N. W. Rowell Claims His Party Responsible for Its Existence.

LIQUOR SAVED HEARST

Government Was Elected by Money and Influence of Anti-Prohibitionists.

Vigorously and with considerably more heat than heretofore has characterized his remarks in political con-tests, N. W. Rowell, speaking in the interests of James Cane. Liberal can-didate in N. W. Toronto, last night accused the government of carrying on a campaign of misrepresentation against the policy of the Liberal party in regard to the Iduor question. "If the Liberal party is to be continually misrepresented," he said. "it must defend itself. I want to say that the Ontario Temperance Act would not have been on the statute books tonight if it had not been for the efforts of the Liberal party. Within a few days before the act became law the government was dickering with the liquor interests, attempting to make a compromise gipon the question of alcopromise upon the question of alco-holic contents. If they had not known that we would have offered strenuous opposition, that bill would have been maimed and made ineffective before it was put on the statute books."

Mr. Rowell asked if it was not a humiliating situation when the premier

humiliating situation when the premier of the province, after enacting prohibition as a national necessity, swallowed Mr. James Norris, advocate of a wine and beer license. "If any Liberal had come out with that declaration," he said, "I would have repudiated him." The meeting was held in Belmont Hall, Earlscourt, with about lifty persons present.

of the Conservative party to the liquor interests before the present act was snforced. He told how for many years on the issue of local option as against prohibition. "Everybody knows," he said, "that every barroom was a com-mittee room on that election. The mittee room on that election. The liquor interests knew who to support, and a quarter of a million dollars went into the fight and the Conservative government today holds office by virtue of their victory then. I would a thousand times rather have gone down to defeat upon that occasion that elected the government of the

Committee of One Hundred. He denied that the Committee of One Hundred had ever given him political assistance. That organization was brought into existence, he declarcd, the day after the government in 1515 laughed nd jeered down Sam Carter, Mal.A., when he moved in succession that the bar rooms be closed at 7, at 8, 9, and 10 o'clock, Mr. Carter of the control of

net 7, at 8, 9, and 10 sectors. Int. Carter, he said, then told them they would regret having treated a serious subject with such levity and threatened to stump the country in the interests of prohibition. Helped indirectly by himself and his supporters, he said the Committee of One Hundred was then organized.

He pledged himself, if returned to power, to abolish the patronage system and bring down more legislation directly in the interests of the workingman. He also declared himself in the control workingman workingman to the control of the

ra or of woman's suffrage.

Hartley Defart also declared himself as in favor of the abolition of the patronage system. This pernicious practice, he said, had elected men of calibre of Mark Irish, E. W. J. Owens, Tom Hook and Mr. Price, and sought to elect James Norris in Southwest Toronto. He twitted The Tele gram upon its double balance act in supporting the government after having declared that there was not a memher of the government who had ever done anything in the interests of hydro

NOT GOOD FOR HEROES.

An appeal is made to you as business men, to vote in Northwest Toronto in favor of Mr. James G. Cane. It is a matter of the utmost importance that there should be representatives of all the Business interests in the Community, in the Legislature and in Parliament. The Commercial Travelers of Ontario represent a large and important business interest in the Community. They are the connecting link between the Manufacturer, the Wholesale Merchant or Jobber on the one hand and the Retailer and the more local interests throughout the Province on the other hand. No one comes more closely and intimately in touch with local conditions everywhere than does the Commercial Traveler. He is, therefore, particularly well fitted to voice the views of the people and to discuss and recommend useful Legislation.

An opportunity is now offered, that does not often occur, for the election in Northwest Toronto of a man who has been closely in touch, not only with the business interests of the Province, but also with the more intimate local needs of the Community.

James G. Cane is an active, energetic business man, who has passed through all the stages of a successful business conditions.

Soldiers had the better of the play in overtime periods, netting two goals.

Adams and Spilivan were the stars of the game, displaying brilliant skating, checking and stick handling. Donnelly showed up well for the soldiers, and Green also did good work despite the fact that he came out of the hospital to play.

The first period ended 2 to 1 in favor of the Soldiers are seasion of maged hockey on both sides. The second session saw considerable good lockey, but tripping and general rough play spoiled the affair. The Soldiers scored the only goal in this period when Wight scored on a pass from Hennessey after thirteen minutes of play.

Genial in disposition, kindly and courteous in manner, sound in business judgment and firm in maintaining any principle or view to which he commits himself, the electors Northwest Toronto will make no mistake in electing him.

Mr. Cane's business ability, determination and firmness of character were so marked during the three years that he presided over the Commercial Travelers' Association of Canada as to demonstrate his right to appeal to you to vote for him and secure his election on Monday next. No traveler who resides in Northwest Toronto should leave the City on Monday morning before voting for him. The business men of Northwest Toronto will make no mistake in voting for

Associated Kin of C. E. F. Take Up Case of Soldier's Widow.

One hundred and two men volunteered in Toronto yesterday for active service. It brings the total offering already this week up to 548, of whom 246 have been accepted. Forty-eight men were accepted yesterday. Of these 27 were secured by the 257th Construction Battalion. The 256th Construction Battalion and Artillery Depot each obtained five.

Canadian soldiers at the front will regard with great satisfaction the action of the Associated Kim of the Canadian expeditionary forces. It has put into morion article \$ of their objects and obligations, which reads: "To assist all rightful claimants and the authorities in bringing about the prompt payment of leg timate pension claims, insurance and patriotic allowances" by kunching an appeal to the decision of Mr. Justice, Keily, dismissing the action of Mrs. Lancaster against the Metropolitan Life Insurance Company for the recovery of \$1000 insurance on the life of her husband killed at the front, the technical point being that her husband lived outside the limits of Toronto, whereas his application named his residence as Toronto. It is a point the Associated Kin propose to fight out to the end, so that destitute widows and orphans of soldiers and saflors fighting at the front play not be deprived of any of their rights thru technicalities.

The Associated Kin has spread to Woodstock, Ingersoll, St. Catharines, Thorold, Welland, Niagara Falls, Owen Sound, Chatham, Rincardine, Southampton, Collingwood, Kitchener, Whitby, Cornwall, Prescott, Brockville, Galt, Wiarton, Guelph, Stratford, Brampton, Brantford and many other points. "Knowing as we do the feelings of America, we have not failed to understend the thought which inspired the recent initiative of President Wilson," M. Poincare replied. "We were at quee convinced that in the mind of the president the suggestion made to the belligerents was in accord with the traditional friendship between our two nations. But being conscious that we are fighting for mankind, we find our selves without the right to lay down our weapons before we can sign a peace really humane; that is to say, founded upon principles which would make it workable and lasting, which would be consistent with the rights of nations, and which would spare the world from the repetition of such a terrible catastrophe as this war. Unhappily, it is certain that Germany, who pretends now to consider herself happily, it is certain that Germany, who pretends now to consider herself victorious, altho she can hardly entertain any doubt as to the end, is not ripe as yet for such a necessary peace. We therefore are condemned to continue the war until we—our gallant allies and ourselves—can obtain the reparations and guarantees rendered indispensable by the aggression of which we leave been the victims, but the sacrifices to which we have subjected quiselves, and by the losses which we have suffered.

"The answer is Clear.

"The answer which the allied nations collectively have just given to President Wilson is perfectly clear in this respect. For our part, we have nothing to conceal. We were attacked. We are defending ourselves. But we are not willing to be obliged to defend ourselves perpetually against fresh attacks. Therefore we are determined to have reparation for the past and guarantees for the future."

"You feel that the president

the correspondent enquired. "It will not be from our side," said President Poincare, "that will come any repulse of the generous ideas of President Wilson regarding the international agreements to be concluded as soon as the peace is signed in order to assure respect for the pledge given. On the contrary we very will ingly shall associate ourselves with that such understandings later may produce their full, beneficent effect, we must begin by restoring the right vio-lated and by protecting Europe against a peace which would contain the germ of further outrages."

tants. Note this that during 44 years France has strangled the pain which her old wounds have caused her. In 1871 Germany took from her Alsace and Lorraine, against the unanimous wish of the inhabitants. Whatever may have been the burning regret which she felt for this, France never would have been willing to make a war of revenge. We know too well. war of revenge. We know too well, alas, what a war must cost humanity. Instead, we waited, taking care to avoid all occasions for conflict. France proved herself patient and resigned. She endured provocations such as that of Agadir and many others. But today when war has been declared upon her without just motives; today when her blood has been poured out thru the fault of others, how could she fail to claim vindication founded upon right and justice? President Wilson and the people of the U. S. certainly will understand the high moral import of the answer of the allies."

Assets of Quickly Realizable Nature a Feature of the Report.

As usual an outstanding feature of Nova Scotia is the strength in case reserves and other assets of a quickly realizable character. Of the total labilities to the public of nearly \$97. 000,000, about 18 per cent, is carried in Dominion notes and specie, and the addition of the amounts due by other banks brings the proportion up to 36 per cent.; adding the investments in loans, there is seen to be 74 cents in mmediately realizable assets to meet each dollar of liability of the bank other than to its own shareholders, a position that amply provides agains any possible contingency.

Profits Increase.

The profits for the year were about \$32,000 larger than in 1915, and amounted to \$1,252,038. The payment of the usual dividend of 14 per cent. absorbed '\$910,000, \$50,000 was contributed to the officers' pension fund, \$38,500 to the various patriotic funds, and \$65,000 was paid to the government as a war tax on the bank's note and \$65,000 was paid to the government as a war tax on the bank's note circulation, the baiance of \$75,554 then left being brought forward to the current year. Deposits show an increase of over \$11,000,000, proportionately larger in the non-interest-bearing class, and they now total \$87,526,000. The cash held—\$17.526,000—is about the same as last year; bank balances are heavier by some \$3,200. calances are heavier by some \$3,200,-00; there is an increase in Dominion and Provincial Government securities proportion of loans made to meet do-mestic war obligations, and of over \$7,000,000 in public securities other than Canadian, principally represent-ing the bank's participation in ad-vances made to the imperial govern-ment on account of munitions. Lags advances made to manufacturers ac-count for an increase of \$900,000 in the current loans in Canada.
