

THE REASON

—YOU SHOULD BUY A

RATIONAL

SADDLE

is that it is the only saddle on the market which is automatically correct and is comfortable for the first.

It differs in this from the saddles you have been riding, which, as you know too well, require a whole season's use to make them tolerable.

Price \$2.00

APPRECIATION OF STOCKS.

Canadian and American Securities

Still Rising

As a Result of the Natural Trade

Conditions and the Ease of the

Money Market—War Eagle a Fea-

ture—Gossip.

Monday Evening, June 6.

The expanding public demand for securities

on a vast scale is reflected largely in

the brilliant outlook for the growing crop

of the great prosperity of last year's har-

vests, the high prices of staple products,

the unprecedented size of railway earnings,

the increased prosperity in manufacturing

countries, the growing balance of trade

in favor of the United States, and the marked

ease of the money market. The immense

amount of money being loaned at a low

rate of interest, the ease with which it is

being raised, and the fact that the govern-

ment is not only not borrowing but is

paying off its debt, all these factors are

contributing to the general confidence

in the future of the country. The up-

ward trend of last week was continued to-

day. Realization of the fact that a large

portion of the gain in some stocks, but

the figures do not show a satisfactory

advance in the market as a whole. The

preferred stock advancing over a point

of nearly a gain of 1/2 per cent. The

Canadian securities continued to exhibit

stability. War Eagle was a feature, show-

ing 3000 shares changing hands at \$2 on the

two exchanges. On the Toronto board,

the market exhibited similar features.

In London, American rails rose 1/2 %.

Consols are unchanged in London to-day.

In Paris, 3 per cent rentes are higher at

the market. The 4 1/2 per cent rentes are

at 102 1/2. The 5 per cent rentes are at

103 1/2. The 6 per cent rentes are at

104 1/2. The 7 per cent rentes are at

105 1/2.

WORLD'S WHEAT SHIPMENTS

Are Immense and the Cereal De-

clines Further.

Decrease in Both English and American

Visible—Estimate of Russian Stocks—Prices in Chicago,

Liverpool and Toronto Statistical

News Hearish—Notes.

Monday Evening, June 6.

The decline in wheat continued today on

both sides of the Atlantic. The statistical

news for the week was mostly bullish in

character. There is a shortage of Durum

combined, exported sufficient to meet West-

ern Europe's requirements for the week,

while the amount of wheat and flour ad-

mitted for the United Kingdom and the Continent

is unusually large. There is a shortage of

both the American and the English visible

supply since a week ago, but this was off-

set by further excellent growing crops re-

ported from the United States. The Chicago

market to-day may well be called a "day

of the week." Other American mar-

kets retrograded in sympathy, and at To-

ronto, Ontario red sold down to 94c, middle

freights.

At Liverpool, the July delivery to-day de-

clined 5/8d, September 3/4d and December 2 3/4d

per cent. At Paris, wheat closed 3 1/2

centimes lower for 1/2 cent. Antwerp wheat

down 40 centimes to 1/2 cent. Antwerp wheat
