

CIRCULAR.

MONTREAL, May, 1867.

THE Subscriber, in withdrawing from the late firm of Messrs. A. & D. Shannon, Grocers, of this city, for the purpose of commencing the Provision and Produce business, would respectfully inform his late patrons and the public, that he has opened the Store, No. 443 Commissioners Street, opposite St. Ann's Market, where he will keep on hand and for sale a general stock of provisions suitable to this market, comprising in part of FLOUR, OATMEAL, CORNMEAL, BUTTER, CHEESE, POKE, HAMS, LARD, BEANS, DRIED FISH, DRIED APPLES, SALT BREAD, and every article connected with the provision trade, &c., &c.

He trusts that from his long experience in buying the above goods when in the grocery trade, as well as from his extensive connections in the country, he will thus be enabled to offer inducements to the public unsurpassed by any house of the kind in Canada.

Consignments respectfully solicited. Prompt returns will be made. Cash advances made equal to two-thirds of the market price. References kindly permitted to Messrs. Gillespie, Moffatt & Co. and Messrs. Tiffin Brothers.

Rev. SYLVANUS COBB thus writes in the Boston Christian Freeman:—We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains quiet sleep, and its parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say they would not be without it from the birth of the child till it had finished with the teething siege, on any consideration whatever.

Sold by all Druggists. 25 cents a bottle.

MOTHERS
SAVE YOUR CHILDREN!

NO MORE VERMIFUGES,
NO MORE POISONOUS OILS,
NO MORE NAUSEOUS POWDERS,
The sight of which causes such horror and dislike to children suffering from worms.

Art now acknowledged to be the safest, simplest, and most effectual preparation for the destruction of worms in the human system.

THEY ARE PURELY VEGETABLE,
THEY ARE AGREEABLE TO THE TASTE,
THEY ARE PLEASANT TO THE SIGHT,
THEY ARE SIMPLE IN ADMINISTRATION,
AND SURE AND CERTAIN IN THEIR EFFECT.

In every instance in which they have been employed they have never failed to produce the most pleasing results, and many parents have, unsolicited, testified to their valuable properties. They can be administered with perfect safety to children of most tender years.

CAUTION.—The success that these Pastilles have already attained has brought out many spurious imitations; it will be necessary therefore to observe when purchasing that you are getting the genuine.

The genuine DEVINS' WORM PASTILLES are stamped "DEVINS," and are put up in boxes containing thirty pastilles, with full directions, and are never sold by the ounce or pound. They can be had from any of the principal Druggists in the city, and wholesale and retail from.

A CARD FROM

THE AMERICAN WATCH COMPANY

OF

WALTHAM, MASS.

THIS Company beg leave to inform the citizens of the new dominion of Canada that they have made arrangements to introduce their celebrated Watches to their notice. They are prepared to prove that their watches are made upon a better system than others in the world.

They commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one half of all the watches sold in the United States. Up to the present time, it has been impossible for them to do more than supply the constantly increasing home demand; but recent additions to their works have enabled them to turn their attention to other markets.

The difference between their manufacture and the European, is briefly this: European Watches are made almost entirely by hand. In them, all those mysterious and infinitesimal organs which when put together create the watch, are the result of slow and toilsome manual processes, and the result is of necessity a lack of uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative vary. But it is a fact that, except watches of the higher grades, European watches are the product of the cheapest labor of Switzerland, and the result is the worthless mass of cheap watches, and the result is the worthless mass of cheap watches, and the result is the worthless mass of cheap watches.

Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take them to the nearest watch merchant. He stamps and engraves them with any name or brand that may be ordered—whether: London, Paris, Geneva or what not; and many a man who thinks he has a genuine "M.I. Tobias, of Liverpool," (whose only fault is, that he can never regulate it to keep very good time), is really carrying a cheap and poor Swiss imitation.

HOW AMERICAN WATCHES ARE MADE.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All their operations, from the reception of the raw materials—the brass, the steel, the silver, the gold and the precious stones, to the completion of the Watch, are carried on under one roof, and under one skillful and competent director. But the great distinguishing feature of their Watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust a few hundred machines necessary to reproduce every part of that watch, and it follows that every succeeding watch must be like it. If any part of any American Waltham Watch should be lost or injured, the owner has only to address the Company, stating the number of his watch and the part wanted, whether it be spring, pinion, jewel, or what not, and by return mail he would receive the desired article, which any watchmaker would adjust to its position.

The Company respectfully submit their watches on their merits only. They have fully succeeded in overcoming popular prejudice in the States in favor of European watches, and solicit a thorough examination and fair trial for their manufactures elsewhere. They claim to make

A BETTER ARTICLE FOR THE MONEY by their improved mechanical processes than can be made under the old-fashioned handicraft system. They manufacture watches of every grade, from a good, low priced, and substantial article, in solid silver hunting cases, especially adapted to the wants of the farmer and lumberman, to the finest chronometer for the navigator; and also ladies' watches in plain gold or the finest case and jeweled cases; but the indispensable requisite of all their watches is that they shall be GOOD TIMEKEEPERS. It should be remembered that, except their single lowest grade named "Home Watch Company, Boston," ALL WATCHES made by them

ARE FULLY WARRANTED by a special certificate given to the purchaser of every watch by the seller, and this warrant is good at all times against the Company or its agents.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universal in its adoption into use, in every country and among all classes, as this mild but efficient purgative.

The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cures them; and their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have, and can show, thousands of testimonials of the remarkable cures of the following complaints, but such cures are known in every neighborhood, and why should we publish them? Adapted to all ages and conditions in all climates; containing neither calomel nor any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being equally effective, no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For Dyspepsia or Indigestion, Acidness, Heartburn, and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Biliousness, Headache, Stomachic Distress, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhoea, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Etc., in a mild, gentle, and safe manner, they should be continued, taken, as required, to change the diseased action of the system. With such change these complaints disappear.

For Dropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression a large dose should be taken as it produces free action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. There are numerous cases where a purgative is required, which we cannot enumerate here, but they suggest themselves to everybody, and where the virtues of this Pill are known, the public no longer doubt what to employ.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything so widely and so speedily thought upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in its estimation, and has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a protection against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this medicine for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that it is unnecessary to publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

CHOLERA.

A CERTAIN CURE FOR THIS DISEASE

MAY BE FOUND IN THE USE OF

DAVIS' PAIN KILLER.

VEGETABLE PAIN KILLER.

MANHATTAN, KANSAS, April 17, 1866.

Gentlemen:—I want to say a little more about the Pain Killer. I consider it a very valuable Medicine, and always keep it on hand. I have travelled a good deal since I have been in Kansas, and never without taking it with me. In my practice I used it freely for the Asiatic Cholera in 1849, and with better success than any other medicine. I also used it here for Cholera in 1855, with the same good results.

Yours truly,

A. HUNTING, M.D.

I regret to say to any that the Cholera has prevailed here of late to a fearful extent. For the last three weeks, from ten to fifty or sixty fatal cases each day have been reported. I should add that the Pain Killer sent recently from the Mission House has been used with considerable success during this epidemic. If taken in season, it is generally effective in checking the disease.

REV. CHARLES HARDING,

Sholapore, India.

This certifies that I have used Perry Davis Vegetable Pain Killer, with great success, in cases of cholera infantum, common bowel complaint, bronchitis, coughs, colds, &c., and would cheerfully recommend it as a valuable family medicine.

REV. JAS. C. BOOMER.

Messrs. Perry Davis & Son.—Dear Sirs:—Having witnessed the beneficial effects of your Pain Killer in several cases of Dysentery and Cholera Morbus within a few weeks past, and deeming it an act of benevolence to the suffering, I would most cheerfully recommend its use to such as may be suffering from the aforementioned or similar diseases, as a safe and effectual remedy.

REV. EDWARD K. FULLER.

Those using the Pain Killer should strictly observe the following directions:—

At the commencement of the disease take a teaspoonful of Pain Killer in sugar and water, and then bathe freely across the stomach and bowels, with the Pain Killer clear.

Should the diarrhoea and cramps continue, repeat the dose every fifteen minutes. In this way the dreadful scourge may be checked and the patient relieved in the course of a few hours.

N.B.—Be sure and get the genuine article; and it is recommended by those who have used the Pain Killer for the cholera, that in extreme cases the patient take two (or more) teaspoonfuls, instead of one.

The Pain Killer is sold every where by all Druggists and Country Store-keepers.

PRICE, 15 cts., 25 cts. and 50 cts. per bottle.
