SMALLPOX—WHEREAS THE SMALL-
POX is alarmingly prevalent in several of the adjoining States, and there is great danger that it will appear in Ontario, the Board of Health would direct the earnest attention of all heads of families to the immediate necessity of attending to the vaccination of their children. The Provincial Board of Health has made compulsory that all local Boards of Health have all persons vaccinated who have not been successfully vaccinated within the past seven years. This is sufficient warning to the general public to secure the conviction of any person who does not comply with the law. To make it convenient for every person concerned, the medical health officer will attend each school in the township of Westminster for the purpose of vaccination. Due notice will be given as to time. Township of Westminster, March 13, 1899. John S. Cousins, Reeve. b&w

DROWNED IN A FLOODED FIELD!

Sad Fate of a Young Man From Delaware. Named McPherson.

[G. N. W. Special to The Advertiser.]

Komoka, Ont., March 13.—Thinking to escape the dangerously flooded roadway, a young man named McPherson, belonging to Delaware, drove into the fields about a mile west of here yesterday afternoon, and attempted to urge his horse through the water at a seemingly safe point. The animal entered the stream, but backed out again. The young man was warned by an on-looker not to attempt the passage, but disregarding the warning and the animal's instinct, he applied the whip. The swift current upset the rig, and threw him into the water. Nothing could be done to save his life. The body has not yet been recovered.

THAT WREATH

Which Sir John Thompson's Colleagues Haven't Paid For.

[C. P. R. Special to The Advertiser.]

Ottawa, Ont., March 13.—A. H. Barrie, consul for Mrs. W. B. Davidson, of Montreal, writes to the press refuting statements made by the Citizen that the late W. B. Davidson, of Montreal, was guilty of extortion in demanding the price of the floral wreath supplied at Sir John Thompson's funeral by ministers who were his colleagues. After quoting from the evidence of Mr. Coste, chief engineer of public works, that Sir Mackenzie Bowell ordered the wreath for the ministers, Mr. Barrie quotes Sir Mackenzie Bowell as saying in his sworn statement the other day at Belleville as follows: "I don't hesitate to say that if I had the remotest idea that as members of the government, we were personally responsible for what was done, I would at once have tried to have it settled up. That whatever is proper, I don't hesitate to say that Marchand's fighting the order of the wreath was an act for which, individually and personally, the members of the cabinet were responsible."

THE GROWING TIME

Business Prospects All Over the Dominion Are Bright.

Toronto, March 12.—Bradstreet's weekly review of Canadian trade says in part: There has been quite a marked improvement in business at Montreal this week. The general condition of trade is healthy, and payments throughout the country are reported by the wholesale people to be much better than this time last year.

Wholesale trade at Winnipeg the past week or ten days has been retarded somewhat by cold weather, but retailers are more inclined to stock up. The arrival of settlers is having a good influence on business, and the outlook is bright.

Business prospects in the Pacific province were never as encouraging as they are now.

The past ten days has been the busiest in the wholesale trade at Toronto since the first of the year.

Country remittances are good, and failures are few.

The Queen in France

Meets With a Most Enthusiastic Reception.

Deaths by the Queensland Hurricane Total 250.

Evidence That the Toulon Magazine Explosion Was No Accident—Severe Conflicts Between Turkish Troops and Tribesmen—Britain and Germany.

Boulogne-Sur-Mer, March 13.—Immense crowds awaited the arrival in the harbor of the special steamer bearing the Queen, while the town and all the vessels in the port were decorated with bunting, and the route was lined with troops. A brilliant gathering of military and naval officers boarded the steamer, and were introduced to the Queen, who, speaking in French, cordially thanked them for the welcome extended to her. Several superb baskets of flowers and a number of engravings, representing the last visit of her Majesty to Boulogne in 1883, were presented to the royal visitor. As the Queen's special train drew out of the station an artillery salute was fired.

Queen Victoria arrived at Nice on Sunday by special train from Boulogne-Sur-Mer. When passing through Toulon, her Majesty summoned the subprefect, and expressed to him her sympathy with the families of the victims of the explosion of the naval powder magazine at La Goubiran, promising to send a donation to the relief fund. All the customary honors were paid her Majesty on her arrival. The streets were thronged with people, cheering heartily, and the municipal authorities presented a magnificent bouquet in the form of a gondola, mounted upon a tripod, and surmounted with two vases and other emblems.

250 LIVES LOST.

It is now known that not fewer than 250 lives were lost in the recent hurricane that swept the Queensland coast. Only a few white people were among the victims.

THE TOULON EXPLOSION.

The police authorities in London and on the continent are in possession of information indicating that the Toulon explosion of last Sunday was part of a plan to destroy several magazines in France.

The Paris Eclair confirms the report that the government inquiry regarding the explosion of the navy powder magazine at La Goubiran has shown that it was not of accidental origin.

FIGHTING IN ARABIA.

According to a dispatch to the Morning Post from Bombay severe fighting has taken place between the Turkish troops and the Arab tribesmen near Shukin, in the province of Yemen. Arabia, where an insurrection has been progressing for ten months. The Turks lost 160 men and the Arabs 300.

TWO NEW BATTLESHIPS LAUNCHED.

The British battleship Glory, 12,000 tons, of the type of the Canopus, was launched at Birkenhead Saturday morning. The Glory is designed to develop a speed of 18 knots. The battleship Implacable was also successfully launched at Devonport. The Implacable is of 15,000 tons and 15,000 indicated horse power, and will carry 16 guns.

WILLIAM'S VISIT TO ENGLAND.

London, March 13.—Emperor William, it is announced this morning, will arrive at Cowes on July 29 for a yachting week. The Daily Graphic in commenting upon the announcement, says: "Coming immediately after the emperor's reception of Mr. Cecil Rhodes, it makes the complete reconciliation of Great Britain and Germany."

The Berlin correspondent of the Daily Mail says: "I am informed that Emperor William displayed great interest in the conference with Mr. Cecil Rhodes, asking many questions as to the latter's schemes, without, however, going into details or revealing his own views. He was especially keen regarding the telegraphic portion of Mr. Rhodes' project, and it is understood he has not yet abandoned his hope of visiting Egypt to see the work that has been accomplished there with his own eyes."

RUNAWAY AUTOMOBILE.

An exciting incident occurred on Friday at Nice, on the Promenade des Anglais. Prince Lubomirski's automobile, which had been left momentarily outside the Hotel Beaurivage, ran away. The machine tore along past the public gardens, and ran into a carriage and pair belonging to the late Baron de Reuter. Finally, after nearly knocking down an Englishman and his wife, it crashed against one of the pillars at the entrance of the Hotel des Anglais. The automobile was ruined, and the driver is in the hospital.

FRENCH VERSION.

The Paris Eclair publishes details supplied by the Duc de Castres concerning the Mahdist attacks on Major Grenier's Association, to look up the clearing of the tobacco groves to provide suitable buildings for a warehouse and stripping factory for the English tobacco firms, should they decide to locate one of their factories at Amherstburg. Petitions to the Dominion Government were largely signed, asking that the customs and inland re-

vented a very battered appearance, her rails being carried away or twisted, and her topmost gone. Reporters were not allowed on board.

U. S. TROOPS MAKE A DASH

On the Insurgents in the Vicinity of Pasig.

The Filipinos Make a Feeble Response.

A Gunboat in Action—Fasig Captured by Gen. Wheaton's Forces With Small Loss to the Americans.

Manila, March 13—4:50 p.m.—Gen. Wheaton attacked and captured the city of Pasig, East Manila, this afternoon. The enemy made a stand for an hour, but at the end of that time were forced to retreat. The loss of the Filipinos was 30 killed and 16 wounded. Of the United States forces 6 were wounded.

THE FIGHT.

At daylight today Brigadier-General L. Lloyd, Wheaton's divisional brigade, consisting of the Twenty-ninth United States Infantry, the Twenty-second Infantry, eight companies of the Washington Volunteers, seven companies of the Oregon Volunteers, three troops of the Fourth United States Cavalry and a mounted battery of the Sixth Artillery was drawn up on a ridge behind San Pedro Macati, a mile south of the town. The advance was sounded at 6:30 a.m., the cavalry leading the column at a smart trot, across the open to the right, eventually reaching a clump commanding the rear of Guadalupe. Supported by the Oregon's advance opened a heavy fire on the rebels.

and desultory, apparently coming from a handful of men in every covert. While the right column was swinging around the town of Pasig, the left advanced, pouring volleys in the bush. A small body of rebels made a determined stand at Guadalupe Church, but the enemy was unable to withstand the assault. At 7:30 a river gunboat started towards Pasig. The rebels were first encountered by this vessel, but the gunboat poured

from her Gatling guns into the brush. For all of an hour the whirling of the rapid-fire guns alternated with the booming of the heavier pieces on board. In the meanwhile, Scott's battery ashore was shelling the trenches, and driving the enemy back. The artillery then advanced to the ridge of bamboo and drove a
