BELGIUM SEEKS TO REVEAL PARLEY OF REPARATIONS

Will Approach Great Britain and France in the Near Future.

CHANCELLOR FIRM

Associated Press Despatch.
Paris, Aug. 9.—The Belgian government has decided to take the initiative and directly approach Great Britain and France if the reparations negotiations among the allies show no signs of being resumed at an early date, says a Brussels despatch to Excelsior.

Premier Theunis and Foreign Minister Jaspar will come to Paris, the correspondent asserts, to propose that the reparations claims from Germany so far as France and Belgium are concerned be considered on the material damage suffered by those countries.

CUNO REMAINS FIRM

By CARL D. GROOT.
Special Cable to The Advertiser.
Berlin, Aug. 9.—Chancellor Cuno has placed his political fate in the hands of the Reichstag and announces he will administer the affairs of state only as long as he possesses the backing of parliament.

Many elements of the "Left" are organizing to see that he does not get the vote of confidence he has requested. Cuno's stand before the opening session Wednesday was a fighting one—he accused France of disorganizing Germany politically and economically, seeking simultaneously to enforce payment and to break up the country.

France seeks to impose new penalties and exact promises which cannot be fulfilled for decades, so that France may be at once the ruler and the destroyer of Europe," the chancellor charged.

Cuno sternly pledged that passive resistance will go on until it is known exactly what France demands. At the opening of the session, the house stood in commemoration of President Harding.

HAILED AS TRAITOR

Associated Press Despatch.
Berlin, Aug. 9.—Chancellor Cuno's address to the Reichstag, in which he declared that passive resistance—the sole weapon of the Ruhr and Rhineland—would continue to be supported by the nation, has been received as the most depressing statement yet made to the national legislature by the present government. The coalition parties view it as a superficial view of the present situation, and also regard it as a disappointing utterance.

The chancellor was visibly disconcerted by the boisterous heckling of the communist members, who, when he arose to speak, hailed him as "Traitor," "Scoundrel" and "President of the Stinnes Company."

He was continually interrupted as the address progressed, but when it was finished there was prolonged applause.

Asserting that the British draft reply to the last German reparations note contained much that was impossible of fulfillment, Herr Cuno said it appeared Great Britain had gone extraordinarily far in her concessions to the French viewpoint.

Gets Life Term For Killing Policeman In Cleveland

Associated Press Despatch.
Cleveland, Aug. 8.—A sentence of life imprisonment was imposed upon John L. Whitfield here today, after a jury which heard evidence in his trial on a charge of killing Patrolman Dennis Griffin, May 11, had returned a verdict of first degree murder with premeditation and malice.

The crime for which Whitfield was tried was one of the most unusual in local police annals.

Whitfield had been placed under arrest by Griffin early on the morning of May 11 on the charge of stealing spark plugs. The two men started

for a branch police station in Whitfield's automobile. Griffin was not seen again. Three days later his body, stripped of clothing, was found buried in shallow grave near a farm 20 miles southeast of this city. A bullet wound was in his neck. Whitfield testified that Griffin accidentally shot him while trying to escape with him. A nation-wide search for Whitfield followed his departure from here after the crime. He was apprehended in a Madison, Wis., restaurant on May 22, but slipped away from wide policemen. He was not located until June 24, when he was arrested in a Detroit lumber yard following information that the suspect was working there.

TOO MUCH DETAIL PROVES HANICAP TO DEPARTMENT

Survey in Engineering Department Shows Need For New Methods.

WORK IS PRAISED

There is far too much detail office work in connection with the operation of the city engineering department.

Members of Dr. Brittain's staff, now surveying that department again this week, are inclined to believe that such is the case, according to information given The Advertiser this afternoon from a thoroughly reliable source.

After a lapse of several days, Dr. Brittain's experts have renewed their activities at the city hall, and were busy again today in the city engineer's department.

There are those, however, who, while acknowledging the necessity of the department's call for considerable detail work, reason that it is unfair to class that branch of civic endeavor with the maintenance of a private corporation.

In a private corporation much of the so-called detail is left to those in charge of certain branches of the work—known in city work as sub-departments—and when figures are submitted in the total they are generally accepted by the management as being correct. In short, the detail is generally left to the under-officials.

The reverse is true when city work is undertaken, it is explained. More detail must be always available, it is explained. No person knows, but what minute a member of the council may rise up and demand to know just how much has been expended for certain purposes for a given period and in a specific section of the city.

It is imperative, for obvious reason, that all possible queries from the city council or from citizens at large, or private individuals, be answered as speedily as possible. Any taxpayer has a right to know at any reasonable period, and may in fact demand such information, without notice, and this information must be at hand. It is entirely different with private corporations, others point out.

From present indications the British report will speak well of city work, and the department, although recommendations for certain improvements will, no doubt, be submitted according to reports today.

Special to The Advertiser.
Montreal, Aug. 9.—Indications are that there will be a strike of some 800 fur workers in Montreal soon, as the board of conciliation proceedings to effect settlement of the fur workers' dispute have failed, following refusal of the manufacturers to consider any increase whatever to the workers.

The original demand of the workers was for 25 per cent increase.

This was later modified in the hope of effecting a peaceful settlement, the board of conciliation proceedings to effect settlement of the fur workers' dispute have failed, following refusal of the manufacturers to consider any increase whatever to the workers.
