### Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD.

The reputation this ex-

truly marveflous character. Inveterate cases of Scrofula, where the system seemed utterly given my to corruption, have yielded to this compound of anti-strumous vartues. Disorders of a secrofulous type, and affections which are merely agraravated by the presence of scrofulous matter, have been radically cured in such numerous instances, in every settlement in the country, that the public do not need to be informed here that it is in most cases a specific and absolute remedy:

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebbing or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be studdenly deposited in the lungs or heart, or tumors formed in the liver. These facts make the occasional use of the Sarsaparilla as a preventive, advisable of the sarsaparilla as a preventive, advisable of derangement may never occur, and yet the vital forces of the body he so reduced by its subile agency, as materially to impair the health and shorten the duration of life. It is a common error, also, that scrofula is strictly heroditary. It does, indeed, descend from perent to child, but is also engendered in persons born of pure blood. Low living, indigestion, foul avi, ilecutious habits, uncleanliness, and the depressing vices, generally, produce it. Weakly constitutions, where not fortified by the most constant and judicious care, are peculiarly liable to it. Yet the robust, also, whose turbid blood swells the veins with an apparently exaberant vitality, are often contaminated, and on the road to its consequences. Indeed, no class or condition can depend on immunity from it, nor feel insensible to the limportance of an effectual remedy.

### Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Bumb Ague, Periodical or Bilious Fever, &c., and indeed all the aftections which arise from malarious, marsh, or mlasmatic poisons.

As its name implies, it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the agned districts, are literally beyond account, and we believe without a parallel in the history of medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remodies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the AGUE CURE daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.
