**CHAT WITH MAYOR ABOUT VALCARTIER**  
"Of course camp life is not so comfortable as home but the men seem to be very well satisfied with their surroundings. Whether the purchase represents the investment of Mr. Lauder's phenomenal earnings or whether he was acting for a syndicate I am unable to say."

**A Message to Thin Weak Scrawny Folks**  
An Easy Way to Gain 10 to 20 Pounds Of Solid, Healthy Permanent Flesh.

Thin, nervous, undeveloped men and women everywhere are heard to say, "I don't understand why I do not get fat. I eat plenty of good nourishing food."

What is the reason? You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food.

What is needed is a means of gently forcing the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. This person's body is thin and weak, and he is hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food.

A splendid way of working to overcome this sinful waste of flesh building elements and to stop the leakage of fats is to try Sargol, the famous flesh building agent that has been so widely sold in America in recent years. Take a little Sargol tablet with every meal and see if your cheeks don't quickly fill out and rolls of firm, healthy flesh form over your body, covering each bony angle and projecting point.

All good doctors suggest have Sargol or can get it from their wholesaler, and will refund your money if you are not satisfied with the gain and highly recommend it. It is inexpensive, easy to take and highly effective.

If you find a druggist who is unable to supply you, send \$1.00 money order or registered letter to the National Sargol Company, 74 St. Antoine street, Montreal, and a complete ten days' treatment will be sent you postpaid in plain wrapper.

Small Sargol is recommended only as a flesh builder and while excellent results in cases of nervous indigestion, have been reported, cure should be taken about using it unless a gain of weight is desired.

## BIG AND LITTLE BOYS PLAYING THE GAME

Mat Donohue was the umpire at the baseball game in the working boys' league at the Peters' playground, foot of Hanover street, last evening. He knows the game, for he used to play with the Halifax Socials before getting into the game in St. John. And he advises us all to watch the working boys' league, for out of the three teams playing some cracker-jacks are coming. A picked team from the league is ready to play any junior team in the city a week from next Friday night. The league is now in the second series for the season.

Farther down the field, the angle behind Aberdeen school, Herb Kinney last evening umpired the game in the small boys' league, and it possible it is more exciting than the other.

There were 228 boys, by actual count, on the Peters' playground one evening last week, when an exciting game was in progress.

In the day time, G. Lewis Porter has two ball leagues also playing a series of games that are growing in interest. There are three teams in the larger boys league, playing in the afternoon. The Rovers have thus far won two games, the Victors two and the Roses one.

In the small boys league playing in the morning are also three teams, the Red Sox, Giants and Cubs. The first named have won the first three games.

**Harry Lauder's War Loan.**  
I mentioned the other day that the war loan was good, because Harry Lauder was seen giving an order to his broker. Well, the transaction is now completed, and I am authorized to state (writes "Alert II" in the Financier) that the amount of the purchase was no less than \$10,000. The canny comedian bought just before the battle of Jutland took place, and is undoubtedly on a sure bet. Whether the purchase represents the investment of Mr. Lauder's phenomenal earnings or whether he was acting for a syndicate I am unable to say.

## British Win Sanguinary Attack

Paris, July 18.—The capture of Ovillers by the British necessitated one of the most sanguinary encounters of the advance, wires a correspondent of the Liberte. Nevertheless the British were well rewarded for their effort, for they gained possession of the broad highway leading from Albert to Bapaume.

The village was defended for ten days by two regiments of the Prussian Guard.

The correspondent says that of these regiments only 126 men survived, all of them having been captured. It was at Ovillers that the British offensive which began July 1, was held up, while the remainder of the line was advancing. From July 7 on the village was out of almost completely from the German rear, but it was not until July 14 that the desperate resistance of the Prussian Guard was overcome.

The Germans suffered greatly from hunger and thirst as the British certain of fire prevented the bringing up of fresh supplies. Some of the Germans are reported to have been poisoned by drinking polluted water from a pond, and others to have been driven mad by the bombardment. When the survivors left the village as prisoners the British presented arms in recognition of the bravery of their defence.

Petrograd, July 18, via London, 757 a.m.—A Russian victory over Tecton forces in Southern Volhynia has resulted in their being driven across the River Lipa and beyond that stream, says a
