Poetry, &c.

When a poor little maid feels Her senses astray,
Cannot sleep on her pillow, nor rest all the day,
Sees a form still pursue her, do all that she can,
And this form should be that of a handsome young man,
Sly neighbours will whisper then, good lack-a-day!
The poor little maid's in a very sad way.
When of all the old friends she begins to grow shy;
When she speaks very seldom, and speaks with a sigh;
When, tho' witty or wise, she appears like a dunce,
And folks wonder what's come to the girl all at once;
Sly neighbours will whisper then, good lack-a-day!
The poor little maid's in a very sad way.

BRAGGING.—We love to hear a couple of chaps get together that understand it, and brag hard about what they can do. It's what Sam Slick calls "human natur'," and we can't study it too much. Here is about as 'cute a specimen of bragging, which resulted in the nonplus of one of the parties, as we have heard of late. Mr. Smith: "I understand, Mr. Jones, that you can turn anything neater than any man in this town."—Mr. Jones: "Yes, Mr. Smith, I said so."—Mr. Smith: "Well Mr. Jones, I don't like to brag, but there is not that live man on earth that can turn a thing as well as I can whittle it."—Mr. Jones; "Poh, nonsense, Mr. Smith, talk about your whittling! what can you whittle better than I can turn? Suppose, Mr. Smith, we take two grindstones, just for trial: you may whittle, and I will turn." Mr. Smith slid.

"Our prospects *is* very dark," said Break, the baker, on the occasion of the recent rise in flour. "Yes," said Mrs. Partington, "and so is your bread; but," said that estimable lady, looking benignantly on him through her specs, "your loaves are light enough."

Two handsome Manx maidens caught the eye of Prince Albert when he landed on the island, and extorted from his Highness the exclamation. "Really the shore is beaming with beauty!" The damsels that night would hardly speak to their sweethearts.

DELL'S
Hydro-Pneumatic Apparatus,
TO ANSWER EVERY PURPOSE OF
Warming & Heating,

Manufactured of various sizes and constructions as Hot Water Stoves, Carriage Warmers, Bed Warmers, Spare Bed Airers, &c. &c. &c.

A GREATER comfort or a more decided luxury can scarcely be conceived than results from the use of these Bed Warmers. Unlike all other attempts to heat beds by hot water, which confine the heat to the feet only, and warm the bed very inefficiently, however applied, in consequence of their warming merely the clothes, the feet, or whatever immediately touches their surface, DELL'S PATENT BED WARMERS depend for their decided advantage over all other plans ever before introduced, on the fact that they warm the air as well as the clothes; a difference so decided and remarkable, that invalids and others have invariably expressed their astonishment to find themselves in a complete *warm air bath* from the feet to the very shoulders the temperature appearing to remain undiminished, and the water still found warm enough in the morning to serve for washing, which to travellers and early risers is another advantage in favour of this apparatus; and will render their use indispensable in Club-houses, Hotels, Boarding-houses, &c. Professional gentlemen and all persons of sedentary habits will find this apparatus exceedingly desirable; placed in their apartment it acts like the hot water stoves, (heretofore noticed) keeping up, in small rooms, an agreeable and healthy warmth, as no vapour, smell, or other annoyance can possibly be experienced by using this contrivance for producing an agreeable summer heat.

Persons returned from hot climates, experiencing all the evils of cold, will find the equable temperature afforded by this invention particularly grateful; and all aged or other persons who are martyrs to cold will find their application so simple and effectual that they may place one or more on a couch, or in any easy chair, and thus receive the full benefit of the genial warmth communicated. And in cases of severe cold one of these Bed Warmers, covered with a flannel, and applied to the soles of the feet for two or three successive nights, will be found to give infallible relief. It is a well known fact, that numerous persons who have purchased, have never since passed a single *cold* night without one in bed.

One great advantage of these Bed Warmers is, they are so light and portable that they can, without the slightest inconvenience, be carried by persons travelling, who have only to order the Boiling Hot Water to be put in, and the apparatus placed in the bed previous to their going thereto, to ensure a warm and that greatest of desiderata—a dry bed.

The invention is already extensively patronized by the medical profession, and is being introduced into Hospitals and other public Institutions for the use of invalids.

In all cold climates abroad, in the Colonies, and in the East Indies, where Cholera, Ague, and like complaints prevail, these Bed Warmers will be found indispensable, and, indeed, must come into very general use in every quarter of the world.

TESTIMONY FROM
FRANCE AND PRUSSIA
TO THE MERITS OF
SANDS' SARSAPARILLA.

THE fame of this preparation is not confined to the limits of our own country, but by its powerful agency in arresting and curing disease, has won its way successfully into different countries in Europe, as the following unsolicited testimonials from individuals of the highest respectability shows in the most conclusive and satisfactory manner. The same happy success has attended its use there, which has *always* marked its course where ever adopted, and diseases have yielded to its health-restoring influence which Medical Men of profound skill find pronounced incurable. The most potent simples of the vegetable kingdom are united in this preparation, and the combination is such that one modifies and improves the other, and under the name of *Sands' Sarsaparilla*, is presented a compound differing entirely in its character and properties from any other preparation, and unrivalled in its operation on the system when laboring under disease. Its approval by Physicians and men of Science, and the uniform success which has marked its use, furnishes proof sufficient to convince every candid and discerning mind of its great superiority and value.

LEGATION UNITED STATES,
Berlin, Prussia, April 8, 1845.

MESSRS. A. B. & D. SANDS:
Gentlemen—Having seen your Sarsaparilla used in this City with great effect in a severe case of Scrofula, I have been requested to order three dozen bottles, which please send, on the payment of the enclosed draft on Messrs. Ionchim & Unkhart with the *least possible delay*. I am inspired only by a feeling of philanthropy, in begging you to publish this unasked testimony to the value of a medicine which, widely as it is known, is not known as it ought to be.
I am, gentlemen,
Respectfully yours, &c.
THEODORE S. FAY.

The following is an extract from a letter received from Mr. Mace, whose wife had been afflicted with a scrofulous affection of the nose, which baffled the skill of the first physicians in France, it commends itself to the attention of all.

RENNES, DEPARTMENT OF ILLE & VILAINE,
France, July 17, 1845.

Messieurs SANDS:
The Sarsaparilla sent has been received, and the great benefit my wife has derived from its use upon a short trial, as well as the high recommendations we have received, gives us great hopes of being able to cure with this medicine a disease that the most celebrated physicians of France have not been able to effect. My wife is fully determined to continue its use until a perfect cure is effected, and fearing what we now have will not be sufficient, please send us some more without delay, and be assured, gentlemen, we shall take pleasure in making known its great virtues to our friends and the public: and I doubt not that it will soon be extensively used here, and all over the world, and that many afflicted sufferers will hail with joy the knowledge that there is a vegetable preparation sufficiently powerful to eradicate their diseases. I have the honor to remain,
Yours respectfully,
J. MACE,
No. 1, Rue Louis Philippe.

The following is an extract from a letter received from Mrs. Bevan, who had been afflicted for several years with Scrofulous Ulcers, Dyspepsia, &c. and recently with an affection of the Throat and Chest.

BAILEYSBURG, Va. Dec. 12th, 1845.
Messrs. A. B. & D. Sands.—Before I commenced using your Sarsaparilla, my sufferings were almost past expression; my throat was completely ulcerated, I had a dreadful cough, and there were frequently weeks together that I could not speak above a whisper; and besides, the inflammation from my throat extended to my head, so that my hearing was very much impaired. After taking the Sarsaparilla a short time, my health improved, and my throat is now well; I am as free from cough and tightness of the chest as ever I was, and can hear quite distinctly. My throat has been well about three months, the cure of which has been effected entirely by the use of your Sarsaparilla. Your friend, LOUISA B. BEVAN.

For further particulars and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained of Agents gratis.

A NATURAL REMEDY
Suited to our Constitutions, and competent to the cure of every curable disease, will be found in
WRIGHT'S INDIAN VEGETABLE PILLS
OF THE
NORTH AMERICAN COLLEGE OF HEALTH.

THESE extraordinary Pills are composed of plants which grow spontaneously on our own soil: and are therefore better adapted to our constitutions, than medicines concocted from foreign drugs, however well they may be compounded; and as the INDIAN VEGETABLE PILLS are founded upon the principle that the human body is it, truth.

SUBJECT TO BUT ONE DISEASE,
viz: corrupt humors, and that the said medicine cures this disease on

NATURAL PRINCIPLES,
by cleansing and purifying the body; it will be manifest, that if the constitution be not entirely exhausted—a perseverance in their use, according to directions, is absolutely certain to drive disease of every name from the body.

When we wish to restore a swamp or morass to fertility, we drain it of the superabundant waters; in like manner, if we wish to restore the body to health, we must cleanse it of impurity.

The Indian Vegetable Pills will be found one of the best, if not the very best, medicines in the world for carrying out the

GRAND PURIFYING PRINCIPLE,
because they expel from the body all morbid and corrupt humors, the cause of disease, in an easy and NATURAL MANNER, and while they every day
GIVE EASE AND PLEASURE,
disease of every name is rapidly driven from the body.

CAUTION.

The citizens of New England are respectfully informed that in consequence of the great popularity which the above named Indian Vegetable Pills have earned by their astonishing goodness, a gang of counterfeiters are now industriously engaged in palming on the unsuspecting, a valueless and perhaps dangerous medicine, under the name of Indian Vegetable Pills.

This is to inform the public that all genuine medicine has on the boxes
WRIGHT'S INDIAN VEGETABLE PILLS
(Indian Purgative.)
OF THE NORTH AMERICAN COLLEGE OF HEALTH
And also round the border of the label, will be found in small type, "*Entered according to Act of Congress in the year 1840, by* WM. WRIGHT, *in the Clerk's office, of the District Court, of the Eastern district of Pennsylvania.*"

It will further be observed that the printed directions for using the medicines, which accompany each box are also entered according to Act of Congress, and the same form will be found at the bottom of the first page.

The public will also remember, that all who sell the genuine Indian Vegetable Pills are provided with a certificate of Agency, signed by
WILLIAM WRIGHT, VICE PRESIDENT
Of the North American College of Health.
and that pedlars are never in any case allowed to sell the genuine Medicine All travelling agents will be provided with a certificate of agency as above described; and those who cannot show one will be known to be mere impostors.

☞ Persons in this city and vicinity will also be on their guard against purchasing medicine purporting to be the Indian Vegetable or Purgative Pills, of Apothecaries or Druggists, as they are not allowed to sell my medicine, and any composition which they may offer as such must of necessity be COUNTERFEIT and injurious; therefore never purchase of them.

☞ Agents for the sale of the above in Nova Scotia:—Halifax, John Whitmon Esq.; Amherst, Mr. Arthur Masters; Digby, James Crowly; Kentville, Daniel Moore; Bridgetown, Thomas Spurr, New Brunswick:—St. Martins, Mr. Alex.
