## HUNTERS FIND CURIOUS PRIZE.

Two Deer in Mortal Combat With Horns so Interlocked They Could not be Separated.

Doaktown, Nov. 7.—Lorne Dixon and Adam Russell brought home on Saturday night a curiosity in the shape of deer heads. They found near Muzzall Brook two deer with horns interlocked, one down on the ground and the other standing over him. They had been engaged in mortal combat and the survivor, although he had broken the neck of his enemy, was pinned fast by that enemy's antlers. The live one was quickly despatched and both carcasses skinned. The antlers are so interlocked that it is impossible to separate them without doing damage to them. They were two splendid heads. Messrs. Dixon and Russell also secured a very nice caribou head.

## Mothers must have Abundant Strength

No Mother Can Rear a Healthy Child Unless she is Strong Herself.

A woman's anxieties multiply ten fold about the time the new baby is expected. If her strength is exhausted and her blood weak, it goes hard in the hour of trial. Ferrozene should be used because it makes the blood nutritious and rich. By instilling new strength into every part of the body, it uplifts your spirits at once. Childbirth is certainly made easier by Ferrozene. The following statement expresses the earnest gratitude of Mrs. M. E. Duckworth, of Durham. It is a woman's story, of her own case—told that other women may profit by her experience: "Before baby was born I was in a weak, miserable, nervous state. I had no reserve strength. I tried to build up, but nothing helped me. I looked upon the coming day with dread, knowing I was unequal to the occasion. "Ferozone braced me up at once. It gave me strength and spirits. I brought back my nerve and cheerfulness. From my experience with Ferrozene I recommend it to expectant mothers. "There is more concentrated nourishment in Ferrozene than you can get from any thing else. It supplies what weak systems need. Simply take one tablet at meals and you'll feel benefited in a thousand ways. Ferrozene makes healthy, virile, vigorous women; try it. 50c. per box of fifty tablets, or six for \$2.50, at all dealers.

## POSTMASTERS WANT AN INCREASE OF PAY.

Ottawa, Nov. 7.—Postmaster-General Lemieux heard a delegation of country postmasters today in favor of obtaining increased salaries. There was two representatives from Ontario, one from Quebec, one from New Brunswick, and one from Manitoba. Mr. Lemieux promised to give consideration to the claims put forth and there is little doubt that an increase will be forthcoming.

## N. B. FARMERS TOO CARELESS WITH CATTLE

Ontario Man Says Animals are Allowed to Suffer With the Cold—His Impressions of Farms Here.

Bathurst, N. B., Nov. 5.—F. E. Sharp of Midland, N. B. and C. M. MacRae of Ottawa spent Sunday in town and left on the accommodation this morning for Kent county, where they are to address a number of farmer's institute meetings. They have been in the counties of Northumberland, Gloucester and Restigouche for the last three weeks addressing meetings of this nature.

Mr. MacRae is an Ontario man from the Ottawa valley. Though he has been in the Maritime Provinces before, this is his first institute work in New Brunswick. When asked what he thought of farm operations in this province Mr. MacRae said that when he considered the fact that so many were mixed up with fishing and lumbering, as well as farming, he was much pleased with many things he saw. The farmers, he remarked, were too careless with their live stock, permitting them to exposure when they should be comfortably stabled. For instance, when driving along the road the other day, during a cold rain, he saw a number of herds of dairy cattle stand-

## Two Norwegian Barques

Ashore on P. E. I.

One Has Broken in Two and the Crew May Be Lost.

Charlottetown, P. E. I., Nov. 7.—A Norwegian barque, supposed to be on her way to Campbellton, N. B., is ashore at Black Bush, on the north side of the Island, about fifteen miles west of East Point, and is supposed to be a total wreck but no particulars have yet been received.

Another Norwegian barque is ashore between Priest Pond and Black Bush. She is loaded with deals and has broken in two. There are men on both sections with poor prospects of their lives being saved at present. That makes two Norwegian barques ashore between Priest Pond and Black Bush. The second one went on last evening at 10 o'clock. One man who landed cannot speak English. Lloyd's agent is wiring the marine department to send a steamer to give assistance to the wrecks. One of the vessels is the Olga. She is not broken up and the crew will probably be safe.

"You appear to be a jolly humorist, remarked the bogus lord in the hazy shoes.

"No wonder, me lord," replied the count with the dicky under his dress suit. "I went to Mrs. De Style's dinner party and was mistaken for a waiter."

"What! It is a wonder your dignity is not offended."

"Oh, I can afford to get my dignity for a little while when I received enough tips to keep me in cigarettes and oatmeal for a week."

ing on the lee side of a barbed wire fence, evidently suffering from the effects of the storm. This he remarked, would take away all the profits from these dairy herds for the next four or five months.

Having made a tour of the New Brunswick fairs, he considers the horse exhibit, with very few exceptions, the poorest in the live stock lines. They were invariably much too small to be of service in the farm, and coupled with this a high percentage were unsound or had conformations tending that way. Better feeding of all lines of live stock would mean larger profits and fewer losses to their owners.

Mr. Sharp, one of our own province men, has been this way on two other occasions doing institute work. His last trip through these counties was made three years ago. On being asked if he could see any improvement amongst our farmers he said he was pleased to say that he could. He would judge from aftergrowth of clover he saw in many places indicated that the farmers were awakening up to the value of this plant as a food for live stock and a fertilizer to the land and when plowed down. From the appearance of the stubble on the grain fields he thought the farmers were giving more attention to the cultivation of the land, which in his way of thinking was of the greatest importance to successful agriculture. He noted also that there had been much improvement in farm buildings, many new barns more up to date had been constructed, which meant more comfortable quarters for the live stock.

## BUILT UP HER HEALTH

SPEEDY CURE OF MISS ECCLESON

She is Made Well by Lydia E. Pinkham's Vegetable Compound, and Writes Gratefully to Mrs. Pinkham.

For the wonderful help that she has found Zula Eccleson, 6 Erie St., East, St. Thomas, Ont., believes it her duty to write the following letter for publication, in order that other women afflicted in the same way may be benefited as she was. She writes:  
Dear Mrs. Pinkham:—  
I heartily recommend Lydia E. Pinkham's Vegetable Compound as a tonic and regulator for female troubles. Suffered for four years with displacement and no one but those who have experienced this dreadful agony can form any idea of the physical and mental suffering those endure who are thus afflicted. Your Vegetable Compound cured me. Within three months I was fully restored to health and strength and now my periods are regular and painless. What a blessing it is to obtain such relief when so many doctors fail to help you. Your medicine is better than any doctor or medicine I ever had.

No other medicine has such a record of cures of female troubles as has Lydia E. Pinkham's Vegetable Compound. Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), displacement of organs, inflammation or ulceration can be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Her experience is very great, and she gives the benefit of it to all who stand in need of wise counsel. She is the daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. Address, Lynn, Mass.

"What seems to be the trouble?" queried the friendly sheep.

"Why, er—I am afraid my horns are not on straight."

Which goes to show that the weakness of the sex is even found in the mild-eyed cow.

while the older buildings could be used for storing the machinery which was a matter much neglected by many.
