

LISTERINE

The word Listerine assures to the Medical Profession a non-poisonous antiseptic of well proven efficacy; uniform and definite in preparation, and having a wide field of usefulness.

On account of its absolute safety, Listerine is well adapted to internal use and to the treatment of Catarrhal Conditions of the mucous surfaces.

LAMBERT'S LITHIATED HYDRANGEA !

RENAL ALTERNATIVE—ANTILITHIC.

The ascertained value of Hydrangea in Calculous Complaints and Abnormal Conditions of the Kidneys, through the earlier reports of Dr. Atlee, Horsley, Monkur, Butler and others, and the well-known utility of Lithia in diseases of the uric acid diathesis, at once justified the therapeutic claims of LAMBERT'S LITHIATED HYDRANGEA when first announced to the medical profession, whilst a subsequent use and close clinical observation has caused it to be regarded by physicians generally as a very valuable Kidney alternative and Antilithic agent in the treatment of

Urinary Calculus, Gout, Rheumatism, Cystitis

Diabetes Hematuria, Bright's Disease,

Albuminuria, and Vesical Irritation Generally.

LAMBERT PHARMACAL CO., ST. LOUIS.

SIR:

We suppose you prescribe the best emulsion of cod-liver oil by name—and write the name.

But some don't. Some take for granted that Scott's will be got. They say "Scott's of course:" but don't write it. Hadn't you better write it?

There may be some, who prefer some other emulsion of cod-liver oil. What other, no matter: hadn't they better write it?

Don't leave your medicine-maker to accident.

SCOTT & BOWNE,

Toronto,

Canada.
