

WHAT IS CATARRH ?

From the Mail (Can.) Dec. 15. Catarrh is a mucopurulent discharge caused by the presence and development of the vegetable parasite amœba in the internal lining membrane of the nose.

Many attempts have been made to discover a cure for this distressing disease by the use of inhalants and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucous tissue.

Messrs. A. H. DIXON & SON, 305 King St. West, Toronto, Canada, and inclose stamp for their treatise on Catarrh

What the Rev. E. B. Stevenson, B.A., a Clergyman of the London Conference of the Methodist Church of Canada, has to say in regard to A. H. Dixon & Son's New Treatment for Catarrh.

Oakland, Ont., Canada, March 17, '83. Messrs. A. H. Dixon & Son: DEAR SIRS,—Yours of the 13th instant to hand. It seems almost too good to be true that I am cured of Catarrh, but I know that I am.

I consider that mine was a very bad case; it was aggravated and chronic, involving the throat as well as the nasal passages, and I thought I would require the three treatments, but I feel fully cured by the two sent me, and I am thankful that I was ever induced to send to you.

You are at liberty to use this letter stating that I have been cured at two treatments, and I shall gladly recommend your remedy to some of my friends who are sufferers.

Yours, with many thanks, REV. E. B. STEVENSON.
