Since the beginning of the year three farm papers have disappeared from the Western field or merged with other publications. The Canadian Power Farmer, published in Winnipeg, ceased publication, circulation being taken over by The Nor-West Farmer. The Farmer's Advocate of Winnipeg has been merged with the Eastern edition of that paper published in London. The B. C. United Farmer has been merged with Farm and Home, published in Vancouver. Five months ago seven farm papers were published in Western Canada; on June 1st the number had been reduced to four. Publishers of farm papers are feeling the effects of the general business depression as much as their subscribers are feeling the effects of low prices for farm products and high prices for what they buy.

EDICT OF ATTORNEY GENERAL PROHIBITS WHEELS OF FORTUNE.

No More Wheels at Picnic or Elsewhere, According to Local Promoters.

Definite instruction respecting the use of wheels of fortune and other such gambling devices have been issued by the Attorney General's Department with the result that several local promoters who handle these devices have notified the operators of several picnics scheduled to take place in the near future, that they will not be able to observe.

The action against the wheels of fortune is a follow up to the campaign against sum and 41st machines which has been carried on for several months past. It is understood that many complaints have been received by the Attorney General's department protesting against the use of the wheels many of which, it is stated, operate for money prizes, with the result that orders have gone out for all wheels to cease operating.

For years past wheels of fortune have been more or less a feature of public and private picnics and the latest edict will put a decided crimp in the possible profits of enterprising picnic promoters.

That action is best which procures the greatest happiness for the greatest numbers.

REV. A. S. LEWIS RECEIVES DEGREE.

At the recent Annual Special Convocation of McMaster University at Bradon College, the honorary degree Doctor of Divinity, was conferred on the Rev. Arthur S. Lewis, formerly of the Maritime Provinces, and now of Vancouver, B. C. The many friends of Dr. Lewis among our readers, will heartily congratulate him on the honor received and will also congratulate McMaster on so honoring herself. The Rev. H. H. Blagden, of the First Baptist Church, Calgary, was also the recipient of a similar degree.

CANADA'S NAVAL FORCE GROWING.

Winnipeg.—"With the present annual naval appropriation, Canada could have had a permanent naval force of approximately 700, instead we have no less than 2,000 men who are gradually becoming systematically trained seamen," declared Commodore W. Hose, director of the Canadian Naval Service, who was a visitor here.

The Commodore, who visited naval volunteer reserve points in Western Canada, said recruiting had been entirely successful and that the Canadian Naval Services are progressing favorably.

KINGS CO. FARMER MOTORS TO HALIFAX WITH HIS PRODUCE

In order to be able to market the product of his farm at Greenwich Ridge, Mr. William O. Bishop is making a trip every week by motor to Halifax where he has engaged a stand at the city market. With the aid of his auto he is able to convey nearly a ton of country produce each week and dispose of it direct to the consumer, without any middleman's profits. So far the undertaking has proved to be quite satisfactory and business is on the increase. In the time of our grand-parents the farmers of this vicinity made frequent visits to the city, going by road and driving their own team. The journey then took the best part of two days while now by motor it is made in a few hours. With good roads and present facilities for transportation the farmer is brought much nearer his market than formerly, and if duly taken advantage of should make very materially for his advantage.—Wolfville

BURN BLUEBERRY LANDS TO INCREASE CROP, IS PROPOSED.

Crown Lands Department To Be Asked For Permission To Burn Over Big Yarmouth Tract.

Yarmouth.—Petitions are being circulated and largely signed by many persons in Yarmouth County, asking the Crown Lands Department at Halifax for permission to burn over extensive tracts of land in the interior of this County for the purpose of improving the blueberry growth. Parties who are responsible for statements on the matter assert that the move is an excellent one, and provided the burning is done systematically and with care, it will mean that the value of the blueberry crop will be very greatly increased.

There are hundreds of square miles of territory in Yarmouth and adjoining counties which should yield thousands of dollars worth of these berries annually, but owing to the fact that the area is completely overgrown with rank shrubs of various descriptions which have very greatly choked, or entirely destroyed, the blueberry bush the lands are now valueless.

Experts in the business claim that if the lands early in the next spring, which is the time proposed to do the burning, are set on fire and well supervised in the following year a blueberry crop will, all conditions favorable develop there, the value of which can hardly be estimated. Today the proposed burning of the lands was solidly endorsed by the members of the Yarmouth Rotary Club. The Yarmouth Herald today, editorially, urged that the matter and prayer of the petitioners be given by the authorities at Halifax every consideration, saying:

"At present, the lands are practically of no use whatever, but with careful burning they can be made the means of returning to this province thousands of dollars. Then, by all means, allow the work to be done."

"Two years ago, one shipper alone took out of the barrens back of Quinan, in this county, eight hundred crates of blueberries. Last year, owing to the land needing reburning, his crop was reduced to only eighty crates. Those figures are authentic, and by them it can be seen what the results of carefully guarded fire would mean to the berry men."

For the Kidneys

Kidney troubles are frequently caused by badly digested food which overtaxes these organs to eliminate their irritants. Help your stomach to properly digest the food by taking 15 to 30 drops of Extract of Roots, sold as Mether Seigel's Curative Syrup, and your kidney disorder will promptly disappear. Get the genuine.

TEACHERS OF BEAR RIVER SCHOOLS ARE HIGHLY QUALIFIED.

All Hold Superior or First Class Normal Diplomas—Affairs of Section Are in Healthy Condition.

Bear River.—At the annual meeting of Bear River School Sections in Oakdene hall, the report of the School Board showed the affairs of the Section, both educational and financial to be in a healthy condition. The attendance shows a total of 34162 days, with a registration of 206.

The teaching staff for the coming year will be D. B. Wright, Grade A, Principal; Miss Lillian Henry, Grade B, Preparatory; Miss Kathleen Henderson, Grade B, Intermediate; Miss June Schmidt, B. A. Grade A, Elementary; Miss Elsie Withrow, Grade C, Second Primary; Miss Mamie Withrow, Grade B, First Primary.

All the above hold superior or first class Normal College Diplomas. The meeting noted with regret the absence of any representatives of the Women's Institute as their interest in school matters in the past has been helpful and it was expected some reports of their school work would be presented. It is hoped their other interests will still allow further helpful efforts for school betterment.

The Secretary reported all bills paid, with a balance in hand of \$364.75, which will be increased somewhat when the balance due on taxes is paid.

The sum of \$36.00 was voted for school purposes for the coming year. Fred Harris was elected trustee in the place of J. L. Warren, retiring. W. W. Clark and W. M. Romans were appointed auditors, with Geo. E.

Langley and H. C. Anthony assessors for the coming year.

The trustees were authorized to complete arrangements for lease to Bear River Pulp Co., for privilege of crossing the school property with their water pipe line.

USING A DICTIONARY.

(Toronto Globe.)

The new Oxford Dictionary is said to contain 425,000 words. No doubt the collection and definition of all these words has its value, but the average man, even if engaged in literary pursuits, manages to express his meaning with about one twentieth of that number. Turn up an early page in a dictionary, and you find yourself confronted with such words as aardvark, abasil and abacist, far outnumbering the more familiar abate, ablegate and abandon. The reading of a dictionary is, nevertheless, an interesting occupation, occasioning a feeling of surprise that there are so many different objects and ideas requiring expression. The world is so full of a number of things that we should all be as happy as kings. In discovering the meaning of the word you obtain an introduction to some strange bird or beast, or some forgotten movement of which history takes little note.

It is also good thing to enlarge one's vocabulary, but moderation should be exercised in the use of this newly acquired knowledge. It is excellent to have a giant's strength, but tyrannous to use it like a giant, and to sprinkle the pages of a book intended for general reading with words which call for frequent references to the dictionary.

SCOTTISH PLOUGHMEN FOR CANADA.

Two hundred ploughmen from all parts of Scotland, including twenty-two splendid families, recently sailed from Scotland, under the direction of Mr. T. E. Roberts, of the Department of Colonization and Development, Canadian Pacific Railway. These emigrants have capital ranging from a few hundred to a thousand pounds. Ninety of the party, hailing from the counties of Inverness, Ross, Sutherland and Caithness, were selected by Miss Anne MacDonald, Canadian Government agent at Inverness. Most of the party entrained for the West upon arrival at Quebec.
