

DON'T BE AN INDIAN

The Esquimaux never cooks his food and he is consequently the dullest man on earth. All the energy in his system is required to digest his raw food. It's just for this same reason that white men feel dull after a heavy meat dinner. Digestion is work and takes a lot of your vitality. Why not economize that energy for intellectual effort? You can do this by using Life Chips instead of cruder diet. It is so predigested as never to clog the machine, and the phosphates or brain food, which it contains in greater proportion than any other article of diet, is utilized almost at once.

Serve this delicious cereal alone or with cream or fruit. Sold at all grocers' at 10c package.

TROLLEY KILLS LITTLE BOY
ENJOYING BIRTHDAY PARTY

Harold Beasley, Aged Five, Has Brains Dashed Out in Front of His Home on Church Street.

While having a game of tag with several of his little playmates, Charles Harold Beasley, five years old, was struck and instantly killed by a south-bound car, within a few yards of his home, 240 Church-street, shortly after 6 p.m. Saturday.

Just how the accident happened is not clearly known. It is not thought that the child was rolled beneath the trolley, but that he was struck by the projecting gear and thrown in front of the front car tracks. The car, No. 103, which was in charge of Motorman J. Sage and Conductor G. Baker, is declared by eyewitnesses to have been going at a rather slow rate of speed, a statement which the fact that the body of the little victim was found to be stretched across the track, between the trolley and the front tracks, of the Johnston, who was one of the passengers, pronounced the little fellow to have been killed instantly. The head was badly crushed, the brains oozing out. The body was not mangled, or even bruised to any extent, the wheels having passed over his head.

The trolley on the car which is the most modern style, was found to be on three or four inches above the ground when the body was taken out, which would indicate that the trolley had not been rolled beneath. The trolley is a comparatively new one and in apparently good condition. It was on the scene within a few minutes of the fatality. Coroner Orr has been notified and will hold an inquest probably at 2 p.m. Monday.

A particularly sad feature was the circumstance that Saturday was the birthday of the little fellow, and he had been called in to the birthday party. It was while he was on his way to the party that the accident happened. The father, William Beasley, is a candy manufacturer.

MONEY SCREWS NOW PUT ON RUSSIA TO ASK FOR PEACE

No More Borrowing in Paris Till War is Concluded, Czar's Representative is Informed.

St. Petersburg, March 12.—(Via New York, Special.)—It is declared in official circles tonight that Kuropatkin has been completely defeated, and that his army is in extreme danger of capture or annihilation.

The czar's advisers are confident, however, that Kuropatkin will escape north and make immediate preparations for a battle at Harbin that will be decided on an even larger scale than the Mukden. Large bodies of troops are being hastily mobilized in southern Manchuria and are expected to reinforce Kuropatkin's army.

A quarter of a million men are to be rushed to the front in the hope of gaining an important victory. The czar is working for peace in the far east, but the collapse of the Russian military machine, Russia's best friend, Berlin and Paris, are applying the financial screw. On the Paris bourse to-day the Russian loan ministry declared that no further borrowing could be made in Paris.

FRANCE WAS CONCERNED. Minister Kokortsev said: "Then, indeed, we are beaten. The czar will recognize the inevitable—yielding eventually to considerations of humanity rather than to considerations of military honor. In the opinion here to-day, force majeure is the option here to-day, despite the assertions of the Russian foreign office that the military reverses do not change the situation.

ASSAILING HON. CLIFFORD SIFTON. Ottawa, March 11.—What is to be the attitude of the Liberal party and Hon. Clifford Sifton toward one another? Things look like a coolness. The Liberal party, indeed, hostilities have been made in one direction on the late minister and others are threatened. But if Mr. Sifton starts in he will likely be a match for his assailants.

Doing Good Work. A circular has been sent out by Superintendent Matheson of the Ontario Institution for the Blind, Hamilton, asking those who are desirous to make enquiries and forward information about blind children. Both of these institutions are worthy of support and the public who are aware of the facts of the case should communicate the facts to the institutions mentioned.

Indian Given Seven Years. Ottawa, March 11.—Isaac Lottridge, the Indian, arrested at Niagara by Chief Hamilton, for horse stealing, was tried before Judge Smith and sentenced to seven years in the penitentiary. The offence was committed in Carleton Place, Ontario, several months ago. Lottridge was caught after a chase of three months.

"Sandy" MacDonald Dead. Montreal, March 11.—The death is announced of "Sandy" MacDonald, a well-known man in this province.

Editor Munn Dies. New York, March 11.—Heavy Norcross Munn, editor of the Scientific American, died suddenly last night at his home in this city.

McLENNAN AND LOUDON
PUT UP GOOD DEFENCE

Former Undergoes Lengthy Examination—President Says Incidents Have Been Distorted.

The defence in the university charges had their innings Saturday morning and afternoon at Ospeo Hall. Prof. J. C. McLennan, at whose door the gravest charges have been laid, testified in his own behalf for two and a half hours and succeeded in scoring points after point against the charges preferred against him. He made a strong defence, and in addition to his rebuttal of the charges, he successfully proved a strong case with regard to his work around the university. Prof. Loudon also testified, and although a little weakened by illness he proved a good case.

Prof. Young went on with an examination in which the fiscal condition of the university was discussed and some of the president's troubles with members of the staff.

Mr. Hellmuth opened with the statement that so far as he knew the charges against Dr. McLennan were not true and that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904.

Dr. McLennan was called. His counsel, Mr. Ludlow, in his reply, first took up the matter of Dr. McLennan's work in regard to Crooke's tubes and electricity, and then took up the allegations that Dr. McLennan had taken away Dr. Chan's apparatus.

Dr. McLennan said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904.

Dr. McLennan said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904.

Dr. McLennan said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904.

Dr. McLennan said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904.

Dr. McLennan said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904.

Dr. McLennan said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904.

Dr. McLennan said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904.

Dr. McLennan said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904.

Dr. McLennan said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904.

Dr. McLennan said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904. He said that he was not a member of the committee that made the award in 1904.

GET a character with your washing powder

Consider the damage it can do. It is the most effective and the most economical way of washing. It is the most effective and the most economical way of washing. It is the most effective and the most economical way of washing.

had in good faith told Burton he was eligible, and when doing so he was on this he had called to England for information.

What do you say to the charges against you and Prof. McLennan in Saturday Night? asked Prof. Young. Do not think that anything could have been more distorted," replied the president.

"Well," said President Loudon, "I have been in university work and making awards for 41 years. If my character is not able to stand these attacks I wish to leave."

Mr. Hellmuth cross-questioned the president briefly. He mentioned the letter which the latter also received from Major-General Sir Arthur Ellis, to the effect that the thesis was the real basis for the awards.

President Loudon replied that he did not think that the letter Sir Arthur Ellis gave a correct presentation of the views of the British commission, who were in charge of the scholarship. He admitted that he did not approve of teachers awarding research scholarships. As far as securing one man who was a chemist and a physicist of sufficient ability to judge the relative merits of a chemistry man and a physics man working for the same research scholarship, he said it was impossible in this country.

Prof. Ramsey Wright testified regarding the eligibility of Burton in the award of 1904 and gave it as his recollection of the committee's opinion that Burton was eligible.

May be Long Adjournment. The sitting then adjourned, to meet again on Saturday morning. It will be possible for Mr. Hellmuth to secure an adjournment of another case. The adjournment is not expected. The next sitting may not be held for some weeks.

GREEN IS THE COLOR. London Tailors Plan Styles to Capture Taste of Men. London, March 12.—Should the confident predictions of tailors be realized, green will be the fashionable color for men's attire this summer—green in all shades, ranging between the aggressive green of the cat's-eye and the subdued green of the cat's-paw. The change has already indicated the change from the present sombre black and brown, which even the smartest men wear.

Oliver Green Homburg hats and automobile caps, dark green bowler hats, and green tweeds and still more pronounced green flannels are the new fashion for the summer. The editor of The Tailor and Cutter, whose fingers are on the pulse of the young man who seeks effect by his clothes, considers it a clever scheme to have the tailors follow suit, not only in color, but with notable changes.

Trousers, too, are to be much tighter. The lounge coat is lengthening in a marked degree. The waist is to be tight. The hat, who wishes to follow up to his coat must model his figure by the advertisement columns in ladies' papers.

The general tendency is to make the thin man a great asset in the wardrobe. A fashionable tailor in the west says men are becoming tired of black and gray. The colored coat is bound to come, for men's views are distinctly broadening in the matter of dress.

Walestent and the Navy. For instance, the fashionable waistcoat, or tie which is considered smart to-day would have been considered horribly vulgar last year. It just requires one or two to take this lead in a reform which most men are looking for.

However, the green of this season is a step in that direction.

CANADIAN BANKS IN CUBA. Montreal, March 11.—(Special.)—H. Vincent Meredith, assistant general manager of the Bank of Montreal, is now in Cuba, and his trip is connected with the rumored establishment of new branches of the bank in Havana and other in the City of Mexico. The Royal Bank, the pioneer of the Canadian banks in Cuba, has been doing a business here. The desire of the Bank of Montreal is to get a share.

Arguing one of the directors of the Bank of Montreal, was in the capital of the Mexican republic the other day, and it is said that he urged the entrance of the bank into that city without delay. It is also understood that the Bank of Montreal will soon have two new branches in the west.

BATTERY'S NEW COMMANDANT.

Capt. Mitchell of the 48th to Take Charge at Once.

Capt. James H. Mitchell of G Company, 48th Highlanders, has accepted the command of the 9th Toronto Field Battery of Artillery, in succession to Major E. Wyly Grier, resigned.

The announcement has been received with a feeling of extreme regret by the officers of the 48th regiment.

Lieut.-Col. Macdonald said: "I am indeed very sorry to lose him, but I consider him unquestionably one of the very best officers we have in the service."

Capt. Mitchell said that he had accepted the majority and would assume command of the battery at once.

The officers of the battery are enthusiastic over the future of the corps.

BALLOT BOX CASE THIS WEEK BUT NOT BEFORE WEDNESDAY

Grand Jury Has Been Already Empaneled for the Cause Celebrated at Belleville.

Belleville, March 11.—The grand jury for the spring sittings, which open here on Tuesday next, has been empaneled, and consists of the following: W. Wright, Tyndinaga; H. McTaggart, Tyndinaga; J. Brennan, Tyndinaga; J. G. Allison, Tyndinaga; G. M. Bird, Stirling; G. B. Hagerman, Rawdon; S. Green, Rawdon; F. G. Allen, Deseronto; F. D. Alport, Ford; R. E. Lewis, Belleville; W. A. Denyes, Thurlow; T. Hurley, Thurlow; P. Doran, Hungerford. T. Hurley of Thurlow is a son of J. M. Hurley, ex-M.P., fishery overseer for Eastern Ontario.

The department of justice evidently thinks that the parties charged with conspiracy will freely exercise their right to challenge jurors, for the attorney-general has directed the sheriff to empanel an extra number of jurors, and 36 have been summoned to attend the court. Upwards of one hundred witnesses have also been subpoenaed, so that the court room will be pretty well filled with witnesses and jurors. Outside of the ballot box cases the only criminal case is that of Onelaw Wynn, who is charged with stabbing and threatening to kill.

Ridley of Kingston, who gave sensational evidence at the investigation, was here a few days ago and in conversation expressed the opinion that he would get off light. He will, it is said, place his defence in the hands of a well known Conservative lawyer of this city. It is not likely that the ballot box cases will be reached before Wednesday, as the first day is expected to be taken up with civil cases and the grand jury's deliberations.

ILLICIT TRADE BROKEN UP. Berlin, March 11.—An active trade in smuggled arms at Ostrow, several miles from Kallisch, Russia, was broken up this week by the joint action of the Prussian and Russian authorities. The Prussian consular agent at Ostrow, a well known Conservative lawyer of this city, is not likely that the ballot box cases will be reached before Wednesday, as the first day is expected to be taken up with civil cases and the grand jury's deliberations.

Hold Up Trolley Car. New York, March 11.—Joseph Hardy and William Nowick, both young men, residents of Jersey City, were arrested in New York City last night, and robbed the conductor of \$12.

Earl Grey Invited. Peterboro, March 11.—Earl Grey has been invited by the directors of the Peterboro Industrial Exhibition to open the annual show on Sept. 25.

500 CHILDREN CONVERTED. Yankee Revivalists in London Start Crusade for Youngsters.

London, March 11.—The meeting at Royal Albert Hall to-day was the most striking of the mission of Reuben A. Terrey and Charles M. Terrey, the Chicago revivalists. It was a children's revival, conducted on the same lines as the others. Long before the doors were opened the vast square in which the hall stands was crowded with children, in omnibuses, carriages, vans and trolley-cars, down every avenue. On the doors opened, they surged up the broad stairs into the great hall, which was soon filled and several thousands were turned away. The hall presented a stirring scene. Twelve thousand children sang the glory song in unison chorus, led by Mr. Alexander. Mr. Terrey preached on "What a Child Can Do for Christ." Over 500 children went penitent to the platform at the conclusion of the meeting.

DYNAMITE KILLS HIM. Winnipeg, March 11.—While throwing some dynamite at Dunn's quarry at Stony Mountain this morning William Smith, an employee, was instantly killed in an explosion that sent him flying into the air. Smith was a well-known resident of Stony Mountain. He was 40 years of age and leaves a family of eight children and a widow.
