W. Bro. H. Dorenwend, D. D. G. M., Toronto district. On Jan. 15 a banquet was held on temperance principles at the Man-sion hotel, Stratford, at which several ladies and brethren of the order of the Eastern Star partook with the brethren of the grand lodge.

A Pleasant Sleighing Party. One of the most enjoyable sleighing par-

ties of the season took place to Eglington on Thursday evening. The gentlemen who own the yacht Condor never do things by halves. Without ostentation, everything they undertake is well and hospitably done. During the season their Saturday atternoon the contributors to it being Miss A. Scott, During the season their Saturday atternoon sails and midsummer cruises are the finest and pleasantest on water, and in the winter their stag sleighing parties cannot be excelled. Starting from the American hotel, the sleighs bowled merrily along to the tooting of the horn straight up Yonge street to Oulcott's charming hostelrie at Eglington. It was a bitter cold night, but fur coats, mits and

caps were plentiful, and these, accompa-nied by high good feeling, sufficed to make the keenest blasts pass the jolly Condors by without nipping an ear or even whiten-ing a moustache. The crew of the yacht

Arrived at Oulcotts, the dining room
tables were found laid out in a manner that could not fail to tempt
the bluntest appetite to gorge and be full.
Mr. John Cosgrave was nominated to take
the chair. On his right was Mr. E.

his left Mr. David Roberts. Among the other guests were Messrs. C. B. Doherty,
S. McMaster, Fred Worts, and Priestman.
When the cloth had been removed the evening was spent with toast, song, and S. McMaster, Fred Worts, and Priestman. When the cloth had been removed the evening was spent with toast, song, and music. Shortly after midnight a start for home was made, and the Condor sleighing party of 1884 was a thing of the past.

The mouse of Industry.

The weekly committees of the house of industry in view of the unusual severity of the weather have relaxed the rule as to the giving out of fuel only after stated intervals. It was heretofore found necessary to limit the distribution of wood and coal to intervals of about six weeks both to discourage waste and to keep within the means at their disposal, but the ex-traordinary severity of this winter ren-dered many exceptions peremptorily neces-sary. As an example of the work done by the house and the present wants of the house and the present wants of poor in the city, it may be stated that the semi-weekly committee sat yesterday from 9 o'clock till 4 and distributed about fif-troduced from France into the colony, but teen tons of coal besides great quantities of bread and other provisions. The man-agers just now experience a difficulty in delivering wood and coal as promptly as the exigencies of the poor demand.
