

POLITICAL INTELLIGENCE

Centre York Liberals are already looking around for another candidate. They believe that in a general election Capt. Tom Wallace can beat Dr. P. D. McLean, M.P., elected in the by-election a year ago. There is dissatisfaction, too, because Dr. McLean didn't give the Liberal candidates in the Yorks a hand in the provincial elections.

The election at present for a candidate is Rev. D. C. Hossock or John C. Eaton. The latter, many believe, could hold the riding if the cars to enter politics.

The appointment of Hon. J. M. Gibson as lieutenant-governor of Ontario makes five of the late Ross government who have been taken care of: Hon. G. W. Ross, senator; Hon. F. R. Latchford, judge; Hon. John Dryden, commissioner; Hon. G. P. Graham, federal minister; Hon. J. M. Gibson, lieutenant-governor.

W. P. Telford, M.P., announces his retirement. North Grey Liberals will convene on Sept. 4, and it is expected Hon. A. G. Mackay will be the candidate, and others mentioned are: W. H. Wright, law partner of I. B. Lucas, M.L.A.; Fred Harrison, manufacturer; John Wright, merchant and manufacturer; W. G. Morgan, merchant; John W. Frost, Owen Sound, solicitor; Mayor Kennedy.

A rumor was current yesterday that George D. Grant, M.P., proposed resigning from the Liberal caucus. The World called up Mr. Grant, who said that his health continued to be unsatisfactory, but he had made no decision as to his intentions. He intimated, however, that if he was able to bear the rigors of the campaign he would stay in the field.

It is said that Hon. A. B. Aylesworth has sent word from Vienna, Austria, that he will accept the Liberal nomination in North York if it is tendered there. The law firm of Aylesworth, Wright, Moss & Thompson had not heard up till yesterday from Mr. Aylesworth as to the result of his consultation with the eminent jurist of Vienna.

R. L. Borden reached Halifax on Monday night. On Monday next he will address a meeting of his tour of the east at Bridgewater, N.S.

W. H. Shaw, Liberal candidate in North Toronto, is the first to have his election card out. It is adorned with his picture and a reference to his everyday business.

Rev. D. C. Hossock was yesterday relieved from his ministerial duties by the Presbytery, and is now free to adopt politics, if he chooses to.

Conservative organizers complain that they can't get copies of the amended election law.

South Huron Liberals, who acted in an official capacity in the late by-election, are still without their pay. They have sent some warm letters to Ottawa to hurry the cheques along.

Dr. Chisholm, M.P. for East Huron, has gone to Regina on a home seekers' excursion, but will be back shortly to prosecute his campaign.

Haughton Lennox, M.P. for South Simcoe, will be the speaker at the South Bruce Conservative convention to be held at Walkerton on Thursday.

Thunder Bay and Rainy River Conservatives will hold a convention at Port William on Sept. 12. Mr. Horn, a Port William lumberman, is said to have the call for the nomination, but there is no dearth of available men. C. W. Jarvis, a Port Arthur banker, is of the winning qualities, while several others think the chance of beating "Jim" Connors is so good that they would tackle the job.

A big political meeting will be held at Sorel, Que., on the occasion of the visit of Sir Wilfrid Laurier on Saturday. The prime minister will be accompanied by Hon. Messrs. L. P. Brodeur, Rodolphe Lemieux, Jacques Bouché and Sydney Fisher, in addition to a number of members of parliament. Excursion rates will be granted on the various railway lines and arrangements have also been made with the steamship companies with the object of affording special facilities to those wishing to attend the assembly. A large number of the Liberal clubs in Montreal will accompany Sir Wilfrid to Sorel, and delegations of citizens from St. John, St. Hyacinthe, Three Rivers and other places will also take part in the gathering.

The Globe returns to the discussion of anti-election prophecies. The other day it published a table showing the government majority in the present house to be 68, and among the majorities in the various provinces; deducing that it would take nothing short of a political earthquake to bring about a change of government. The World reprinted The Globe's figures and argued that it would not require tremendous convulsion to upset the administration. For instance, it was pointed out that if Mr. Borden captured only 11 seats in Ontario, and if Conservative calculations as to wins in some of the other provinces, notably British Columbia, New Brunswick and Manitoba, were anywhere near the mark, it would be prime minister.

It was shown that Sir James Whitney made a net win of nearly 40 seats in two elections, converting a minority of three into a majority of 68; therefore it might be argued by Conservative prophets that Mr. Borden would do at least half as well. If he wins 20 seats he would have nearly 50 majority in Ontario. This is not a prediction of what is going to happen. The World is merely trying to convince The Globe that everytime one party wins one seat it makes a change of two in the standing. Thirty-three net gains in all Canada will wipe out the 68. Mr. Whitney made nearly 40 net gains in Ontario alone in his two campaigns. But the Liberals have not even stuck to the 68. Yesterday it gave the

HOW TO CURE HEARTBURN.

The cause of heartburn and hiccoughs is fermentation in the stomach. Magical relief comes from Nervine, which cures the condition which causes heartburn, just as it relieves and cures indigestion, cramps, gas belching and other ailments of the stomach. No summer medicine half so good as a 25c bottle of Nervine.

majority as 74. As a matter of fact during the past session the majority fluctuated all the way from 52 to 65, and it is the voting M.P.'s who count.

"Much more depends upon the character of the men who are sent up from the various constituencies than the machine politicians like people to think," remarks The Montreal Star in an article pointing out the wisdom of making wise party nominations. "The indemnity grab, for example, would have been impossible if the constituencies had sent men to Ottawa who were super-sensitive of public opinion." The Star goes on: "The results of an 'exposure,' such as the land scandals of the west, the 'middlemen' scandals of the east, the insurance scandals affecting leading men on the opposition side, depend very largely upon the moral fibre of the men who sit in parliament and listen to them. If the constituencies send callous, party-hardened, cynical, 'machine-made' men to represent them, they must not be surprised if they regard serious exposures as so much matter-of-course and pocket greedily an increasing indemnity with a brazen leer at the protesting people who must pay it."

The same paper points out that the decent element at the conventions can make sure that the race is to be between two good citizens with different political views, and not between two "yellow dogs" with the same voracious appetites, but having access to different troughs. They should beware the "good fellow" ready to "treat the bystanders" every time he makes a haul—a man who "buys his popularity at the expense of the country and then uses that popularity to get near enough to the national chest to re-coup himself a hundredfold." Another factor to be considered, it says, is the fellow who thinks his whole business in parliament is to advance the interests of his party. The party managers want everybody to go to the polls, but only kind-dried partisans to go to the conventions.

"The purchase of The Telegraph and Times," observes The Star (N.B.) Globe (Liberal), "leaves the Conservative party without an organ in St. John, and with an election in the air this is regarded as a somewhat serious situation by the party managers. How to overcome the difficulty is now the subject of much speculation. A few days' look-see as if an effort was to be made to bring here an entirely new plant and start a new paper. To-day's reports are that this idea has been dropped. The papers to purchase are The Sun and Star. These papers are owned by a syndicate, headed by Hon. B. F. Pearson of Halifax, with Hon. H. R. Cameron as a large stockholder. They purchased the papers some time ago from Mr. W. H. Thorne, and it is said are now willing to dispose of them for something less than the original price. Thus some striking, interesting and important changes in the editorial opinions of some of our city contemporaries may be expected."

The Halifax Herald (Conservative) notes that in the government campaign in Nova Scotia Sir Borden has been "cruelly" overlooked and the province flooded with orators. Commencing at Sydney on Sept. 3, a tour will be made by Hon. William Patterson, Hon. George M. Murray, E. M. MacDonald, M.P., Hon. W. S. Fielding and Charles Marcell, M.P.

The following is from The Philadelphia Evening Bulletin: "Outside expert engineers who are well acquainted with the situation now consider that the total cost of the Grand Trunk Pacific when completed from Moncton to Prince Rupert will be not less than \$200,000,000, and state that the government and the railroad officials admit that the debt will reach well on to \$175,000,000. These figures were given out by experts during a private discussion which stated that over half of the Canadian million loan had remained with the underwriters."

"The general opinion expressed, and especially in business circles, is that the railway loans in Great Britain have come to the conclusion that the Dominion is very prosperous, she is going too fast and that a halt must be called all along the line. In many banks' office in Great Britain the story has come that the Grand Trunk Pacific is sure to cost at least \$80,000,000 more than the finance minister's estimate on the floor of the house of commons, and also the country is probably able to stand the difference, it is a blunder all the same. Then (the head of another hundred million will be spent building the Georgian Bay Canal, and still another large sum for the Hudson Bay Road. All this talk has created more than a little apprehension, even among the bankers of London and other sections of the United Kingdom, and has caused the comparative failure of the Canadian Government's loan of \$50,000,000."

R. L. Richardson's Winnipeg Tribune had a talk with a kindly type of old Liberal who expostulated that paper for exposing graft and wrongdoing in public places on the ground that it was a waste of energy and "nobody cared." The people had grown callous and were utterly regardless as to what their public men did.

He said the country was party cursed; that the people were divided into two hostile political camps. The Grif partisans could not even listen to the truth with regard to the doings of their leaders. They were as wedded to party, that they preferred not to hear and not to know that wrongs had been perpetrated. Even, if they did know, said the old man, he did not believe it would change their votes. It was his conviction that a similar state of affairs existed with regard to the other party; and therefore he concluded that "nobody cared," why should the Tribune, or anyone else, for that matter, bother their heads about trying to rectify public affairs and better the political conditions under which the country suffers? It has to get a lot worse," said the old Liberal, "the pendulum has to swing still further, before the people will wake up to a realization of the frightful conditions under which they have been living."

"Let us admit," says The Tribune, "that parties are very much alike. Like the various evangelical churches, there are good men and bad men in each, and the same is true of the Liberal and Conservative parties. Blind partisanship argues the densest ignorance and the same of stupidity. How are we to correct and regulate our public affairs, unless the people themselves

A NUGGET FOR ROBERTS.

Premier Whitney Has Pleasant Surprise for British General.

LONDON, Sept. 1.—(C. A. P. Cable).—"Bobs" attended a luncheon with Premier Whitney, Dr. Pyne and Dr. A. R. Pyne yesterday, when, much to his lordship's surprise, the premier presented him with a silver nugget. Its base was of copper and nickel metal, and was enclosed in a birdseye maple casket. Lord Roberts' sudden departure from Canada prevented the veteran from receiving it in Ontario. "Bobs" expressed his extreme pleasure and regretted his inability to visit Ontario. The nugget bore the inscription: "Presented by the Department of Lands, Forests and Mines of Ontario, on the occasion of Field Marshal Lord Roberts' visit to Toronto, in August, 1908."

Next Ones Fireproof. Directors of Union Stock Yards Discuss Rebuilding.

The directors of the Union Stock Yards met yesterday afternoon and discussed the rebuilding of the sheds burned on Tuesday evening last. Secretary-Treasurer Dods suggested that the buildings be fireproof in every particular, and the directors heartily agreed with him. Estimates will now be obtained of the comparative cost and merit of the cement and iron systems of construction. The directors will meet again next week. A special meeting of the shareholders will be arranged for shortly to pass their opinion upon the plans for rebuilding.

Yorkshire Post Objects. LONDON, Sept. 1.—(C. A. P. Cable).—Hamar Greenwood's remarks addressed to Canadians regarding Englishmen being overfond of their "boozes" has aroused the ire of The Yorkshire Post, which devotes a column to the severe castigation of Mr. Greenwood. Greenwood's declaration that the state church socially ostracizes and damns hereafter those who disagree with it. The Post characterizes as a disgraceful, untrue, unjust and abominable insult to the Church of England.

The Post quotes a Toronto correspondent as saying: "Everything here is directed against the Englishman. He is hated because he is an Englishman, and Hamar Greenwood is helping to keep up this hatred."

TORONTOWILL BUILD TWO NEW
TORONTO CHURCHES

Rev. Dr. Hossock's Resignation
Concurred in by Presbytery—
Two Jubilee Services.

The members of Toronto Presbytery held two busy sessions at St. James-square Church yesterday. In the absence of Rev. James Murray, moderator-elect, Rev. R. M. Hamilton presided.

The committee on the division of the presbytery reported adversely on the proposal, and the project will be dropped. Leave was granted the Davenport-road congregation to mortgage their property to the extent of \$15,000 to enable them to build a new church. It will cost \$25,000. The Sabbath school will seat 1000 scholars, and the church have an equal seating capacity.

The East Queen-street congregation was granted permission to sell the old Sunday school building and to mortgage the other property for \$45,000, to assist in the building of a new church.

On the report of the financial committee the presbytery decided to pay the travelling expenses of members of the Toronto Presbytery.

Rev. John McKenzie's resignation of the charge of the Holy Trinity was accepted. Rev. H. E. Turner was appointed minister of session.

A call from the Riverdale congregation, Page-avenue, to Rev. J. A. Miller, who has officiated there as an ordained missionary for the past year, was concurred in. The induction was fixed for Sept. 15. Rev. James Murray, moderator, will preside.

The presbytery reconsidered its action in granting permission to St. Mark's congregation to remove to the corner of Queen-street and Bellwood-avenue. A committee, with Rev. Dr. Gaudin as convener, reported and Rev. all the congregations interested, and report their action. "Dr. Neil will fall from his appeal to the synod."

The Western congregation will celebrate its 50th anniversary on the first and second Sundays in October. Rev. James Murray, moderator, will preside. Laskay congregation will celebrate its 50th anniversary the second Sunday in October. Rev. J. A. Turnbull will represent the presbytery and Rev. Dr. Gaudin will preside.

Dr. Gibson Howie, who recently arrived from England, was placed on the agenda for the next meeting, to proceed to Lebanon, Syria.

The determination of Dr. Hossock to adhere to his resignation of the Deer Park charge was reported and Rev. Mr. Fasken continued as moderator of session.

The presbytery decided to meet for the future at a hall in the Temple Building.

RESTORE TEMPORAL POWER.

Duke of Norfolk Urges Pope to Assert Authority.

MILAN, Sept. 1.—The Sacolo and other Italian Liberal newspapers print a rumor which, it is alleged, emanated from a Vatican source, to the effect that the Duke of Norfolk intends to provoke a vote at the Eucharistic Congress in London, next month, in favor of the restoration of the temporal power of the papacy.

The Canadian Railways' Exhibit Building at the Canadian National Exposition, Toronto, which opened on Aug. 29, will this year be a most attractive one, and the Grand Trunk Pacific has installed one of its finest exhibits. As usual the Grand Trunk is first with the completion of their exhibits for opening day and this year is no exception. Several new features have been introduced in connection with the reproduction by photography of the scenes in the summer resort of the Grand Trunk line and a new process of "sepia" bromides similar to those used in their exhibit at the Franco-British Exhibition. In addition to the scenes from the summer play-grounds there are large photographs of the new ferry operating between Cobourg and the south shore of Lake Ontario and interesting illustrations of St. Clair Tunnel, showing its operation by electricity.

The Grand Trunk Pacific are represented with a most attractive map of the Dominion of Canada, 24 feet long and 12 feet wide, showing the territory from coast to coast, and the lines of the new national transcontinental railway, proposed branches and the several territories which it is opening up. There is also a splendid collection of bromide enlargements from direct negatives of the new Pacific Coast City of Prince Rupert, its harbor and surroundings.

The fish and game interests of the territories contiguous to the Grand Trunk lines are represented by beautiful trophies of fishing and hunting, including all the species of fish native to the Canadian waters, and mounted heads of big game, as well as a collection of wild fowl and fur-bearing animals.

Another feature of this year's exhibit is a special room built of glass transparencies, showing scenes along the line and which will attract considerable attention.

A moving picture machine projects scenes in animation along the line of the railway. Altogether a visit to the exhibit will be interesting as well as attractive.

CAN MAKE A MAN OF YOU

Why should any man be weak, puny and debilitated, when it is so easy to be as big and husky as any man you see on the streets? Men with small, flabby muscles, thin chests, dull eyes, short of breath, lack of endurance, courage, ambition, sand or grit in their make-up, are the men who are weak. If they were not born weak, they could make physical giants of them.

I am not performing miracles. I have only discovered that what makes all this strength, this power, this force in a man is his Animal Electricity. That is what makes muscles and heart strong. When I find a man who has lost that power and feels only half a man, I want to give it back to him, and I can do it for I have done it for thousands.

There are men in every town in this country now who thank me for making them feel once more like men. I have only discovered that what makes all this strength, this power, this force in a man is his Animal Electricity. That is what makes muscles and heart strong. When I find a man who has lost that power and feels only half a man, I want to give it back to him, and I can do it for I have done it for thousands.
