Infants and Savalida Is a compound of

Milk, Wheat and Sugar,

Chemically so combined as to resemble at closely the Mether's Milk.

It requires only water in preparation, thus making it the MOST ECONOMICAL AND CONVENIENT preparation in the market, besides doing away with the difficulty and uncertainty of obtaining pure milk of a witable and uniform quality.

It is recommended by the highest medical authorities. It is especially adapted as a Nummer dist for intants.
