FARMERS TOO BUSY TO BRING IN PRODUCE

Offerings On Local Market Were Light This Morning.

The farmers are harvesting their oats now and very little produce is being brought in to the local market. The price of hay as a result is very high at present, \$12.50 being paid this morning. Only one load was in Monday, a couple yesterday and about ten today. This is not nearly enough to meet the demand, and unless the supply in-

creases there will be a still further Fruit prices were practically unchanged this morning. The dealers are offering watermelons at 50c now. These melons come from Alabama, but it is expected that in about a week the Missouri product will be here and the difference in the freight will result in a

material reduction.

One load of new wheat brought in this morning sold at \$1 a bushel. Oats are still worth \$1.25 to \$1.32 a hundred.

they climed to the roof of a lavatory wall, where they jumped over into garden and opening a gate hurried out across the front of the jail grounds and down Ridout street. It is believed they were assisted in their climb by some f the other prisoners.

Order Was Forgotten. There is an order forbidding turnkeys to allow prisoners to go unattended into the corner where the lavatory joins he well as it is a somewhat secluded place. Roberts and Steadman, however, seem to have had their plans well while Turnkey Sadler was at the doorway.

Sheriff Cameron stated to The Advertiser today that in his opinion the whole blame for the escape lay with Turnkey Sadler, and that he had suspended him.

The Discovery.

The escape was not discovered for some minutes, and it was not until the men were filing into the jail again that Turnkey McLeod noticed that Roberts and Steadman were absent, and at once reported to Governor Carter. He promptly notified the

police station. No action was taken further than immediately telephoning and telegraphing all points in the vicinity and police were given a description of the men and told to keep a close watch for them. All border points have been given descriptions.

The Descriptions. Roberts is a youth of medium height, fairly well built, dark complexion, clean shaven, and when he escaped was wearing a black felt hat,

Steadman is a rather shifty-looking young fellow, 19 years old, thin faced, sallow complexion, clean shaven and of medium height. He wore a small. gray peaked cap, brown clothes and

SAYS MR. BROWNLEE

[Special to The Advertiser.]
Toronto, Aug. 3.—W. G. Brownlee, superintendent of the G. T. R., intimated his morning that the strikers had lost all chance of pensions. "Men," he said, "who behaved themselves during the strike, will be taken back in the order of their application as new men."

Now he concedes the provisions adopted by the Canadian Pacific in regard to these the provisions adopted by the Canadian Pacific in regard to the settlement is practically that the Canadian Pacific and Grand Trunk will be running on parallel lines after December 31, 1911. Until then the old code of rules will be in force on of pay provided for by the finding of the board of conciliation. Therefore everything that the men asked for is embodied in the settlement, which will finally go into effect on the last day of 1911.

Toronto, Aug. 3.—"I expect all the men will be taken back to their former positions inside of three months," said Vice-President Berry this morning. "The company will probably get rid of the strikebreakers as fast as they can now." This, however, is not the feeling amongst the men, who assume that they will be reinstated in a few days. "What about the pensions of the men?" Mr. Berry was asked. "There was nothing mentioned about them in the negotiations, but I take it

This statement was cordially agreed to That they have gone to very great trouble in aiding to bring these negotiations to a satisfactory settlement. They have listened carefully to all the discussions with ened carefully to all the discussions with us and with President Hays. Upon these they formed their own opinions as to what should be done, and their views as to what the settlement should be were acceptable to us, and we are willing to abide absolutely by the views of the representatives of the Dominion Government. Whatever they said was right, and we agreed to it, and the settlement was along these lines.

There were 72 permits issued for a total of \$37,750. Compared with 60 permits, for a total of \$73,808 in July, 1909, this does not make a very favorable showing.

The number of permits issued this year so far number 529 for a total of \$490,216.50. For the same period of 1909 there were 600 permits taken out, for a total of \$630,397. The shrinkage has been approximately a quarter of a million.

and reported for duty, but no official in-timation has been received by the com-pany that the strike is over, and none of the men were taken on. Instructions to this effect were sent out all over the line from Portland to Toronto. It is cer-tain that a number will be taken on later, but present instructions are that none shall be reinstated until official notice is

received.

As to the pension fund, it is stated that this was not discussed during the negotiations because the Grand Trunk refused to take the matter into consideration at all. It is stated that all those who went out on strike will forfeit their pension rights, and will go back as new men so far as this is concerned. This was expressly provided in the pension rules when the scheme was started by the Grand Trunk, and officials state that WE OWN AND OFFER AT PAR AND INTEREST
