The Dunlap, Cooke Co., Ltd.,

Furriers to H.R.H. The Princess of Wales.

Makers of the Royal garment presented during the Tercentenary celebration at Quebec, July, 1908. The following is from the London Times:

"The garment is fifty inches long, made from the finest selected natural black Nova Scotia Mink, the buttons of purest 24 karat Nova Scotia gold, with settings of native pearls and amethysts. Garment is enclosed in casket of carved native woods, lined with cedar and embellished with Nova Scotia steel and gold. Value \$8,000.00."

Lord Strathcona, high commissioner for Canada, former Governor of the Hudson Bay Co., an authority on fine furs, said:

"The coat is the finest I have ever seen."

Our Exhibit was awarded the Gold Medal at Halifax Exposition and will be on view in our glass pavilion at the St. John Exhibition.

TRADE BEDFORD MARK.
SANITARY FLOORING.

B. MOONEY & SONS believe they have one of the very best flooring materials yet produced. The originators of Bedford Flooring have made many improvements since its first introduction and have it as near perfect as any floor laid in plastic can be made. It can be laid on wood or iron, is superior to tile in that there are no joints, and it does not work loose or have any cracks to collect dirt. Not only the floor, but the base board and wainscoting may be made of it, adapting it especially for use where sanitary requirements call for water-tight and dirt-proof floors. One of our claims is that Bedford Flooring does not crack or shrink, and never comes loose from wood or iron on which it is laid. "KANTLEAK," the modern Waterproofing Compound for concrete or brick construction can't leak.

B. MOONEY & SONS, 112, Queen Street.
