And well do I remember you, "It is true I live again, princess, though not in the flash and bo-os that died with you in the past. But in the old days I was acquainted with mysteries, and learned the secrets of the world of spirits; and this science still remained with me after the change, so that I was able to know that I was I, and that you could be recalled to speak with me through the tongue of Miriam. But there are some things that I do not know; and it is for that I have been bold to summ ny you.

"What can I tell you that can be of use to you in this present life, Kamaiakan, when all whom we knew and loved are gone?"

"To you only, Semizin, is known the place of concealment of the treasure which, in the old times, you and I hid in the desert. I indeed remember the event, and somewnat of the region of the hiding; but I cannot put my hand upon the very spot. I have tried to discover it; but when I approach it my mind becomes confused between the present and the past, and I am lost."

"I remember it well," said Semizin. We rode across the desert, carrying the treasure on mules. The air was still, and the heat very heavy. The desert decended in a great hollow; you told me it was where, in former days, the ocean had been. At last there were rocky hills before us; we rode towards a great rock shaped like the pyramid on which the sacrifices were held in Tenochtitlan. We passed round its base, and entered a deep and narrow valley, that seemed to have been plowed out of the heart of the erith and to descend into it. Then—But what is it you wish to do with this treasure, Kamaiakan?"

"It belongs to your race, princess, and was hidden that the murderers of Montezuma might not seize it. I was bount by an oath, after the peril was past, to restore it to the rightful owners. But our country remained under

"The time is near, indeed!" muttered the Indian. "The shock may cause the waters from which this spring came to rise as no living man has seen them rise, and make the sea return, and the treesure be low. In a few days all may be over. But you, princess must vanish: though the shock was but slight, some one might be awkeened; and were you to be discovered; our plans might go wrong."

Punch and Judy shows still continue to draw crowds in London, and seem to be regarded by the populace as the acme of uproarious humor.

A man's wife should always be the same, especially to her husband; but if she is weak and nervous, and uses Carter's Iron Fills, she cannot be, for they will make her "fieel like a different person," at less to they all say, and their husbands say so, too.

Even if your French is not up to the Parisian standard they don't laugh at you in Paris. All hands seem to understand that necessity knows no law of syntax.

Nothing impure or injurious contaminates the popular antidote to pain, throat and lung remedy and general corrective, Dr. Thomas' Eelectrio Oli. It may be used without the slightest apprehension of and other than salutary consequences. Coughs, rheumatism, earache, bruises, cuts and sores succeumb to its action.
