

TWELVE

TWO CASES FOR
COUNTY COURT

Watson McCluskey has entered action in the county court, which opens at the courthouse next Tuesday, against the Vulcan Company, Limited, for \$750, the amount of commission he alleges he earned in selling its stock, and which, he says, it has not paid him. His claim is that he sold 50 shares at \$100 a share to Bogue and Anderson, and was promised 15 per cent commission.

The company's defence is that only 10 per cent commission was promised McCluskey, and that he has not turned in the \$5,000 secured from the sale of stock. W. C. Fitzgerald is acting for the plaintiff, and Meredith & Fisher for the company.

Suits Over Repairs.
William Scott & Son are suing J. C. Fletcher for \$668.30, which they claim is the balance owed by him for their services and for materials used by them in repairing several houses. His defence is that he found the work unsatisfactory, and was put to extra expense by the default of the defendants. He declares that he would not have paid them anything had he known sooner the class of work done. W. C. Fitzgerald is counsel for the plaintiff, and Murphy, Gunn & Murphy for the defendants.

City Engineer's Department
Has Work To Last Out Winter

The usual last-minute rush to secure improvements before the snow flies is on at the city hall. Engineer Brazier and his staff already have more work to do than can be got over with this fall, and still they come. Last night the board of works, commonly known as No. 2 committee, faced a batch of work that will necessitate Jack Frost taking a winter off. If it is to be carried out. There were requests for sewers, walks, curbs and gutters.

The engineer will do his best. J. M. McEvoy, K.C., representing Thomas Blanchard, told the committee quite plainly that he and his client had tired of waiting for work to be done. He said that he had been waiting for the storm sewer in South London being dumped on the Blenheim property at the corner of Elmwood avenue and Wharmcliffe road. He said that it was not in their interest that the matter lag. He understood that the matter was to be taken up with the city solicitor. The had been waiting for the matter to be done. He wanted to know what the committee was going to do about it. If it were felt that the city had no duty in the matter, it was desirable that he know it, and he said they would take steps to find out what rights his client had. Looking Into Problem.

Chairman Wilson said he did not know that he was to be taken the matter up with the solicitor. Mr. McEvoy said that he understood that Mr. Brazier had taken the matter up, and the engineer said that he had and that it would take two weeks longer before he would have the information he desired to lay before the solicitor. Mr. McEvoy was willing that the engineer have this time. He only asked that the matter be expedited so that something could be done to remedy the situation this fall.

Secretary W. A. Tanner, board of education, wrote to a sewer for Eding school. He said that the inspector had urged that this school be connected with the sewer before the winter set in. Mr. Brazier said that they were getting out the plans, and as soon as possible would call for tenders to have this sewer laid.

Ald. Drake said that it would be excellent work to do in the winter, as the land out there was sand. He expressed the opinion that there should be some such work to do during the coming winter.

Got Bad Reception.
Dr. H. A. Stevenson sent on a suggestion that the city should acquire the Burwell street before a gasoline station is erected there. He thought that it was desirable that the city should have this land to widen Dundas street. Several of the members of the committee immediately sat on the idea and it went down with a bang.

The Progress Laundry wants to start business at 679 Dundas street. "It's a white man, grant the permit," said Ald. Drake. It goes through.

A year or so ago the Hounds tried to give the city four lots in a subdivision below Carling Heights, running in the vicinity of Reburn street. It was suggested that the lots, 66 feet wide, would make an excellent street. Some of the fathers at that time were a little scared to accept. Evidently they believed in the old adage "Beware of the Greeks when they come bearing gifts in their right hand." The city solicitor wrote City Clerk Baker and asked what had been done with the matter. Mr. Baker could find nothing on the minutes. The present committee did not hesitate a second. "Let's grab it," said all.

Threatens Suit.
The Knollwood Park sewer matter is to the fore again after some of the aldermen thought that it had been settled. J. M. Donahue is now talking of suit. City Clerk Baker said that in this talk was in the air it had nevertheless been intimated to him that an agreement was possible. The rock in the way of successful negotiations is interest on the cost of the sewer, which it is suggested might be spread over a period of 30 years. The matter goes to the city solicitor.

There was a host of petitions. Woodward avenue residents want a sewer and Mount Pleasant avenue folks want an extension of the proposed Woodward avenue sewer. Most of Woodward avenue is in the county and one side of Mount Pleasant is the same. The county has not made an offer to pay so this sewer won't trouble the engineer this year.

Victoria street residents, Richmond street to St. George street want a pavement, granted.

Alfred street residents want a sewer, granted.

Kicks Both Ways.
McDonald avenue residents want garbage collection. Engineer Brazier wasn't stuck on the idea of extending the system. "Persons who have the service are kicking and don't want it and those who haven't it want it," he said.

On being informed that the collectors go near this street, Ald. Drake expressed the opinion that this street, being in the city, should enjoy the service. The committee agreed.

Wyatt street residents want the sidewalk on that street extended. Ald. Wilson asked where the street was and this nettled the chairman some chiding about his boasted knowledge of West London.

North Terrace street will also get a walk. If possible, and A. Coleridge was promised the same thing as to Berbrook street and Col. Garshore the same thing to High street near Windsor Crescent.

Tenders Awarded.
Coal tenders for the city hall, corner station and Market were received. There were six tenders and Buchanan received the tender for the city hall and Hockin and Chantler the tenders for the other.

Three siphon lines are to be laid, and the engineer received five tenders for this work. The Webster Construction Company was awarded the tender for the Ann street line to Patrick street to cost \$2,000, and Peter Mohan was awarded the Stanley and York job at \$1,748, and the Thames and Dundas line at \$3,365. For the latter job W. B. Worthington & Company, Toronto, tendered \$15,000.

Mrs. Robinson, nee Miss White, of the engineer's office staff has resigned, and the committee recommended that the city's farewell gift be a month's pay.

Some time ago a sidewalk on Roberts CANADIAN PACIFIC "VANCOUVER EXPRESS"—WINNIPEG—CAL. GARY—VANCOUVER.

Passengers for Western Canada will and the "Vancouver Express" leaving Toronto 10:00 p.m. daily, a most convenient train, stopping at and connecting for all principal points.

Equipment consists of first-class coaches, up-to-date standard and tourist sleepers, compartment observation, dining and colonist cars. The most beautiful in Canada is along the line of the Canadian Pacific. For tickets, reservations and full information apply to any Canadian Pacific ticket agent, or H. J. McCall, city passenger agent, corner Dundas and Richmond streets. zxxv

Postage From Canada,
But Within Empire, Is
Four Cents.

POSTMASTERS have been notified from Ottawa that from October 1, 1921, the rate of postage on letters from Canada to other places in the empire has been fixed at 3 cents an ounce or fraction thereof.

As an example of the above, it is pointed out that as the prepayment required on letters posted for delivery within the empire now includes the war tax of 1 cent each, letters weighing one ounce or less to places outside Canada, but within the empire, should be prepaid 4 cents. Letters weighing more than one ounce should be prepaid 4 cents for the first ounce, and 3 cents for each subsequent ounce or fraction of an ounce.

Chairman Wilson said that Loveless and others on the street got after him, and he told them to get after the rest of the committee.

There were three applications to install service stations. The engineer said that permits were not granted. These were installed at the owner's risk.

W. H. Shoebottom wrote that he had asked permission of the building inspector to put up a metal building at the rear of 260 Talbot street to stable farmers' horses. He had been refused, and so wrote the committee. The aldermen decided not to go over Mr. Piper's head and get into more hot water.

Mr. Plasted and the city have agreed on a price for his property on Carrae street. He wanted \$600. The engineer offered \$500, and so they split the difference.

Mr. McCarthy has now obtained complete matriculation for entry to the Western University, and commences his college career this fall as a medical student.

MUST PAY DAUGHTER
FIVE YEARS' WAGES

Father Assigns Paid-Up Life Insurance Policy.

When his daughter, Frances, succeeded in a suit against him for wages for keeping his house five years, Louis Wort assigned his paid-up life insurance policy to cover the amount of the judgment handed down at the supreme court on Tuesday. He also must make a payment of \$100 in ten days, and three annual payments of \$50 each, the court ordered. The plaintiff claimed pay at the rate of \$5 a week for her past services. The father contended that she was in his house only as one of his children, who had promised to manage household affairs following the death of the mother.

Minnie Sperian, who has commenced action for alimony, claiming that her husband, Hartwell Sperian, had refused to support her and their child, was awarded \$700 annually by Judge Logie. She was represented by her counsel, W. R. Meredith, but neither the defendant nor his lawyer was present to contest the suit.

The case of William Cushman against Leonard Hardy, a claim for damages by the plaintiff for an alleged attack on his daughter, was settled out of court. The defendant, Samuel Mendelsohn and his father, Louis Mendelsohn, lost their suit for \$2,000 damages for injuries the boy received in an accident, which, they claimed, was caused by the negligence of W. J. Allen and his sons, the Columbia Handle and Lumber Company, when the jury found that the lad had contributed to the negligence. Allen was driving the company's motor truck which passed over young Mendelsohn's foot when he attempted to board it while it was in motion.

PRESENTATIONS MADE TO DEPARTING PASTOR

Seated around tables beautifully decorated and laden with good things, a large representative gathering of members and adherents of the Green Presbyterian Church, bade farewell to W. M. Mustard, who has occupied the pulpit during the summer months, and also tendered a hearty welcome to Rev. P. Nicol, a former pastor.

After the repast the chairman, J. L. Lindsay, spoke touchingly on the splendid work Mr. Mustard had accomplished during his ministry. He hoped that in Knox College, Toronto, Mr. Mustard's studies would be crowned with success. Brief addresses were made by Rev. J. W. M. Crawford of Wilton Grove; P. S. Aldrich, S. W. Haynes and T. Batty, eulogizing Mr. Mustard's ministry and welcoming Mr. Nicol.

Three presentations were made to Mr. Mustard on behalf of the young people, the choir and congregation.

TRY GUNMEN AT
ONCE, SAYS JURY

Prisoners charged with murder, such as the Murrell brothers, should either be confined in safer institutions than county jails or should be tried shortly after their arrest, the grand jury at the supreme court recommended in its presentation late yesterday afternoon.

The document submitted to Judge Logie by L. L. McTaggart, foreman of the jury, was brief, as were the comments of the court following its presentation. The recommendation was the direct result of the escape of Sidney and Wm. Murrell, alleged murderers, from the local jail on Friday, September 2.

Judge Logie pointed out that the London jail was not the only one from which prisoners had escaped. Whether it was the fault of the system or not, he continued, it was a matter for the order and cleanliness at the jail impressed the jurors, they reported. They also inspected the Ontario Hospital and found conditions there praiseworthy.

HANGING DOG COST
SANDWICH MAN \$18

WINDSOR, Sept. 27.—Found guilty of cruelty to a dog, which he hanged to a tree, Joseph Kenney, California avenue, Sandwich, was fined \$18 and costs by Magistrate Gundy. A charge of assault, preferred by Kenney against Claude Randle, Sandwich resident, who attempted to prevent the hanging, was dismissed by the court.

APPEAL WAS EXPECTED.

LONDON, Sept. 27.—(By Canadian Press).—The Grand Trunk shareholders' decision to appeal to the privy council against the award of the board of arbitration regarding the value of the Grand Trunk stock was generally expected here. The application for leave to appeal cannot be heard before the middle of October so the actual appeal is unlikely before the new year unless special facilities are granted.

OFF THE RAILS

HUGE GRAIN SHIPMENTS.
During the past ten days nearly 2,000 carloads of grain have been shipped via the C. P. R. from Goderich to points east, breaking all records for September shipments in the local division. The sudden and unexpected increase in business was due to actions of the American grain dealers, who, in order to take advantage of cheaper rates prevailing on the Canadian roads, have been sending all the grain from the head of the Great Lakes by boats to Goderich and Port McNichol, where it is transhipped to the railroads.

As far as it is known, the American shippers have never before made use of the Canadian railroads to any great extent for moving grain, and so it is expected a high-water mark in this class of business will be established by the local railroads this year. Up to the present time practically no Canadian grain has been moved.

MR. EVANS RETIRES.
After 34 years of continuous service, Thomas Evans, freight agent for the M. C. R. in London, will retire from the services of that company. Mr. Evans has been put on the retired list, and his superannuation will go into effect on September 30. It is understood that Mr. Evans will be succeeded by Leonard M. Abbs, who at present is employed as chief clerk in the local M. C. R. freight office.

NEW RAILS.
If the plans of the G. T. R. are carried out seven miles of new rails will be laid today on the westbound track between Princeton and Eastwood.

GATES IN USE.
The electric gates which have been installed by the G. T. R. at the crossing on Waterloo street are proving very efficient.

ENOUGH CARS.
Owing to the fact that coal shipments on both the G. T. R. and the C. P. R. are comparatively light, no trouble will be experienced this year in moving the sugar beet crop. Last year there was a pronounced shortage of cars and so for many weeks at

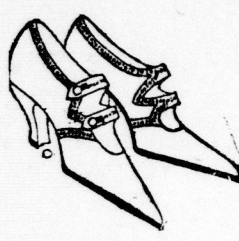

efficient. With their success established, it is quite certain that others of the kind will be erected in this city. Considerable trouble from fuses, which persisted in blowing, was experienced during the first few days of operation.

LOSES FOUR BARNS
AND SEASON'S CROPS

Fire which may have been started by a tramp completely destroyed four barns on the farm of Stephen Donaldson, containing ten of London Township yesterday. The fire was discovered about 8 o'clock in the morning and had made
