Registrar's report

Summer School

LEEDS (founded 1877)

Prints entire list of donors, with amounts, including a special appeal made in 1925-30.

Deals with students loan fund.

"It was decided that the university should entertain at dinner at successive intervals representatives of the professorial staff and business men in the locality. They dinners have proved a happy opportunity for social intercourse between the members of the staff and the community. Expenses met by generosity of private donors."

(An excellent idea, could we follow it?)
