

An Established Standard

For sixty-five years the Heintzman & Co. piano has been the established standard of high art in piano making. It is not merely for their beautiful and artistic cases that these instruments are renowned, but because of their fine and particularly sympathetic tone. It is because of the wonderful tone of the

Heintzman & Co.

Art Piano Grand or Upright

that Tetrassini and Ruffo chose it to sing to on their Canadian tour; that De Pachmann chose it for his Canadian concerts; that Nordica, Albani, Sembrich, and many other world-famous artists became enthusiastic in its praise.

The Heintzman tone is permanent—it is built right into the instrument—there for a lifetime.

RIGA GULF ISLANDS IS WHERE GERMANS DEFEATED SLAVS
Oesel and Dagö islands are at the entrance to the Gulf of Riga, and provide easy access to the mainland over small intermediate islands. Dagö Island is about 200 miles from Petrograd. Its position derives additional importance from the fact that it is almost at the mouth of the Gulf of Finland, at the head of which is Kronstadt, which defends Petrograd. Oesel Island is nearly 100 miles north of Riga. The landing of German troops in Esthonia would threaten the outflanking of the Russian line and probably compel a retreat on a wide section of the front. It indeed did not open the way to Petrograd itself. A railway line follows the coast all the way from Hapsal, opposite Dagö Island to Petrograd.

HARD TO DIE IN WILDS OF FRANCE

Statement Made to Priest by
Irish Soldier; Great Work
of the Irish Brigade

Dublin, Oct. 19.—A series of vivid pen pictures of the life of Irish soldiers in France, written by the late Major William Redmond, the distinguished Irish leader, shortly before his death at the front, have been collected by Mrs. Redmond, and are to be published shortly in the form of a small memorial volume. Extracts from some of the most striking of these letters have been put at the disposal of the Associated Press.

One of Major Redmond's letters deals with the capture of Ghinchy by the Irish troops. "A notable feature of the charge at Ghinchy," he says, "was that the Irishmen sang Irish patriotic songs, and the effect created was most inspiring." The scene after the battle he described as follows:

"The Germans surrendered very freely, and in very few instances waited for the bayonet. When able, the enemy made good his retreat, but when this was not possible, he surrendered and threw down arms in some cases, however, treachery was attempted.

"I met a Munster Fusilier who in the confusion of the battle had got separated from his battalion. He was resting by the road waiting to find someone who could direct him to his headquarters. He was covered with mud, but full of genuine enthusiasm. 'I asked if his battalion had many prisoners. He replied, 'Yes,' but added that once or twice the Germans had tried treacherous tricks. One party advanced as if to surrender, shouting 'Kamerad! Kamerad!' and when about 20 yards off opened fire. I asked the Munster man what he did. He replied, 'I knocked them over till further orders.'

"One prisoner said, 'We do not want war—it is the war of the rich man, and the poor always suffer.'

"Nearly all the Irish possessed some trophies of the fight, and it was a common sight to see even the wounded on the stretchers clutching in their hands German helmets and bits of enemy equipment.

"Many of our wounded were just boys, and it was extraordinary how they bore pain which must have been intense. Very few murmurings were heard. One young man said to the chaplain, 'Oh, father, it is hard to die so far from home in the wilds of France.' Certainly the fair land of France just here did seem wild—the trees all torn and given wild shot and the earth on every side played with huge shell holes.

"The Irishmen, while clearly immensely pleased with themselves, showed no undue exaltation, and their demeanor towards their captives was good humored and even kind. It was pleasant to see how tenderly they helped the wounded Germans along, and down the road from the dressing station it was a common sight to see our men helping along prisoners just as kindly as if they were their own comrades.

"The losses in the Irish battalions were naturally heavy, but by no means very great in view of the work that had been done.

"It is not too much to say that the whole army has expressed warm admiration for the action of the Irish troops; and the capture of Ghinchy, coming hot foot on the taking of Guillemont, has put it is safe to say, an entirely new complexion on the whole position in this part of the line.

"A captured German officer declared that his people had believed that Ghinchy could not be taken. 'But,' he added, 'you attacked us with devils, not men—no one could withstand them.'

NEW HEALTH FOR WOMEN

The most fateful years in a woman's life are those between 45 and 50. Many of the sex enter this period under depressing conditions through overwork or worry about the home, or through a condition in which the blood is weak or watery and so they suffer heavily. Among the commonest symptoms are headaches, feverish flushes, palpitation of the heart, dizziness, backache, depression and other well-recognized disturbances of the health which signalize that the blood requires attention. Women urgently need rich, red blood all their lives, but never more so than in middle life, when the nerves are also weak and overwrought.

Now every woman can prove the prompt help afforded to her health by renewing and building up the blood. It is a test that any ailing woman can make by taking Dr. Williams' Pink Pills, for these pills make rich, red blood, which in turn stimulates the appetite, strengthens the nerves and restores full robust health. Thousands of women have found in Dr. Williams' Pink Pills the new health and strength and with these a new happiness and interest in life.

So if you suffer, avail yourself at once of the splendid home treatment which Dr. Williams' Pink Pills so easily afford, and you will be among those who rejoice in regained health. These pills are sold by all dealers in medicine, or may be had by mail at 50 cents a box or six boxes for \$2.50 by writing the Dr. Williams' Medicine Co., Brockville, Ont.

ENDORSES UNION POLICY
Saskatoon, Oct. 19.—The Star expresses complete satisfaction with the government's policy as outlined by Premier Borden, but hopes that the matter of complete prohibition of the waste of food-stuffs in manufacturing intoxicating liquors will not be overlooked.

BRITISH FOOD PRICES

Nearly Everything Has Doubled Since War.

London, Oct. 19.—(Via Reuters' Ottawa Agency.)—An interesting report on food prices is published in the government labor gazette, which says: "Beef and mutton now exceed their pre-war prices by 18 pence a pound. Butter and bacon are now double their pre-war level. Milk is 75 per cent. higher than in July, 1914.

The following are the increases per cent. as compared with before the war: Beef, nearly 100; mutton, 97; imported beef, 132; imported mutton, 163; bacon, 110; fish, 158; sugar, 190; butter, 99; cheese, 91; eggs, 160.

In the cost of all items ordinarily entering into the working class family, including food, rent, clothing, fuel and light the increase has been nearly 80 per cent. allowing 5 per cent. for advances due to the increased taxation. Thirty principal towns in Australia show an increase in food prices 26 per cent. higher than in July, 1914.

GERMAN AIR TANKS
London, Oct. 19.—The Daily Express referring to a clause in a Reuters dispatch on the new German airplane program, which tells of rapid success in the purpose of co-operating with infantry, prints a line across the front page: "Thanks in the Air, Latest Hun Device."

CONDEMNS BRITISH FLEET

London Newspaper Complains of German Success in Baltic.

London, Oct. 19.—The Daily Mail condemns what it terms the failure of the British fleet from preventing the German fleet from becoming master of the Gulf of Riga and demands "that the admiralty make an explanation of this humiliating display in the Baltic."

After recalling the successes of the British submarines against the Germans in the Baltic in the summer and autumn of 1915, the newspaper says: "The Germans have accomplished all they were prevented from achieving in 1915, and they have done so without a single blow being struck at them by any arm of the British navy—a navy far stronger than it was two years ago and recently reinforced by the addition of the American fleet."

THE LIBERTY LOAN

Washington, Oct. 19.—The Liberty loan campaign continued its gains today and treasury officials announced that many estimates placed the total so far subscribed at above \$1,700,000,000 and "within striking distance" of the \$2,000,000,000 hoped for by Saturday night. Officials were optimistic that the \$2,000,000,000 minimum mark would be greatly oversubscribed by the close of the campaign, October 27.

CALGARY MUNICIPAL RAILWAY

Proposed Schedule Ogden Line

Operating In and Out Via Ninth Avenue, to Take Effect Monday, October 22
CARS WILL LEAVE:
Twelfth Avenue and Second Street East—6.00 a.m. via Twelfth Avenue; 6.20 a.m. via Ninth Avenue.

MUCH DUPLICATION OF MILK ROUTES

Food Controller Is Giving
Thought to Milk
Problem

Ottawa, Oct. 19.—The problem before the milk committee is to ascertain the cost of producing and the cost of distribution of milk to see if means cannot be suggested of reducing these costs, or at any rate of preventing them from going higher. Such is the view of P. B. Tustin, chief of the food and dairy division of Winnipeg and chairman of the milk committee adopted by the food controller.

As explaining some of the difficulties which lie in reducing the price to the consumer, Mr. Tustin said that the high price offered by the milk condensing plants in Canada and those just south of the international boundary, gave the farmer an alternative market. The price offered for milk for condensing practically determined the price which must be paid by the city consumer.

"I have been amazed," Mr. Tustin continued, "at the extent of duplication of milk delivery routes in some of our cities. The largest number of distributors, each of whom must receive from his business at the expense of the public, at least enough to support himself and family, seems to be a very considerable factor in the high cost of milk in some places. It is one of the factors in the situation which we must consider."

STRONG FOR THE UNION

Halifax, Oct. 19.—The Chronicle (Liberal) in a leading article today comes out in support of the union government. In the course of the article it says: "Co-operation with a union government does not require a Liberal to leave his party or a Conservative to leave his. In these circumstances and for these purposes this paper believes that the Liberal party of Nova Scotia should give its co-operation to the new government."

Should You Be Exempt?

Every facility is afforded those who have reasonable ground for applying for exemption under the Military Service Act. Each man's case will be considered by a local, civil board, sitting in the locality where he lives, and will be decided as is desirable in the national interest. The idea behind the Military Service Act is to call up first only those whose absence from civilian occupations will cause least disturbance to the country's economic and social life. One hundred thousand reinforcements—no more—are to be raised under the Act.

Cases of Exemption

Over 1,250 civic tribunals have been organized throughout Canada, known as Exemption Tribunals. These boards are comprised of 2 members, one appointed by the county judge and one by a joint committee of Parliament. It will be seen that these tribunals are non-military and independent. The members are men closely acquainted with conditions in the places where they sit and will be able to give each case sympathetic attention.

National Interest Will Govern Exemptions

Consideration will be given to applications for exemption received from men engaged in the production or manufacture of commodities necessary to the conduct of the war and the support of those at home and cases in which real hardship would be caused by the withdrawal. Not all men who register these claims will be exempted, but such claims will receive careful consideration. National interest must govern.

Promptness Is Essential

Prompt application for exemption is strongly urged upon all who, being included in the first class, believe they deserve exemption. But first visit a Medical Board and find out if any further action is required. Unless the Medical examination places you in Category A, you will have no immediate obligation for service.

Issued by
The Military Service Council.
