FACTORY—107-109 Church and 66 Richmond Streets.

PIANO CASE FACTORY—15 Queen Street East.

TORONTO.

Our Pianofortes have been before the Canadian public for several years, and some hundreds of them are now in use in the principal cities and towns of the Dominion.

By adopting the latest and most approved system of construction, endeavouring to produce only the *very best grade*, and sparing no expense in making any possible improvement, our Pianofortes have gained a position and reputation that has secured for them a constantly increasing sale.

As our Pianofortes have become known, their merits have been acknowledged by the Musical Public. They have been selected by teachers for their own use, and for the severe work of Schools, Convents, and Colleges, which is the best evidence of their substantial character, thoroughness and durability, as well as of their superiority in touch and tone.

Many unsolicited letters have been received from purchasers, referring to the splendid qualities of our Pianos, and expressing in the strongest terms their appreciation and approval of selections made for them. But what is still more significant, is the *unqualified recommendation* of our instruments, not only by Foreign Artists, but by the Leading Musicians of Canada, who have most frequently used them, and are therefore the best judges of their excellence.
