THE CARE OF THE FEEBLE-MINDED IN CANADA

What is Done or What is Under Way in Each Province.

(Dr. J. G. Shearer, Social Service Council of Canada.)

Canada is far behind many of the American States such as Minnesota, New York, Pennsylvania, and Massachusetts in the providing of a modern system and adequate equipment for the care of the Mental Defectives, which unfortunately are all too numerous in all our Provinces as in other States and countries.

To all Canadians it is of interest to know what is done for these victims of heredity and of society. The care of such, under the Canadian Constitution, falls to the Provinces. It is necessary therefore, to state the conditions in each Province as to the care of the feeble-minded.

The Canadian National Committee for Mental Hygiene has made a standing offer to all Provincial Governments to make free a survey of the numbers, conditions and needs of the mentally abnormal and subnormal in

their respective Provinces and to outline a programme or plan for their adequate care and the prevention of the birth of more of their kind. In a single generation it is possible to almost entirely eliminate the feeble-minded. The Committee has made surveys of the four Western Provinces, of Nova Scotia and New Brunswick. In Ontario Judge Hodgins made an investigation and recommended a policy. Quebec and P. E. I. conditions have not been investigated.

Manitoba has led all the Provinces in this matter as in their new Child Welfare Act. Some three years ago the Government adopted the plans recommended by the Mental Hygiene Committee, enacted the necessary enabling legislation, and proceeded to put it into effect. It includes the establishment of an industrial farm institution, of a Psychopathic wing or ward in the General Hospital of Winnipeg for study and treatment and under the new Child Welfare law provision is made for the appointment of a medical officer trained in Psychiatry to examine and report on the mental condition of all children who are the

wards of the Province e. g. neglected, dependent, delinquent defective, immigrant or those born out of wedlock, and for the appointment of a Board of Selection to determine what shall be done with all mentally defective children. The necessary specialized care and training are to be provided as required. In the larger centres special classes are provided and taught by specially trained teachers. All persons accused of any offense before the courts are subject to mental examination and if found defective become wards of the Child Welfare Department.

Parents of mentally deficient children can place them for training in the institutions of the Province. This fairly adequate machinery is provided for the discovery, sifting out, special training and, when necessary, custodial care of Manitoba's mental defectives. Saskatchewan has established a large institution at Weyburn for the care of these defectives. As yet however there is no adequate legal authority and administrative machinery for discovering and sifting out of those requiring care. This is true also of Alberta, whose Government is building at Edmonton, its first home for the care of defective children.

British Columbia has two Homes, one for boys and one for girls. But as yet no complete system has been adopted providing for the care and training of all classes of the mentally deficient. Such however, is in contemplation.

Ontario has for many years made certain provision for the care of idiots and imbeciles at the Orillia Hospital, where also a number of feeble-minded above the imbecile grade are cared for. Here however inadequate provision is made for classification, for specialized training, and for industrial occupations.

Ontario moreover has no machinery as yet for the discovery, sifting out, and examination of the large numbers of feeble-minded of both sexes and all ages. In the larger cities of Ontario and the Western Provinces considerable provision is made for specialized education of children of school age in special classes under trained teachers.

In this, Vancouver has led all Canadian cities, and has some two dozen classes and a special supervisor of this department of the work of the schools.

Quebec, New Brunswick and P. E. I. have as yet made no provision for the care of their feeble-minded, excepting that some of the worst of them are in the Hospitals for the insane where of course they cannot be given the training or industrial employment that they ought to have.

In Nova Scotia what little care has in the past been bestowed has been given in the various county poor-houses, where harmless insane, mental defectives, aged poor, and even some children have all been housed in the same institution without training, without proper occupation, without adequate medical treatment, and without classification.

This deplorable condition has become public through the survey of

OPEN SEASON FOR GAME

Deer—Oct. 16th to Oct. 31st.
Moose—Oct. 1st to Nov. 15th.

VICTORY

Mr. Cleveland Jefferson and Miss Ruby Waterman were the Sunday guests of Mrs. Stannage Currell.

Mrs. Maynard Reserants and two daughters have arrived here where they will reside for the present.

Miss Ida Berry, who has been visiting her sister, Mrs. Bernard Alcorn, has returned home.

Mr. and Mrs. F. C. Simpson spent Sunday with Mr. and Mrs. Joshua Simpson.

Mrs. Obediah Pulley, of Greenland, N. S., has been visiting Mrs. William O'Brien.

Mrs. Delbert Wagner, of Boston, has returned from her visit at Aylesford.

Miss Dorothy Simpson has been visiting Mrs. Charles Kaulbach.

Miss Daisy Wagner is visiting her sister, Mrs. Willard Rosencrants.

Mr. Kenneth Mubery came home Tuesday night.

Speaking of the Canadian dollar returning to par, the New York Herald, after specifying various reasons for this excommunication, thus concludes: "Canada is prosperous because her finances and her business conditions and methods are sound. This naturally greatly enhances whatever value there may be in contiguity to a well-to-do and friendly neighbor."

A MOTHER'S DUTY TO HER DAUGHTER

Health Must be Guarded as She Comes to Womanhood.

Every mother who calls to mind her own girlhood knows how urgently her daughter is likely to need health and strength during the years between early school days and womanhood. It is then that growing girls droop and become bloodless and nervous. Nature is calling for more nourishment than the blood can supply, and signs of distress are plainly evident in dull eyes, pallid cheeks, weak and aching backs, and a dislike for proper food. These signs mean that the blood is weak and watery. The watchful mother takes prompt steps to give her girl the new, rich blood her system calls for by giving her Dr. Williams' Pink Pills. No other medicine has ever succeeded like them and thousands of mothers have proved their worth. Mrs. W. H. McIntyre, Gananoque, Ont., tells what these pills have done for both herself and her daughter. She says: "I have used Dr. Williams' Pink Pills for many years, especially in times of weakness and general debility, and have found them a most satisfactory medicine. After a severe attack of influenza I found myself in a nervous condition and resorted to my old tonic—Pink Pills—and they did not fail me. I also gave them to my eldest daughter, who was in a serious condition due to ailments of girls of her age. She complained of headaches and backaches, and would often grow hysterical. She began taking the pills and was soon on the road to health again. She never complains now of headaches or backaches, and I give the credit to Dr. Williams' Pink Pills. When ever I see any of my children ailing or in need of a blood tonic, I give them these pills and always with the best results."

You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The Mental Hygiene Committee, and as a result the Legislature has authorized the Government to establish and equip an industrial farm for the care of the feeble-minded, and another for the care of prisoners.

There is no more crying need in the way of social reform in Canada than in this matter of the discovery, training and care of the victims of mental defect. When we recall that half of all crime, two-thirds of all venereal disease is said to be due to our neglect in this matter we shall recognize that this is false economy in highest measure.

JUST RECEIVED
