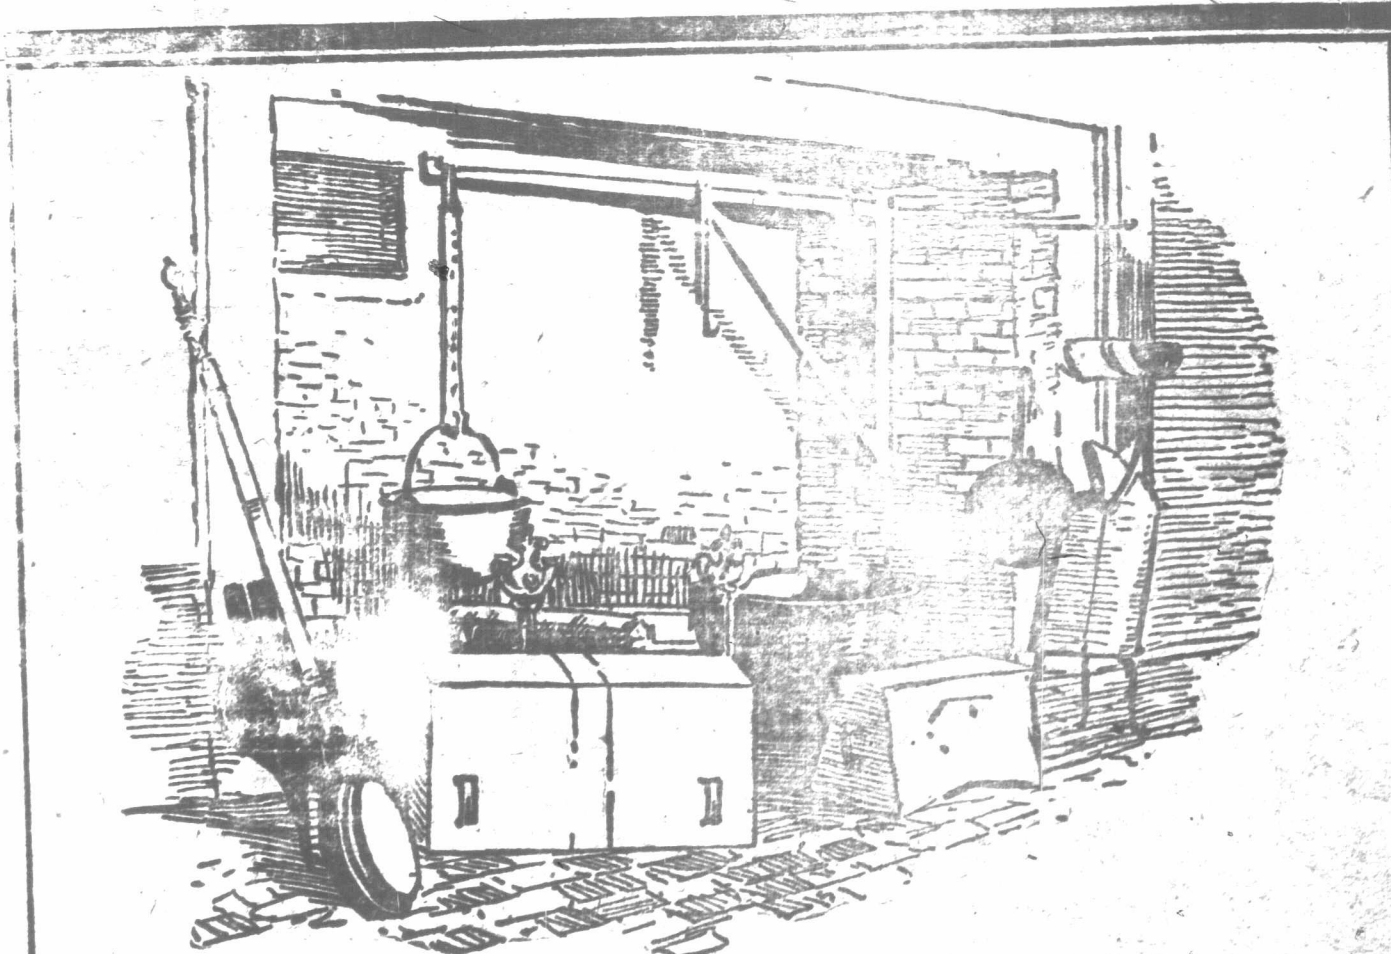

Among the other speakers at the Florenceville meeting was H. H. McCain, the pioneer produce merchant of Florenceville, who is a large farmer as well. Mr. McCain believes it would be a good thing for the farmers to organize for various reasons. He also reviewed the growth of the produce business of this section of N. B. since the time when one hay press did all the hay pressing, some thirty-odd years ago, until the present time when it took a score or more presses to press the hay of this section alone.

T. W. Caldwell, the president was elected a delegate to the meeting of the Farmers' and Dairymen's Convention which meets in Fredericton on March 13 to 15.

The United Farmers of N. B. will meet at Florenceville the third Saturday in every month beginning with April 1918.

Baking Day in Grandmother's Kitchen

GRANDMOTHER did her baking in tin kitchens set before the fire. Sometimes she baked a sponge cake in an iron kettle, browning the top with hot coals heaped on the lid. On baking day the kitchen was filled with delicious fragrance because Grandmother made her cakes and pies with old fashioned brown sugar.

Gone are the cranes and bellows and tin kitchens but we still enjoy Grandmother's favorite dishes. Mince pies, plum puddings, cakes and many sweets and beverages are much better made just as she made them with soft brown sugar. It is easy to get both the recipes and the sugar with which to make them up. Lantic Old-Fashioned

Brown Sugars come in three kinds—Light, Brilliant and Dark Yellow—and are for sale by grocers throughout Canada. Brilliant Yellow is particularly good for baking. Grandmother's Recipes have been reproduced in a delightful little book which we will send to you for a 2c. stamp to cover cost of mailing.

Lantic Old Fashioned Brown Sugar

is put up only in 100-lb. bags with the well-known Lantic trademark from which your grocer will serve you any quantity you require. Our booklet tells you among other things how to keep brown sugar fresh, moist and ready for use.

Lantic Old-Fashioned Brown Sugars are made by the same firm that makes the famous Lantic "FINE" Granulated.

National STOCK FOOD

Of the many Stock Foods on the market many are good, some are not so good. But in NATIONAL Stock Food are combined nutritive and tonic elements to a higher degree than any other. The results quickly show the difference between NATIONAL and all other stock foods. The tonic properties of NATIONAL operate upon the animal system, not only creating an appetite for them to eat more, but what is more important improves digestion and assists the assimilation of all the nutrition in the fodder.

For Horses, Cattle, Sheep, Hogs, and especially for breeding animals no tonic-food is so good as NATIONAL. It may cost more than some, but it is better than any.
