

### VALUABLE CONCLUSIONS.

The case of G. H. is reported by J. S. Norwell, M. B., C. M., B. Sc., of Edinburgh, Scotland, as follows:—  
 "Suffered from headaches which proceeded from errors in diet. I arranged a table of diet for him which proved beneficial. I prescribed antikamnia tablets and with the very best results. His headaches were kept under until his changed dietary had time to effect more permanent relief. This year he went to Bisley. In case he should be troubled there with his *bete noir*, I gave him some antikamnia tablets as a stand-by. On his return he told me he had had no headache, but

that he had used all the tablets. Headaches, it seems, are no uncommon accompaniments of camp life. He had dispensed the antikamnia tablets to some of his suffering companions, and they (the tablets) 'hit the bull's eye every time.' Who knows but that they had something to do with the phenomenal scoring at the last meeting."

One could multiply similar cases, but this may suffice to illustrate the effects of antikamnia tablets in the treatment of headaches, and to warrant the following conclusions I have come to with regard to their use:

- (a) They are a specific for almost any kind of headache.
- (b) They act with startling rapidity.
- (c) The dosage is small.
- (d) The unpleasant after-effects so commonly attendant on the use of many of the other analgesics are entirely absent.
- (e) They can therefore be safely put into the hands of patients for use without personal supervision.

Another point worth noting is that they can be very easily taken, being practically tasteless.

**RELAXATION**

YOU should have the enjoyment of a Victor Gramophone. Nothing will give more relief from the pressure of daily life. Put on a record and submit yourself to the influence of the best music the world has produced as recorded by the world's most gifted musicians. This is a great prescription for the "tired feeling." :: :: :: :: :: ::
