#### TORONTO MARKETS.

Liverpool has fallen 2d to 3d on red wheat and let per cental on white and 6d on peas since our last report. New York is also easier and 1 c lower, nominally for wheat, Western markets easier and 1 to 8c lower; Montreal lower, but without material change, There was more disposition to sell here to day, and notwithstanding the lightness of stocks prices were easier. There were no sales reported in the wheat and the market may be regarded as without material chambe in the absence of transactions, although weaker. Flour offered more freely, but up to close of 'Change the only sale heard of was that of 100 barrels of No. 1 saper at \$5 03 f oc. Oats also were more active, and a few cars changed hands but on pt. Barley remains purely mominal, nothing doing. Peas—quiet and unchanged.

\*HAY—There was a large supply at market, prices ranged from \$18 to \$24 50 for Timothy.

\*\*BTRAW—Simall supply at \$10 per ton for loose, and \$40 bundled.

Woor.—Arrivals have almost ceased, but for all shering the market is firm at 52c, and for very choice 63c has been paid.

53c has been paid.

Eugs—Supply small at 15c to 17c per doz.

BUTTER—The market is still but sparingly supplied. Lb. rolls to-day were worth foss money and sold at 18c to 22c, per lb. Tub is quotable at 18c to 12c, and store packed at 11c to 18c.—Leader.

### Special Notice,

Mr. Henry Maudsley says "The full and healthy development of all the lower natural forces are indispensally pro-requisite to the existence of a sound and vincous mind." Just so. Humanity requires the full equivalent of vital force, in order for the free and potent manifestations of the mind. When we consider that Fellows' Compound Syrup of Hypophosphitos supplies the deficiency to unloatify blood, restores the nervous clericent, and produces healthy action to the various organs and forces of the body necessary to sound inflat, we wonder at the imbecility everywhere apparent.

As a deficiency of healthy blood, or a directions of this fluid, are causes for disorders of the senses and slag of the nervous system penerally, we can acfely calculate on the disappearance of such unpleasant and dangerous disturbances as the condition of the blood improves.

#### NEW YORK AND ERIE RAILWAY

We met with a paragraph the other day which very descriptive of this grand the the properties of the world, and how give it for the benefit of the anglian public: the world, and now give a candian public:
Canadian public:
"The railways here, that is in England, are not heter than our of a Either the English reads have appreciated."

Canadian public:

"Tho railways here, that is in England, are not botter than our of the English ronds have deteriorated, or closour own have appreciate! I assume that the fastest train on the direct line between therefood and London may be taken as a fatr sample, and compared with similar trains on the Now York and Erie Railway at home—with which I am most fantiliar. From Liverpool to London, two hunred and twenty miles, through first class fare is thrity-five shillings—say nine dollars. On the New York and Erie from New York to the west end of Suspension Bridge, in Canada, distance upwards of four hundred and fifty miles, in drawing room cach, the fave is mine dollars on the cache, the fave is mine dollars and twenty-five cents. We ride in by far the most elegant coaches on the Erie than here in England, and at only one half the cost. We ride as fast, too, on the Erie as in England, about thirty-into miles in either case. In smoothness there is no comparison, Motion on the New York and Erie is like rolling on oil; but here we ratife in our seats like rolling on oil; but here we ratife in our seats like tin pails in a wheelbarrow. Here there are four wheels under a conch, on the New York and Erie is the continued of the property of the continued of the control of the continued of the continued

#### OTTAWA LADIES' COLLEGE PRINCIPAL. REV. JOHN LAINC, B. A.,

NOTE THE ADDRESS:

SOUTH-EAST CORNER OF KING AND CHURCH STREETS.

PROSPECTUS FOR 1872.

Fifth Year.

REPRESENTATIVE AND CHAMPION OF AMERICAN ART.

# THE ALDINE

AN ILLUSTRATED MONTHLY JOURNAL claimed to be the

HANDSOMERT PAPER IN THE WORLD. "Give my love to the artist workmen of THE ALDINE who are striving to make their professoin worthy of admication for beauty, as it has always been for usofulness."—Henry Ward Beecher.

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature and a collection of pictures, the rarest specimens, of artistic skill, in binck and white. Although each succeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness as compared rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition or in price or character. The possessor of the volume just completed cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost.

The labor of getting THE ALDINE ready on the press is so great that reprinting is out of the question. With the exception of a small number specially reserved for binding, the edition of 1871 is already exhausted and it is now a scarce as well as valuable book.

#### New Features for 1872.—Art Department.

The enthusiastic support so readily accorded to their enterprise, wherever it has been introduced has convinced the publishers of THE ALDINE of the soundness of their theory that the American public would recognize and heartily support any sincers offort to elevate the tone and standing of flustrated puplications. That so many weekly wicked sheets exist and thrive is no ovidence that there is no market for anything botter—indeed the success of THE ALDINE from the start is direct proof of the centrary. With a population so vast, and of such varied taste, a publisher can choose his patrons, and his paper is rather indicative of his own than of the laste of the country. As a guarantee of the excellence of this department, the publishers would beg to announce during the coning year, specimens from the following eminent American Artists.

W. T. RICHARDS,

and pictures are being reproduced without regard to expense by the very best engravers in the country, and will bear the very severesteritical compurison with the best foreign work. It boing the determination of the publishors that THE ALDINE, shall be a successful vindication of American taste in competition with any existing publication in the world. The nictu

LITERARY DEPARTMENT. Where so much attention is paid to illustration any get up of the work, to much dependance on appearances may very maturally be feared. To unterplate such misgivings, is only necessary to state that the editorial management of THE ALDINK has been intrusted to Mr Richard Henry Steddart, who has received assurances of assistance from a look of the most popular writers and poets of the country.

THE VOLUME FOR 1872, will contain nearly 300 pages, and about 250, fine engravings. Commencing with the number for January, every third number will contain a beautifully tinted picture on plate paper, inserted as a frontisplece.

The Christmas number for 1872, will be a splendid volume in itself, containing fifty engravings, four in tint, and, although retailed at 41 will be sent without extra charge to all yearly subscribers

### A Chromo to every Subscriber

was a vory popular feature last year, and will be repeated with the present volume. The publishers have purchased and reproduced, at great expense, the beautiful oil painting by Sols, suittiod. "Dane Nature's School." The chrome is 11 x 13 inches, and is an exact face-smille, in size and appearance, of the original picture. No American chrome, which will at all compare with it, has yet been of fered at retail for less than the price asked for THE ALIPINE and it together. It will be delivered free, with the January number, to every subscriber who pays for one year in advance.

### TERMS FOR 1872:

One Copy, one year, with Oil Chrome, \$5. Five Copies, \$20. Any person sendin 10 names and \$40 will receive an extra copy gratis, making 11 copies for the money.

Any person wishing to work for a premium can have our premium circular on application. We give many beautiful and desirable articles offered by no other paper. Any person wishing to act, pocmanently, as our gent, will apply, with reference, enclosing \$1 for JAMES SUTTON & CO.,

### NEW NATIONAL MAGAZINE FOR CANADA.

Prospectus of the CANADIAN MONTHLY

AND NATIONAL REVIEW. A feeling has long provailed that the intellectual life of the Canadian nation ought to have some or-gan in the form of a good periodical. Attempts have been made to give itsuch an organ, but hith-erto they have not been successful.

In some measures they may have been promature, but it is believed that their failure has been mainly due to the want of a sufficiently strong and well-organized staff of writers, and of a fund sufficient to guarantee to contributors the fair remuneration, without which, as multiplied experience proves, a periodical cannot be successfully carried on.

These requisites have now been effectually se-The literary aid and materials requisite for the support of a first-class magazine will be sought, without restriction, from all quarters—Canadian, British, and Foreign. But it is intended that the Magazine shall have a specially Canadian character, such as, it is hoped, will enlist Canadian patriotism in its support.

Politics will be treated with the aim of infuring as much as possible of the historical and philosophical spirit into the popular discussion of political nuestions.

Religious questions, if they form the subject of my papers, will be treated with a similar aim. Mr Goldwin Shiffi has consented both to contribute regularly, and to assist in conducting the

Intending subscribers will please send us their ADAM, STEVENSON & CO.,
