**THINK THIS OVER**

This Offer Should Gain the Confidence of the Most Skeptical

We pay for all the medicine used during the trial, if our remedy fails to completely relieve you of constipation. We take all the risk, on are not obligated to us in any way whatever, if you accept our offer. That's a mighty, broad statement, but we mean every word of it. Could anything be more fair for you?

A most scientific, common-sense treatment is **REXALL** Orderlies, which are eaten like candy. Their active principle is a recent scientific discovery that is odorless, colorless and tasteless; very pronounced, gentle and pleasant in action, and particularly agreeable in every way. This ingredient does not cause diarrhoea, nausea, flatulence, griping or any inconvenience whatever. **REXALL** Orderlies are particularly good for children, aged and delicate persons.

If you suffer from chronic or habitual constipation, or the associate or dependent chronic ailments, we urge you to try **REXALL** Orderlies at our risk. Remember you can get them in Campbellton only at our store, 12 tablets 10 cents; 36 tablets 25 cents.—The Rexall Store, T. Wain.

**CAMPBELL-FAWCETT**

At the home of Mrs. W. H. Miller on Tuesday evening a very pretty wedding was solemnized by the Rev. T. P. Drumm of St. Andrews church, when Miss Sadie Priscilla Fawcett was united in marriage to Mr. F. W. Campbell. Mrs. Miller's parlours were nicely decorated with carnations and ferns. The bride unattended, who was given away by her father, wore a white satin princess robe, and her mother was gowned in wisteria neolian. Mrs. W. H. Miller who received the guests was dressed in green silk.

The young couple who were the recipients of many beautiful gifts left on the marriage express on Wednesday morning for the honeymoon.

The bride's going away dress was a reseda green suit with black beaver hat.

**COUNCIL ECHOES**

Our sederunt was a protracted one and perhaps it was no "unmixed blessing," that owing to the absence of the Chairman of Public Property and Streets Committee, we were unable to tackle their report.

The report of the bye laws and Legislation Committee was well handled by His Worship. For a concise statement he showed the injustice of having to pay all our own taxes for small-pox patients and pauper inmates, and then also pay the county proportion, amounting as it did last year to 41 per cent. A change is needed here most certainly.

The exemption of improvements from taxation is a step in the right direction. This means as applied to property, a man would be taxed for his land, and not on the building, if any there on. All land would be assessed at a certain figure and if one man had a \$5000 house on his lot, and the man next door had not built both would have the same assessment.

There is a general feeling in the Council that in the matter of granting licenses for business premises, a more definite application should be insisted on. Any one might apply for a small grocery store license and after paying their \$10 would at the expiry of the license blossom out in a T. Eaton & Co., whereas had it been known at first the ultimate idea, we would have been charging a tax of \$1000.

We hope soon to have something going with regard to our Fire Protection. The "Graphic" has spoken on this before and we hope to make some real progress in this direction.

We said "How do you do" to our old friend Sugarloaf street, but as we felt at present we had done all we could, we drew a relieved breath when we said "Good bye." Sugarloaf Street is, like the poor, always with us.

**BLACK CAPE**

Our community was grief-stricken on Friday the 27th ult., when the sad news was known of the sudden death of Miss Jefferson D. Morrison, one of our highly-respected and much esteemed citizens. Miss Morrison was only 25 years of age, and was a model wife and mother. She leaves a little daughter three years old, and much sympathy is shown the husband and father in his sudden bereavement, who with her own father and mother and four sisters mourn the loss of one who was so dear to them. The funeral was held on Monday last and was largely attended notwithstanding the inclemency of the weather. The service which was most impressive was conducted by Rev. Mr. McCulloch the favorite hymns being sung, *When a Friend we have in Jesus*, *Asleep in Jesus*, *We'll meet you at the River*. The interment took place at the Presbyterian Cemetery, New Richmond.

Mr. John Fairservice is suffering from a severe attack of pneumonia. We regret to learn that Mrs. Andrew Powell is confined to her room with the same complaint, and Mr. J. D. Morrison is also down with sickness.

The past weather has been particularly hard on the older residents and we are sorry to hear that Mr. Wm. Cyr has a bad attack of heart trouble. Mr. Hugh Johnson returned from New Carlisle where he has been for some time.

Mr. John Steele took a hurried run to New Carlisle on business last week.

The annual business meeting of the Presbyterian congregation announced to be held on the 31st Jan., has been postponed till Feb. 14th.

The many friends of Mr. Jas. Campbell of New Richmond will be glad to hear that he is recovering from an attack of pneumonia.

Mrs. Austin Kear returned to her home in Bonaventure on Friday last. Mr. E. Campbell of Caplin River who was suffering from blood poisoning is now improving.

We are sorry to hear of the illness of Mr. Felix Caray. Miss Lilian, daughter of Mr. and Mrs. Wallace McRae is reported ill with Typhoid. We trust the little one will soon recover.

**Thinking of Building a Silo ?**  
**Better Build it**  
**of Concrete**

**THE** construction of a Silo affords an excellent example of what the farmer can do with Concrete—and of the superiority of Concrete over all other material for various structural work about the farm.

The usual wooden silo, besides being expensive, is far from satisfactory. In the first place, it does not endure; and, more important still—being far from weather-proof—its contents become water-logged—producing an unsanitary condition.

A Silo built of Concrete, on the other hand, is practically everlasting—it is proof against heat, cold and moisture—and it has the merit of comparative economy.

This economy feature is further explained in our free book—"What the Farmer Can Do With Concrete"—which tells how to mix and use Concrete for the making of silos and other buildings on the farm.

Fill out the coupon and send for the book to-day.

**"What the Farmer Can Do With Concrete."**  
Tells you how to use Concrete in constructing:
