Safe Electric Light. Insurance companies have made up their minds that Electric Lighting, when the wiring is well done (and they have formulated special rules on the subject), is the safest of all illuminants. Statistics show the following comparative risks: Fires in one year: From paraffine oil, 259; from gas, 110; matches used for gas, 36; candles, 88; arc electric lights, 7, and incandescent electric light, only 1.—Toronto Evening Telegram, July 19, 1904.
