When Report

Reaches us that counterfeit bank bills are in circulation we carefully examine every bill in order to protect ourselves against loss. How much richer would we be, how much suffering would we escape, did we exercise in all things the same careful scrutiny. Imitations cheap and dangerous, are being offered for that great corn remedy—Putnam's Painless Corn Extractor. Beware of all remedies offered you as being "just as good as Putnam's." Is it not proof positive that it is the best when such arguments are used to effect the sale of substitutes. Use Putnam's Painless Corn Extractor. Sold by druggists everywhere.

At the 18th Annual Convention of the Western Ontario Dairymen's Association held recently at Stratford, Mr. S. M. Barre, of Montreal, read a paper on "The Improvement of Butter Making." He advocated the introduction of large creameries such as are used in Denmark and Germany with so much success. He claimed that creameries would bring about a uniformity of butter which would be advantageous to the country, would increase the number of cattle in the country, and would reduce the waste of labor.

A smart girl that waiter in a Boston boarding-house. When the Sabbath morning comes round, she doesn't waste her breath with "beans, fishballs, and brown-bread." She simply says, "Sunday."

If you want knowledge you must toil for it; if you want food you must work for it; if you want pleasure you must earn it,—but if you want nice soft hands you have only to use Estey's Fragrant Philoderma.

Capt. Bedford Pim, of the British Navy, who recently has been explaining the route of the proposed Panama Canal, says over sixty million dollars has been expended in the work. Thus far, less than three miles of the contemplated forty-one miles have been opened, that owing to the nature of the soil it would be impossible for a force of 10,000 laborers to complete the total excavation of the canal in less than fifteen years, and that to protect the work from the overflow will require five years of great industry and immense outlay.

Do you feel languid and dull, and have no appetite, then your system is out of order and requires a good bracing medicine. Take a few bottles of Estey's Iron and Quinine Tonic.

A co-operative house-cleaning company, which is advertised to rob domestic life of one of its chiefest terrors, is the latest output of New York ingenuity. We cannot regard it as anything but a dastardly attempt to cripple the American humorist where he is strongest.

Mason & Hamlin Upright Pianos are not as high priced as the most expensive of such instruments. Every one who is a judge of good workmanship and material will see why they cannot be as low priced as the poorest.—Boston Journal.

A young man entered an illustrated newspaper office the other day and applied for a position. "Can you draw well?" ask the publisher. "No," said the young man. "But if I had the well I could draw water." He didn't use the elevator going down stairs.

Scott's Emulsion of Pure Cod Liver Oil, with Hypophosphites. Especially desirable for children. A lady physician at the Child's Hospital, at Albany, N.Y., says: "We have been using Scott's Emulsion with great success. Nearly all of our patients are suffering from bone diseases and our physicians find it very beneficial."

"Do you understand how to fix my hair?" asked a lady of a newly-hired colored servant. "Yes, m'm, I kin fix it in ten minutes." "You will never do for me. What would I do with myself all the rest of the day?"

At a recent woman's congress one lady remarked that "it's a nice thing for a man to keep his mouth fit to be kissed." What has that to do with woman suffrage? Is this a forecast of campaign tactics in the hazy future.
