A CATHEDRAL FOR THE DIOCESE OF CHATHAM.

Great credit is due to the members of the R. C. congregation of Chatham for the practical beginning they have made for the erection of a Cathedral for the Diocese.

Half a generation ago, it was thought that the time had come for the building of the requisite edifice for the whole diocese and plans and estimates therefore were prepared by Bishop Rogers in New York. The papal delegate of the same name in Canada came here and laid the cornerstone. It was a time of the church's growth in all the parishes of the diocese, and that of Chatham being the largest and best able—as it was willing—to assist the faithful everywhere within its bounds, its people liberally responded to calls for help in the work of building parish churches, so that its people deferred taking the lead in operations on the proposed Cathedral, meantime.

For more than a year it has been realized that the erection of the Cathedral ought not to be longer put off; that the progress made throughout the diocese in the rebuilding and organization of its parishes had increased the necessity for a Cathedral establishment, that the duty of taking the necessary steps towards providing it was imperative.

On Sunday last, therefore, a large representation of the congregation of the parish of Chatham, who worship in the pro-cathedral, assembled in their Confraternity Hall, to meet His Lordship Bishop Barry to discuss the subject of going on with the erection of the proposed Cathedral. After the matter had been considered in debate, the unanimous agreement was so evidently in favor of active steps being taken for entering upon the work with the least possible delay, that organization to that end was effected, the following being chosen as officers connected with the congregation of the pro-cathedral:—

W. C. Winslow, President.
Thomas Flanagan, Vice-Pres.
Rt. Rev. Thos. S. Barry, Treasurer pro-tem.
Jas. F. Mayer, Secretary.

The original plans for a stone structure procured by Bishop Rogers were adopted, as suitable. It was understood, however, that the building would be somewhat longer than laid down in them, in order to meet all requirements. It was decided that the site of the Cathedral should be near that of the present pro-Cathedral, where determined upon by His Lordship Bishop Barry. A Committee of Management was appointed as follows:—

Messrs. R. Flanagan, Wm. Lawlor, R. A. Murdoch, Jas. F. Connors, Donald Fraser, Edward Barry, Edward Gallivan, M. J. Morris, Andrew McIntosh, Patk. Coleman, J. McCormick, Thos. Buckley.

Those present decided to open a subscription list, and the handsome sum of over \$6,000 was the result. Amongst the donors were: His Lordship Bishop Barry, a personal subscription of \$1,000; Rev. Father O'Leary, \$500; Thos. Flanagan, \$300; Father Joyner, \$100; Sisters of the hotel Dieu, \$50.

We understand that other subscriptions were sent in on Monday, which increased the contributions to over \$7,000.

It was understood that the subscription list would be open at the door of Confraternity Hall next Sunday for the purpose of receiving additional subscriptions.

It is reasonable to anticipate generous subscriptions generally throughout the Diocese to the proposed undertaking. Its people are quite able to prove in a cathedral worthy of themselves and of the work of their church, whose record under the venerable Bishop Rogers has been one of most gratifying advancement in all that goes to make for the enlightened progress and well-being of the different parishes under his ecclesiastical jurisdiction. The fact that the work is now taken up by his energetic successor, Bishop Barry, is a guarantee that it will be practically carried forward. The new Bishop has an established reputation as an able organizer and administrator, and the beginning made on Sunday last under his auspices is a manifestation of the confidence his people repose in him and an augury of the successful carrying out of the undertaking so auspiciously received.—Advance.

ENGINEER SAVED IT.

Truro Local Left Track Near Richmond, and Was Barely Saved from Disaster.

HALIFAX, N. S., Jan. 2.—The Truro local train left the track near Richmond at the Point. The locomotive ran a distance of a hundred yards and then toppled over. Three passengers, postal baggage and milk left the tracks. Two first-class cars and the second class remained on the track. Three lengths of rails were torn up and sleepers splintered. The passengers were almost panic-stricken, but no one was injured.

Engineer Copeland, of Truro, was in charge of the locomotive. He remained at his post with the fireman, and his presence of mind in applying the brakes and closing the throttle prevented a bad disaster. We understand that the above is Mr. Fred Copeland, one of Newcastle boys.

LUMBERING.

Beautiful Weather for all Operations.

A LARGE CUT.

Predicted for the Miramichi District The Present Season.

It is felt that lumbering has been carried on under such favorable circumstances as this season. The weather conditions, a few days excepted could not have been better if the operators had the making of it. At present there is just enough snow to make good hauling and things are booming in all sections.

This year a large number of small operators are cutting logs on their own behalf or under contract for the larger operators and all are sure of making a good thing this year.

Y. M. C. A. SOCIAL.

The Ladies Auxiliary Committee of the Y. M. C. A. gave an excellent musical and literary entertainment in the rooms of the Association on Friday night last. The effort was not so largely patronized as on a previous occasion, nor indeed as the merits of the occasion demanded. Mayor Morrison occupied the chair and in his usual graceful manner announced the different numbers of the programme, which, as they were rendered, elicited hearty and warm applause from the audience. The Y. M. C. A. Orchestra were present and, discoursed sweet music, playing several pieces, viz., at the opening, during the programme and while refreshments were being served. Mrs. Nicholson presided at the piano, playing accompaniments except during the singing of two solos, for which Mrs. Sargeant played. The programme as rendered was as follows:

Selection by Orchestra.
Solo by Miss Maggie Elliott.
Reading by Miss Nicholson.
Double Trio by six young ladies.
Solo by Mr. Hamely, of Chatham.
Solo by Mrs. Sargeant.
Piano Solo by Miss Bessie Crocker.
Selection by Orchestra.
Those who took part in the programme not already mentioned were: Mrs. R. T. D. Aitken, Miss Harley, Miss Mary Russell and Miss Watt.

Refreshments consisting of sandwiches, cake, tea and coffee were served around which all seemed to thoroughly enjoy. Mrs. Troy and Mrs. Nicholson had charge of the musical part of the programme and certainly deserve credit for the excellence of this part of the entertainment. The Ladies' Committee as a whole are to be congratulated on the success which has attended the two entertainments held in these rooms. And the members of the Association feel indebted to those ladies who are taking an interest in the work of the Association.

While the refreshments were being served an alarm of fire was given at which most of the occupants of the audience hastily left the room, but the sight of the good things in store for them was too enticing and they speedily came back.

Maritime Farmer Special Number.

Historical matter, present doings and forecasts of the future all figure prominently in the make up of the bright Maritime Farmer paper which has reached our desk in the form of a Special Winter Fair number that easily takes rank as the most elaborate undertaking yet on record in agricultural journalism in Eastern Canada.

The whole work is of our own people, about our own country, and should appeal to us accordingly. Amongst other articles is an exhaustive record of the purchased stock importations to New Brunswick. Similar data regarding the other provinces is promised for future issues. There are also splendid papers dealing with dairy work, fruit growing, live stock, and the farm home, all grandly illustrated.

Ten pages are devoted to a report of the Maritime Winter Fair, recently held at Amherst, making by long odds the most complete account of the proceedings at that most interesting event that will be placed before the public.

The paper, presswork and illustrations are high class, possessing the nature of the undertaking. It might be pointed out that the illustrations, while not so strikingly artistic as those in some other similar publications, are exact life reproductions and consequently of far more value to the student of correct animal form.

This issue comes out in the face of a reduced subscription price, 39 cents per year being the rate at present, given cash subscribers. At that price a farmer can be without this up-to-date journal. The Maritime Farmer is published at 100, N. B.

HYMENIAL.

The marriage of Miss Dora Rankliffe, daughter of Mr. and Mrs. H. A. Rankliffe, and Mr. Harris Whitney was solemnized Thursday afternoon at three o'clock at the home of the bride's parents, corner of Empire avenue and Pipestone street.

The Rev. W. L. Cogshall was the officiating clergyman and performed the beautiful Methodist Episcopal ring service in the presence of sixty relatives and friends.

The bride was beautifully attired in a handsome imported gown of pale blue tulle, trimmed with lace and pearls and worn over white tulle, and she carried a snowier bouquet of lilies of the valley.

The bride is one of this city's accomplished young women, is a graduate of the high school and the college here and studied two years at the Chicago law school.

The groom is a promising and successful young attorney of this city.

Mr. and Mrs. Whitney and party occupied a box at the theatre at night. They will reside at 204 Superior street.

Mr. Whitney is a Miramichi boy a son of the late E. K. Whitney of Whitney of Whitneyville. His many friends here wish him happiness.

THE WAR OF 1812.

The unjustness of the War of 1812 is well explained by Dr. James Hannay in the first installment of his history of that great struggle which appears in the January EXAMINER MAGAZINE. He points out that before the news of the declaration of war had travelled from Washington to London the objectionable Orders in Council concerning the Right of Search had been withdrawn. Thus the only acknowledged reason for the war was removed before the war was struck. There was an arrangement on receipt of the news, but the United States would not agree to stop the war. Napoleon was preparing to invade Russia. Great Britain's hands were full of war. Hence the United States considered it an excellent moment to strike a blow at England—the old member who was so keenly hated—and at the same time gain possession of Canada. President Madison war coerced by his political friends, who declared he only could secure a second term by carrying on the war. He yielded against the dictates of his better judgment. Dr. Hannay's narrative is clear and spirited, and is probably the best account of the struggle yet published. Future installments will be eagerly awaited.

OVER THE WIRES.

Young Hunter Shot.
Word has reached Digby from Central Grove, Long Island, Digby county, of a shooting accident which took place there Tuesday. While out hunting in company with St. Clair Walker, Hunter was thinking to play a joke, and holding the thumb of his white mitt in his right hand, he shot at a bird. The bullet struck the bird in the breast and killed it. Hunter was not hurt.
