Fax: (519) 756-3146
Main Export Contact:
Doug Laver, General Manager

Technican Industries Ltd. was incorporated in 1981 and is a leading Canadian manufacturer of swimming pool diving boards and slides, inwall steps and acrylic spas.

The board and slide products are manufactured with an acrylic surface and backed with fibreglass reinforcing. Several popular models are available in both product lines. The acrylic steps come in four foot (1.23 m), six foot (1.84 m) and eight foot (2.46 m) lengths in either straight or curved configurations.

Several models of acrylic and rovel spas are manufactured by Technican Industries in two lines. The Swan line is a popular trade brand of finished spas while a distributor's shell product is

also available. The company also markets a wide range of wooden skirts for spas.

Teledyne Laars Canada

Teledyne Laars Canada manufactures a complete line of gas, copper fin tube pool and spa heaters along with a line of commercial gas hydronic boilers and hot water machines along with a complete line of residential hydronic boilers.

The swimming pool gas heater line ranges in size from 125 000 BTU's to 400 000 BTU's in both natural gas and propane models. Included in the pool and spa line is an electric spa heater in 6.0 or 11.5 KW capacities.

Teledyne Laars Canada has complete manufacturing facilities located in Oakville, Ontario with a plant of approximately 50 000 square feet and sixty employees.

Torlan Manufacturing, Inc.

4550 Rhodes Drive
Windsor, Ontario
Canada M8W 5C2
Telephone: (519) 948-7665
Main Export Contact:
Italo Bertoni, President

Incorporated in 1980 Torlan Manufacturing, Inc., has a new 10 000 square foot plant and head office in Windsor, Ontario, with an additional warehousing facility of 4 000 square feet also located in Windsor. Torlan Manufacturing has a patented designed pool which enables them to produce a wide range of free form inground steel walled, vinyl lined swimming pool kits. The steel walls are made of best quality 14 gauge, 2 oz. galvanized steel.

The product line consists of approximately 15 shapes ranging in size from 14 feet x 28 feet (4.3 m x 8.7 m) to 24 feet x 40 feet (7.4 m x 12.4 m) with new shapes and sizes in the planning. Their patented inground pool kit features supporting "C" frames designed for maximum support of pool

walls and concrete decks. Another feature is their patented coping which was designed for ease in installation of liners and winter covers without the use of water bags. All liners are made of 30 mil exclusive blue on blue mosaic print patterned vinyl. Another important feature is special expansion joints which can be supplied with the products.
