

To the President and Members of the Provincial Rifle Association:—

We are unable to check the receipts so far as entrance fees, sighting shots, sale of ammunition, etc., are concerned, there being no corresponding data by which to do so. We think some system should be adopted whereby a check would be had and furnished on the receipts as well as on the expenditure. The Secretary appends to his statement the quantity of ammunition on hand, valued at \$83.36; also the liability of the Association of \$31.25.
