

# Why ? Because

Parties wishing a first-class Harrow will do well to write us direct, or apply to the local agent.

The flexibility of the Harrow enables it to adapt itself as readily to rough and uneven ground as to smooth, and the oscillating motion produced by its flexibility pulverizes the ground, and leaves it in a loose and more porous condition than any other Harrow, and it is made of the very best material money can buy for the purpose. The bars are made of

## HARD SPRING STEEL,

very stiff and strong, the hinges and teeth being of solid steel, all of which are of a higher grade than is possible to use in any other make of Harrows. We can guarantee more than double the strength and wear in this Harrow than there is in any other make.

Our Motto, "Not how Cheap, but how Good."

SEE WHAT OUR CUSTOMERS SAY ABOUT IT

CHAS. HART, Boissvain, Man.

"The Vessot Grinder, 'Little Champion,' which I purchased from your agent, some time ago has given entire satisfaction, and is far better adapted for use with wind power than any grinder I have had any experience with. For steam power a larger machine than mine would probably give good satisfaction."

HARRISON & COOK, Newdale, Man.

"The Little Champion grinder manufactured by Vessot & Co., and sold by your firm, is the best grinder we have ever used. It does its work well and grinds very fast. Would not think of using any other kind of grain crusher. We used it last winter grinding for two hundred head of stock."

33 Scores of other testimonials can be furnished on application.

We also furnish an improved Corn and Cob Crusher.

Send for circular. Information cheerfully given.
