West Flamboro

Rev. Mr. Cole, of Sheffield, will preach in the Methodist Church next Sabbath evening.

The visitors in this locality this week are Mr. and Mrs. McCloud, of Toronto, at the home of Mr. Peter Neff; the Misses Henderson, with Mr. Kelly, and Miss Bertha Vollick, of Hespeler, at Mr. Andrew Betzner's.

The reconstruction of the Parliament buildings will commence at once.

Allan McDonald, a stenographer at Montreal, shot himself dead in his office.

Mr. W. T. R. Preston said that Protestant missionary effort in Japan had failed.

The Chambers of Commerce of the Empire began their congress at Sydney, N. S. W.

The Alberta & Great Waterways Railway will be built from Edmonton to Fort McMurray.

Rev. Mr. Roadhouse was welcomed to the pastorate of the new Myrtle Avenue Baptist Church, Toronto.

It is reported that tenders for fifteen of the Gillies limit lots, exclusive of the Provincial mine, will be accepted.

George Merryfield, formerly of London, Ont., attempted to commit suicide in the St. Clair River near Port Huron because he believed the Black Hand was hounding him.

Hugh John Macdonald, barrister, Toronto, was married last evening to Florence H. Chubbuck, daughter of C. E. D. Chubbuck, of the Department of Railways and Canals, Ottawa.

Mr. William McPhail, of Campbellville, has been searching in vain for traces of his son, S. Calvin, who disappeared from Zealanda, after receiving a remittance from home.

A man named Mitchell fell from a train near North Bay with his infant son in his arms, and the boy's thigh was broken. His father had to walk to North Bay, carrying the child.

Evidence was introduced at the trial of John Dillon at Montreal for the murder of Constable Shea, of a lawyer who went to the house to see Dillon, and heard the shot. Dillon told him he had shot a man.

Burglars broken into the residence of Gus Carlson at Nanaimo, B. C., early yesterday morning, bound and gagged Mrs. Carlson and so seriously wounded her husband that he died in a short time. The murderers secured \$80 and escaped.

Seven tenders were opened yesterday for the work of deepening and widening the Aqueduct at Montreal. F. H. McGuigan, of Toronto, is amongst the tenderers. The estimate of the city is \$1,200,000. The contract will be awarded next meeting.

The Toronto Railway Company reaped a rich harvest during the exhibition this year, the receipts for the thirteen days being \$201,061, as compared with \$188,337 last year, an increase of \$12,724. The receipts on Labor Day set a new record for a single day. They amounted to \$20,101.

Ten thousand dollars was yesterday paid by the Christian Brothers, through their superior of the community in Toronto, Brother T. Edward, to James Glen for a sixteen-acre fruit farm in East Toronto, 1 1/2 miles northeast of York Station. The Brothers have been for the past seven years in search of a suitable location on which to erect a house of studies for the junior members of the order. The mother house in Montreal has furnished the money for the property.

Conciliatory arrangements deserve the approbation of all who desire peace and concord in South America and are desirous of seeing a policy of peace carried out.

A fruit professor says that the pear came into this world before the apple, this is a bit odd, that the professor's theory is, presumably, that the first pair ate the first apple. But going back still further, it is agreed that Eve was a perfect peach, and there was no pair until this peach had come into the world.

The average ewe requires from three to five pounds of salt a year, the variation depending largely upon the amount of natural salts contained in the pastures.

The bees should have plenty of water. They consume a great deal, and will travel a long distance to get it. Should there be no running stream or lake of pure water near, it is well to place a pail of fresh water near the apiary every day. Water is used by the bees to dilute the heavy, thick honey from the winter larvae, and also to make the cell wax pliable.

A cow with her second or third calf is the most desirable of all, and this is undoubtedly the most profitable age to buy them. As milkers and breeders, they have all their best days in front of them and with sufficient time to pay handsomely. Young and old cows are very distinct in appearance. The former have an unmistakable appearance of fullness of flesh and coat is used by the old ones as an indication of age, and the horns are often looked to as a guide, the young having smooth horns while those of the aged are wrinkled. If cross-breeds are bought, get the best breed the cross has been secured from. Cows with a male or bull type of head are rarely good milkers. The head should be refined, neck thin, forequarters wide, square and robust, with deep, broad thighs.

The Cornell Experiment Station found that two tons of horse manure in an exposed place in five months lost five per cent. in gross weight, 60 per cent. of its nitrogen, 47 per cent. of its phosphorus and 76 per cent. of its potash. The total loss of plant food was 61 per cent.

It is reported that no evergreen trees have ever been struck by lightning, and some people are advocating the planting of them for protection.

The Ohio Experiment Station recommends as a treatment for killing peach and soap borers, three pounds of naphthalene emulsified by boiling in three gallons of carbolineum avianum, which can be obtained through dealers in market gardeners' and fruit growers' supplies. This can best be mixed by the use of a carbolineum. When the soap solution and carbolineum are thoroughly mixed add four gallons of water and apply with a spray pump, being careful to protect hands and face when using.
