"The Parisian Model."

Miss Gertrude Taylor, who sings the role of "Violette" in "The Parisian Model," which will be presented at the Princess, opening on Monday, is a pupil of the well-known and justly famed operatic teacher of New York, Mme. Papenheim. Miss Taylor is the possessor of a rich lyric soprano voice, and since her debut some five years ago, in "Florodora," her progress in her chosen profession has been rapid. The daughter of a well-known New York physician, she entered upon a stage career purely thru the love of her art. ### BABY'S GREAT DANGER DURING HOT WEATHER

More children die during the hot weather than at any other time of the year. Diarrhoea dysentery, cholera infantum, and stomach troubles come without warning, and when a medicine is not at hand to give prompt relief, the delay may prove fatal to the child. Baby's Own Tablets should be kept in every home where there are children during the hot weather months An occasional dose of the Tablets will prevent deadly summer complaints, or cure them if they come unexpectedly. Mrs. O. Moreau, St. Tite, Que., says: "My baby suffered from a se-vere attack of cholera infantum, but after giving him Baby's Own Tablets the trouble disappeared, and he regained health splendidly."
