

CANADA'S BEST POLICY

IN
DEEPEST
DEBT
AND
THE
WAY
OUT.

To possess real or personal property is a possession which is a debt, a hostage to fire and other calamities; to have a wife and children is a possession which is a debt to that eternal law—death; your life itself is a debt you owe to death, and you will pay it.

Whoever you are, you are born the debtor of chance—of the chance of success, of the chance of failure. By insuring your life you pay the debt you owe to success; by neglecting to do so, you increase your liability to failure, you make no provision against absolute ruin—in fact, you court it.

Are you a man whose only capital is your knowledge of some trade and the energy and muscle to work at it, but into whose home stark poverty would enter were you to be suddenly stricken down? In the pride and glory of your physical strength, and in that buoyancy of spirit which is characteristic of perfect manhood, you have forgotten that it is your duty to make such provision in the shape of a Life Policy in the Manufacturers' as will effectually protect from want she whom before high Heaven you have vowed you will love, cherish and protect until death do you part. Have you done this? If not, do your whole duty. Pay your debt to her.

Are you a farmer? Do you "farm" a hundred and fifty or two hundred acre lot mortgaged for all it is worth? Do you want to raise that mortgage or will you leave it as a legacy to your boys and girls? It will never rise of itself; it will never rise till doomsday in the afternoon. Neither could the lever of Archimides raise it unless with the only fulcrum possible—a Policy in the Manufacturers' Life for the full amount. Will you have this fulcrum to raise the accursed thing, so that your estate will be unencumbered and possessable by your family at your death or before it. It won't cost you much. The Manufacturers' Life has just introduced a new plan of insurance, whose premium rates are one-third lower than any other form of whole life policy issued. You might be insured for \$5000 on this plan for the same premium that the Company would charge you for \$1000 on a ten-year endowment.

Do you want to raise it? Do so now. To-morrow you may have left it as a legacy to your family.

OFFICE OF THE PUBLIC ANALYST, MONTREAL, Sept. 9th, 1887. To the Canada Sugar Refining Co., Montreal: GENTLEMEN,—I have personally taken samples from a large stock of your Granulated Sugar, "REDPATH" brand, and carefully tested them by the Polariscopes, and I find these samples to be as near to absolute purity as can be obtained by any process of Sugar Refining. The test by the Polariscopes showed in yesterday's yield 99.90 per cent. of Pure Cane Sugar, which may be considered commercially as absolutely PURE SUGAR. JOHN BAKER EDWARDS, Ph.
