Last month was the first time a clean-up had to be made before the end of the month on account of the abundance of gold.—Insurance Chronicle. Rossland Shipments.

Rossland, B.C., Oct. 14.—The week's shipments of ore total 428 tons. The Le Roi closed down for four days on the 13th and no shipments were made for the last two days of the week. The War Eagle and Centre Star were obliged to shut down on three different days during the week, owing to breakdowns of electric power service, hence shipments are lower than previous week

Another Rich Strike, Rossland, B.C., Oct. 14.—Ore brought into this camp from the new strike on the Winnipeg, in Boundary, has shown very high values in copper and gold. Five samples taken across the face of the 46-foot ledge uncovered averaged \$87.39 in all values.

The Coxey of this camp will ship next week week. Weather extremely cold all week.

A Protest From Skaguay.

Skaguay, Alaska, Oct. 10, via Seattle, Oct. 14.—At the suggestion of Congressman Cushman, the Skaguay Chamber of Commerce held a public meeting last night, at which a resolution was adopted protesting against the leasing to Great Britain of a port on the Lynn Canala. The preamble of the resolution stated that the aggregate wharfage at this port from January to September had been over fifty thousand tons, of which twenty thousand tons were American goods, and that the amount of goods shipped through in bond during the period was over \$2,000,000.

Two robbers detached the engine from the rest of the train, and white was told to pull out. The robbers ordered him to take his engine two miles up the track.
