THE DOCTORS EXTEND THEIR TIME.

FIRST three months free of charge. On account of the large number of invalids who have been unable, owing to the rush, to consult the staff of eminent physicians and surgeons, now permanently located at No. 272 Jarvis Street (near Gerrard), before January 1st, these eminent doctors have kindly extended the time for giving their services free to March 1st, therefore all invalids who call upon them before March 1st will receive services for the first three months free of charge. The only favor desired is a recommendation from those whom they cure. The object in pursuing this course is to become rapidly and personally acquainted with the sick and afflicted.

The doctors treat every variety of disease and deformity, and will perform all surgical operations free this month, viz.: The removal of cancers, tumors, cataract, polypi, etc. All diseases of the eye, ear, throat, lungs, heart, stomach, liver, kidneys, bladder, and all female difficulties arising from whatever cause; nervous prostration, failing vitality and all diseases originating from impure blood are treated with the greatest success.

Catarrh in all its various forms cured by their new method, which consists in breaking up the cold-catching tendency, to which every person suffering from catarrh is susceptible.

Invalids will please not take offence if they are rejected as incurable. The physicians will examine you thoroughly free of charge, and if incurable they will positively tell you so. Also caution you against spending more money for useless medicine.

Remember the date, and go early, as their offices are crowded daily. Hours from 9 a.m. to 5 p.m., and from 7 to 8 p.m. Sundays from 2 to 4 p.m.

SOME tobaccos spurt up in the pipe while smoking, with little crackling explosions. This is caused by the addition of foreign matter to assist the combustion. When the purity of the tobacco is not tampered with and it has been properly taken care of, this combustible foreign matter is wholly unnecessary. For in that case it burns at a lower temperature than almost anything else. Nothing of this kind is seen in smoking the "Myrtle Navy." It burns with steady combustion throughout.

It is hard to draw the line between good and evil; but how does the other political party manage to get all the bad men?—Puck.
